Section I: Universidad Ana G. Méndez- Gurabo Campus

Our Profile

Universidad Ana G. Méndez- Gurabo Campus is a nonprofit institution of higher education located 15 miles southeast of San Juan, Puerto Rico, within easy reach of the entire east-central part of the island. Its 140-acre suburban campus and its fifteen buildings provide an ideal atmosphere for the learning experience. The university currently operates five (5) Additional Locations located in Barceloneta, Cayey, Yabucoa, Isabela, and Ponce, and four (4) US Branch Campuses, three (3) in Florida and one (1) in Texas.

It is a professionally oriented institution with a variety of offerings, from technical certificates to doctoral degrees. The institution serves a diversified student body mostly from the surrounding communities, with a variety of economic and educational backgrounds.

Founded in 1972, Universidad Ana G. Méndez- Gurabo Campus has continued to grow in the new millennium. The student population of more than 15,000 is composed of young adults and professionals. The academic staff consists of more than two hundred thirty-one (231) full-time faculty members and three hundred forty-seven (347) full-time equivalent professors. The fulltime faculty members hold doctorates and master's degrees in their fields of expertise. Nearly sixty (60) percent of Universidad Ana G Méndez- Gurabo Campus's full-time faculty hold a doctoral degree and thirty-five (35) percent of part-time faculty holds a doctoral degree. The gender distribution of the faculty is equally divided. Universidad Ana G. Méndez- Gurabo Campus is a member of the Ana G. Méndez University System.

Mission

Universidad Ana G. Méndez- Gurabo Campus is an institution of higher education with broad academic offerings of the highest standards of quality. Committed to excellence in teaching, research, innovation, internationalization, and social-

humanistic values for a diverse academic population, Universidad Ana G. Méndez- Gurabo Campus forms global citizens with critical thinking skills which contribute to the development and well-being of Puerto Rico and other countries.

Vision

The vision of the Universidad Ana G. Méndez- Gurabo Campus is to be the leading educational institution in teaching and research, which promotes innovation, entrepreneurship, internationalization, and sensibility towards cultural diversity and the environment.

Institutional Values Statement

Universidad Ana G. Méndez- Gurabo Campus is committed, as an institution of higher education, to:

1. Freedom of thought and expression
2. Excellence in teaching and the pursuit, generation, dissemination and application of knowledge
3. Respect the dignity of the individual
4. Respect nature and the environment
5. Promote ethical, social and cultural values
6. Recognize and respect diversity
7. Promote institutional excellence in planning, operations and service
8. Promote human and esthetic sensibility.

Institutional Objectives

To fulfill its mission, Universidad Ana G. Méndez- Gurabo Campus:

1. Maintains a flexible admissions policy in which each academic school establishes requirements for its programs.
2. Provides services to a diversified student body to help it achieve academic and personal goals.
3. Fosters research to strengthen the teaching and learning processes as well as to improve the quality of life in the surrounding communities.

4. Promotes the internationalization of its academic programs through strategic alliances.
5. Develops and implements a systematic faculty development plan to improve academic credentials, pedagogical competencies and instructional technology skills.
6. Recruits and develops quality human resources.
7. Provides academic skills and career-oriented activities to precollege students, as well as opportunities for continuing education, thus fulfilling the needs of the community.
8. Promotes the use of innovative and nontraditional teaching methodologies.
9. Promotes ethical values that will allow students to exert their professional judgment and performance responsibly.
10. Fosters the preservation and dissemination of those values inherent to Puerto Rican culture in a global context.
11. Establishes collaborative partnerships among universities, government, industry, and community organizations.
12. Contributes to students' awareness of their rights and responsibilities as citizens in a democratic society.

Accreditation and Affiliations

Universidad Ana G. Méndez- Gurabo Campus is accredited by Middle States Commission on Higher Education (MSCHE), 3624 Market Street, Philadelphia, PA 19104, telephone: 267-284-5000. The MSCHE is a regional accrediting agency recognized by the U.S. Department of Education. The Middle States Commission on Higher Education has extended this accreditation to the Metro Orlando, South Florida, Tampa Bay and Dallas Campuses.

Tallahassee, FL, 32399-0400; Toll Free telephone number (888) 224-6684 (www.fidoe.org/cie).

The Main Campus and additional locations of Universidad Ana G. Méndez- Gurabo Campus in Puerto Rico are licensed by the Puerto Rico Council of Higher Education and the Puerto Rico Council of General Education.

Statement of Policy

This catalog includes the main terms concerning the formal relationship between students and the SUAGM: Gurabo Campus. Regardless of its effective date, the institution reserves the right to admit, re-admit or register a student only for a semester or session separately. The institution binds itself only during the semester for which the student has enrolled and paid his/her tuition fees.

It is the student's responsibility to know and comply with the content of this catalog and all the SUAGM: Gurabo Campus rules and regulations. This catalog complies with the institution's bylaws, regulations, administrative orders, and duties under Federal Law. The catalog is subject to subsequent amendments.

It is the responsibility of each student to ascertain current information that pertains to the individual programs, particularly regarding the fulfillment of degree requirements, through frequent reference to the Catalog and its addendum, and by consultation with the academic advisor, counselor, and/or other appropriate office. For programs leading to licensure and/or certification, it is the responsibility of the student enrolled in the program to remain in contact with their academic/program advisor and keep informed of any changes implemented to the program to comply with new state and licensure requirements.

In preparing this catalog, efforts are made to provide pertinent and accurate information. Universidad Ana G. Méndez assumes no responsibility for catalog

errors or omissions. The first section and second sections of this catalog contain an overview of the Universidad Ana G. Méndez- Gurabo Campus and UAGM. Information that pertains to the Metro Orlando, South Florida, and Tampa Bay campuses is included in Section III. Section IV details information on the programs offered at Universidad Ana G. Méndez-Gurabo Campus, Florida campuses. This catalog is electronically available to students at least one week before enrollment. Students will be informed of any changes or amendments made to the Catalog.

Legislative Boards

The Administrative Council of Universidad Ana G. Méndez- Gurabo Campus is the legislative body of the Institution. Its main function is to establish the institutional policy of the University in accordance with the bylaws of the Ana G. Méndez University System. The Administrative Council includes the Chancellor, who chairs it, the vice chancellor, the vice chancellor of student affairs, the manager of physical facilities and operations, the deans of the academic divisions, five (5) faculty representatives, and two (2) student representatives.

The Academic Board recommends the academic policy of the Institution, adopts new academic programs, approves the awarding of degrees and evaluates hiring, contract renewals, promotions, and leaves of absence for faculty members.

The Academic Board consists of the vice chancellor, the library director, six (6) school associate deans, two (2) student representatives, one (1) faculty representative for each school, and as many elected faculty members as needed to provide for their majority on the board. The chancellor is an ex officio member of the Academic Board.

Academic and Student Affairs Commission

The Academic and Student Affairs Commission (A.S.A.C.) consists of fifteen (15) members as follows: eight (8) faculty facilitators and seven (7) administrators. The faculty facilitators include representation from the following areas: one (1) from liberal arts and criminal justice, one (1) from business administration, economics, and hospitality, one (1) from natural and health sciences, one (1) from Education, one (1) from languages, one (1) from Bilingual Education and ESOL, one (1) Campus at Large (South Florida), and one (1) Campus at Large (Tampa Bay Campus). The composition for the administrators is as follows: three (3) Academic Directors, three (3) Directors of Learning Resource Center, and the A.S.A.C Chair. Special Guests, other officers and facilitators shall be invited to participate

in the meetings of the A.S.A.C, when the agenda includes items that touch on those programs. A.S.A.C reviews and recommends course and program additions, revisions, and deletions and recommends policy related to academic offerings to the three affiliated universities in UAGM operations in Florida.

Section II: Sistema Universitario Ana G. Méndez

Profile

The Ana G. Méndez University System (the System) is a not for profit private corporation established under the laws of the Commonwealth of Puerto Rico. It is comprised of four (4) academic institutions, one (1) noncommercial private TV Station for public broadcasting, and a Central Administration, under which all administrative affairs of the institution are managed by a President/CEO. Together, the SUAGM and its four-member institutions are the largest private university system in Puerto Rico.

Continuing with its commitment to provide for quality access alternatives to a university education for Hispanic adult students and its tradition of service and collaboration to meet community needs, SUAGM has established the Metro Orlando, South Florida, and the Tampa Bay Campuses as additional locations in Florida and the Dallas Area Campus in Texas.

Moreover, in establishing SUAGM in the mainland SUAGM furthers its Vision 2020 as a “high-quality, people-centered learning community, of advanced technology, and internationally oriented focus”. The campuses in the mainland will serve its community and serve as a bridge to fulfilling initiatives in serving the needs of Hispanic adults in other communities in the United States and in Latin America.

Central Administration and Board of Directors

A thirteen (13) -member board of trustees governs the System. Of these, five (5) are permanent members. The other eight (8) members are elected by the board for two term periods of two (2) years each, and two periods of four-(4) years, that add up to a maximum of 12 years of service in the board. The board members are distinguished professionals who represent different career paths and fields of work, and/or civic and community leaders.

The chief executive officer (CEO) of Ana G. Méndez University System is the President, and there is also

an Executive Vice President. Each of the administrative and academic components has its own CEO. Thus, the Central Administration units are led by Vice Presidents for: Planning and Academic Affairs, Marketing and Student Affairs, Finance Affairs, Administrative Affairs, Human Resources, National Affairs, and International Affairs. There is also a Vice President and General Manager of Sistema TV., the only nonacademic institution the other institutional officers are the Chancellors of the four academic institutions, which are: Universidad Ana G. Méndez-Gurabo Campus, Universidad Ana G. Méndez- Cupey Campus, Universidad Ana G. Méndez-Carolina Campus, and Universidad Ana G. Méndez – Online Campus. All Chancellors and Vice Presidents respond directly to the President/CEO, who appoints them.

The System’s bylaws define the objectives, powers, officers, committees, meetings and the general handling of the financial affairs of the institutions. The Governing Manual describes the way in which the Board of Directors governs all institutional affairs. The Institutional Bylaws specify the way in which each one of the autonomous institutions will be operated and administered.

The Board is the policy-making, legislative and fiscal oversight body of the System. In addition to appointing the President, the Board is responsible of all corporate affairs and control of the corporation. It approves the institutional mission and vision, the strategic and long-range institutional plans, and its annual and special budgets. The President/CEO, who is also a Board member, is directly responsible to the Board for the administration of all corporate business; including the appointment of VPs and institutional officers; personnel administration and compensation; and recommendation to the Board of academic programs and long-range institutional plans. The Board has four working committees:

- Government
- Academic and Student Affairs

- Finance
- Audit

Students' Academic Requirements, Regulations and Services

Admissions

Non-Degree Programs

Applicants to UAGM US Branch Campuses must provide evidence of a standard high school diploma or its equivalent. If enrolling in a bilingual program, before enrolling in any course, applicants may be required to take a language proficiency assessment. Please refer to UAGM US Placement Protocol.

Undergraduate General Admission

General Requirements for Admission:

1. The applicant must provide evidence of a standard high school diploma or its equivalent.
2. Applicants who have completed previous college level coursework must provide evidence of a standard high school diploma or its equivalent and an official transcript from the transferring institution (this means a document issued by the institution which includes an official seal, generally with a stamp stating "official transcript").
3. If the applicant is enrolling in a bilingual program, before enrolling in any course, applicant may be required to take a language proficiency assessment. Please refer to the UAGM US Placement Protocol and the Transfer Credit Policy.

Applicants that do not meet one or more of the above-mentioned requirements can apply for admission. They will be interviewed by the Campus Director or his designated representative). The Director or his authorized representative will determine if the applicant can be admitted. *Additional requirements may apply to specific academic programs including but not limited*

Every applicant to the UAGM institutions in the State of Florida can demonstrate compliance with the

admissions requirements related to prior academic experience and/or achievement by presenting the original of any of the following documents:

- Evidence of previous credits, courses or studies documenting graduation from secondary school
- A General Education Diploma (GED) or other diploma or graduation document
- Certification prepared by a secondary institution or appropriate government agency, board, etc. confirming completion of secondary school or equivalent
- Grade report prepared by a secondary institution or appropriate government agency, board confirming completion of secondary school or equivalent

Applicants should present one or more of the original documents to the authorized institutional officer. The officer shall examine the document(s) to corroborate, in his best judgment, that it is original and has no visible alterations. If the applicant cannot leave the original document for his admission record, the officer will make a copy and certify with his initials that it is a copy from the original.

Graduate General Admission

General Requirements for Admission:

1. The applicant must submit an official transcript, as defined above, providing evidence of an earned baccalaureate degree with a minimum cumulative grade point average (CGPA) of 2.25.
2. Applicants with a CGPA of less than 2.25 may be admitted to the institution at the discretion of the Campus Director via a documented personal interview.
1. If the applicant is enrolling in a bilingual program, before enrolling in any course, applicant may be required to take a language proficiency assessment. Please refer to the UAGM US Placement Protocol and the Transfer Credit Policy.

Specific Program Admission Requirements

Bachelor of Arts in Education (BA) Major in Elementary Education

1. Minimum GPA 2.50

Bachelor of Sciences in Nursing (BSN) Major in Nursing

1. The applicant must have High School Graduation Diploma or its equivalent (GED).
2. The applicant must have a Grade Point Average (GPA) of at least 2.50 on a scale of 4.00.
3. The applicant must undergo an admission interview process with the Associate Director or his/her designee. In this, a protocol designed to identify the expected qualities will be followed.
4. Applicants to the BSN program with a conferred ADN and an active, unencumbered RN license, via examination, from the Continental United States, will be admitted to the BSN programs as transfer students accepting the nursing credits completed in their ADN. General Education and Professional courses with a passing grade will be evaluated for transferability. High School Diploma or its equivalent (GED)

* Undergraduate General Admission Requirements do not apply to the BSN program.

Bachelor of Sciences in Community Health (BSCH) Major in Community Health

1. High School Graduation Diploma or its equivalent (GED).
2. Minimum GPA. 2.50 or its equivalent or evidence of 2 years of work experience.

Bachelor in Social Work (BSW)

1. Social Work Baccalaureate program admission criteria requires a minimum High School grade point average of 2.25 or equivalent.

2. Students complying with the GPA requirement will write an essay about their interest in the social work profession in the language of their preference (English or Spanish) that will allow for the evaluation of the qualifications and aptitudes to human services, and their awareness of the community's social problems.
3. All applicants admitted must take English and Spanish Placement Tests. Students that do not place at college level English or Spanish are required to enroll and pass developmental language courses in either or both languages prior to enrolling in Social Work major courses.

* Undergraduate General Admission Requirements do not apply to the BSW and Community Health programs.

Master of Science in Nursing (MSN) Family Nurse Practitioner

1. Hold a Bachelor of Science of Nursing.
2. Minimum GPA 3.00
3. Basic statistics course at the baccalaureate level (3crs).
4. Active Florida Professional Nursing License.
5. Complete an Interview process with the Associate Director of the program or his/her representative.
6. Submit three letters of recommendation.
7. Submit evidence of credits at the Nursing Bachelor's Degree with the admissions forms.

Appeals of Admission Decisions

Undergraduate and graduate applicants may appeal admission decisions to the Campus Director. The Director will request from the student any information needed to evaluate the appeal. The Campus Director's decision may be appealed in meritorious cases to the Chancellor or Vice-president of National Affairs.

Readmission

Once admitted to a program, it is expected that a student will register consecutively each term (except summer) and maintain satisfactory academic progress. Students with satisfactory academic progress that wish to resume their studies after an interruption of one semester or more must apply for readmission and:

1. Have a cumulative GPA that meets the retention index.
2. Complete the required percentage of credits of the total attempted credits.
3. Have completed the period of suspension due to academic reasons, accumulated credits or for disciplinary reasons, if applicable.
4. Fulfill the current existing requirements of the program of study applied to, and all other general admissions requirements that apply

Each student applying for readmission to the Institution will be subject to the current curriculum in effect for the program of study to which he or she is admitted. Each candidate for readmission may be subject to an interview with the Integrated Services Director or Associate Registrar.

Admission Validity

1. Students can only enroll in programs offered at the time of their admission or readmission.
2. Admission or readmission to UAGM-Universidad Ana G. Méndez- Gurabo Campus Branch Campuses will be valid for one semester of the academic year, beginning on the date it is granted.
3. Students must fulfill the admission requirements by the dates established in the academic calendar. Applications that are not accompanied by the required documents or that do not meet the established requirements will be considered provisional applications. If the documentation is not received within the

semester for which the application is submitted, the Institution may invalidate the student's provisional admission and cancel his or her provisional application.

Transfer Students form Other Programs or Universities

Students from other fully accredited universities may be admitted. Transfer credits will be considered attempted credits (T grade) and will not be considered for the calculation of the retention or graduation index.

Residency Requirements

1. Each student who transfers to the UAGM Programs must observe the following rules to establish residency and be eligible for graduation:
 - a. Complete a minimum of thirty (30) credits, six (6) of which must be in the major or concentration courses of the bachelor's degree programs offered at the University.
 - b. Complete a minimum of (24) master's degree credits offered at the University.

International Students

1. All requirements for admission, readmission, and transfer will apply to international students.
2. Admission for international students will be subject to the immigration laws and regulations in effect.
3. UAGM-Universidad Ana G. Méndez- Gurabo Campus at all Branch Campuses is authorized to receive international students. Interested applicants must contact the Director of Integrated Services at each campus for the specifically related processes.

Dual Language Model

Dual Language Nature of Degree Programs

Degree programs at the SUAGM-Universidad Ana G. Méndez- Gurabo Campus Branch Campuses are bilingual (English/Spanish) following the dual language 50/50 approach in which courses are taught 50% in English and 50% in Spanish. English and Spanish courses do not follow the 50/50 approach. All students will be tested for placement in the appropriate level of English and Spanish courses required for the degrees. Applicants, who do not demonstrate basic knowledge in English or Spanish, as determined by test results, must complete additional language courses.

A graduate of SUAGM-Universidad Ana G. Méndez- Gurabo Campus Branch Campuses is expected to be a Dual Language Professional who demonstrates professional competencies confidently in their field of study in English and in Spanish.

Language Placement Tests and Developmental Courses

All admitted students are required to take our English and Spanish language placement examinations. These tests help to place students in the most appropriate language level and courses. According to their results, students may be required to register for developmental language courses. Developmental courses considered non-credit hours do not count towards graduation on any specific career program.

Students may have taken these examinations prior to being admitted as part of their orientation or application process. The test scores and placement results are considered valid for enrollment if they are not older than one year. Placement test scores and placement results are valid for one calendar year. Students are advised to come prepared. Placement exams may take between 2 to 4 hours, depending on their proficiency in both languages.

Undergraduate Developmental Courses

The undergraduate English language developmental courses are ENGL 050-O and ENGL 102-O. Students are required to take both as a sequenced order or only ENGL 102-O, depending on their placement exam score. These courses must be taken during the student's first semester of enrollment as they are designed to prepare students for rigorous academic work.

The undergraduate Spanish language developmental courses are SPAN 100-O and SPAN 102-O. Students are required to take both or only SPAN 102-O, depending on their placement exam score. These courses must be taken during the student's first semester of enrollment as they are designed to prepare students for college level academic work.

Testing Out of Developmental Courses (Undergraduate)

Undergraduate students who are proficient in either English or Spanish, as demonstrated by attaining a predetermined score on the placement exam may not need to enroll in developmental courses. These students will be asked to complete and pass a written essay examination and an oral interview. If successful, students may start taking language credit courses and begin working towards their degree from the start. Otherwise, students must enroll in the corresponding language developmental course.

Graduate Developmental Courses

The graduate English language developmental courses are ENGL 500-O, ENGL 501-O, and ENGL 502-O. Students are required to take one, two or the three developmental courses as a sequence, depending on their placement exam score. These courses must be taken consecutively during the student's first semester of enrollment as they are designed to prepare students for rigorous academic work.

The graduate Spanish language developmental courses are SPAN 500-O, SPAN 501 and SPAN 502-O.

Students are required to take one, two or the three developmental courses, depending on their placement exam score. These courses must be taken during the student's first semester of enrollment as they are designed to prepare students for college level academic work.

Testing Out of Developmental Courses (Graduate)

Graduate Students who are proficient in either English or Spanish, as demonstrated by a high score on the placement exam, may not need to enroll in developmental courses. These students will be asked to complete and pass a written essay examination and an oral interview. If successful, students will not need to take language courses at the graduate level and begin working towards their degree from the start.

Graduates from Bilingual Bachelor's Degrees

Graduate students from a bilingual bachelor degree received in any of the United States Campuses are not required to take developmental language courses.

Method of Instruction

The Accelerated Studies Program Course Format

The Accelerated Studies Program is offered in semester courses that are scheduled in five (5), eight (8), ten (10) and fifteen (15) week sessions. Classes meet once a week for four (4) hours Monday through Friday from 6:00pm - 10:00pm. On Saturday, classes are from 8:00am - 12:00pm and 1:00pm – 5:00pm. Each Campus reserves the right to schedule classes in another time slot.

The students will be required a minimum of 10 hours of individual or teamwork outside the classroom per week per class. Faculty and students will have access and interact through Blackboard for coursework outside the classroom.

Course Modules and Language of Delivery

Universidad Ana G. Méndez- Gurabo Campus Branch Campuses follow the Discipline-Based Dual Language

Immersion Model® developed by Sistema Universitario Ana G. Méndez for its courses. This model provides for the development of English and Spanish language skills while equally exposing all students to the general education and professional content in both languages. The model seeks to develop students who can function professionally in both English and Spanish.

The rigorously selected and certified faculty community at all mainland campuses utilizes a wide variety of educational materials and resources as well as course modules as part of the teaching-learning processes. The instructional modules contain the information on course objectives, topics, assignments, and most importantly serve as study guides for teachers and students by including rigorous learning activities to be carried out in class. Each instructional module also serves as a content planning guide that complements (not substitutes) course materials and textbooks. The modules divide the course into weekly workshops with their own specific objectives and recommended activities to meet the objectives.

Modules are prepared by program facilitators who received specialized training on module development. In order to prepare modules, faculty must be trained and certified as Module Developer Specialist and Dual Language Professional. All modules are available to students and faculty electronically through the Learning Management System: Blackboard® and can be accessed remotely through the Internet.

Modules for the Campuses also specify the percentages of instruction in English and Spanish used each week, ensuring equal exposure to both languages in the content area. Content courses are taught in the proposed dual-language format. Each lesson within a module contains specific information about the instructional language to be used. This can be controlled, for example, by specifically listing reading for a specific week in English, while assignments and/or student presentations are required in Spanish. Modules include texts,

references and hyperlinks in both languages and students will be engaged in classroom activities in both languages. The modules developed to allow the students to be exposed and to facilitate their use of both languages in order to promote the development of bilingual professionals. All modules are presented with the dual language format, except English and Spanish courses that are entirely in the corresponding language.

Language Support and E-Lab

A Language Lab and an E-Lab that provides students with the resource to improve their proficiency in English and Spanish are available to support students in order for them to reach the desired level of bilingualism. One of the functions of the Language Lab is to offer preparatory courses for students who do not meet the language requirements to enroll in a degree granting program. Various rigorous and challenging software programs at different proficiency levels are used. Net Tutor® online tutoring services are available in both English and Spanish. Other online resources such as Gurabo's Virtual Library, E-Books, E-Libros, Tell Me More (Rosetta Stone), and Wimba Voice. Students may request the E-Lab informative brochure from the Integrated Services Office at any time.

The goal is to provide students with a high-quality education in both languages (English and Spanish) and offer them tools to ensure success in their university and professional lives.

Registration

Registration Validity

1. The Branch Campus Registrar will determine the registration dates and will include them on the Academic Calendar.
2. The receipt of the official notice of admission will be required to begin the registration process.
3. Students will be required to register according to the calendar and times announced. Any student may register

on the day and time assigned, and during the specified late registration period set and notified on the academic calendar.

4. Each course the student registers in during regular or late registration will become part of his or her permanent academic record.

Maintaining the Academic Offerings, Programming of Courses, Closing and Eliminating Sections

The Institution will follow the UAGM Manual of Norms and Procedures for Programming, Closing, and Elimination of Courses for maintaining academic offerings: programming of courses, closing and elimination of sections. This manual is available at each Branch Campus.

Credit for Prior Learning, Challenge Examination or Portfolio

Students may obtain credit for prior learning through passing challenge examinations or the evaluation of portfolios by Faculty. A challenge examination is an assessment of the student's mastery of course content prepared by a certified faculty member of the institutions. A portfolio is an assessment with supporting documentation that demonstrates a student's mastery of course content.

The following policies and procedures will apply:

1. The student must be registered (full or part time) and must have demonstrated consistent satisfactory academic progress during his or her studies. The student must receive academic advisement as to the process that is required with student services staff.
2. For **Challenge Examination** Option:
 - a. The student must obtain related documents from the Integrated Services Office. The student will receive a general orientation and will complete related documents. Documents will be referred to the Academic Director for initial screening before referring them to an

- academic subject specialist for final analysis.
- b. Upon approval, the student will be notified of the corresponding payment to be made. The Academic Director and/or its representative will issue a permit for the exam and provide an examination study guide to the student.
 - c. The student will take the examination on the advertised date.
 - d. A certified faculty member with expertise in the area of the exam will grade the examination and award the correspondent grade based on the test results. Appropriate documentation will be submitted to the Registrar.
3. For the Portfolio Option:
- a. The student must obtain the related documentation from the Integrated Services Office. The student will receive a general orientation and will complete related documents. Documents will be referred to the Academic Director for initial screening before referring them to an academic subject specialist for final analysis.
 - b. After a recommendation from the advisor, the students register for EXPL101, a one-credit course that prepares students for the preparation of portfolios according to standards.
 - c. Once the course is completed, the student will register for portfolio evaluation and make the corresponding payment.
 - d. The portfolio will be presented to the Academic Director, who will submit it for evaluation and award of credit to a certified faculty member in the area of expertise. If applicable, the faculty member will award a grade of "P" for the course.
 - e. Appropriate documentation will be submitted to the Registrar.

4. No more than 25% of total program credits may be awarded for prior learning. Credit awarded through challenge examinations or portfolio cannot be counted towards meeting residency requirements.

Transferability of Institutional credits to Other Institutions

Courses taken at the three institutions are generally accepted for transfer to other institutions. However, the transferability of credits is solely at the discretion of the accepting institution. It is the student's responsibility to confirm whether Universidad Ana G. Méndez- Gurabo Campus or any other institution will accept credits.

Program Changes, Withdrawals, and Special Permits

Re-classification of Program or Major

Active students may apply for reclassification to a program or major by applying for reclassification to his Academic & Student Service Counselor before the dateline established in the Academic Calendar. The Academic Counselor will contact the student during the next three (3) working days to schedule an appointment and discuss the academic requirements for the program. The student will be required to present his/her Financial Aid Report (NSLDS) at the meeting. The petition will be evaluated by the Academic counselor and presented to the pertinent program director for approval according to program requirements and space availability.

Withdrawals

1. To apply for a partial or total withdrawal, students will provide official notification of intent to withdraw, in writing or orally, to the Integrated Services Office or Associate Registrar at the UAGM Universidad Ana G. Méndez- Gurabo Campus branch campuses. The campuses will record and document the reasons and date of the student petition.

2. Withdrawals with Reimbursements: Courses in which the student applies for partial or total withdrawal during the first week of the class will be reimbursed. Partial withdrawal may affect the classification of the student for financial aid purposes.
3. Withdrawals without Reimbursements: When students request a partial or total withdrawal from a course, after the due date established by the Institution for withdrawals with reimbursement, will affect the student's academic progress.
4. The Institution may drop a student on the recommendation of the Discipline Committee or the Campus Director, following the provisions established in the Student's Regulations Handbook.

Special Permits

1. Students will have the opportunity to take courses at other accredited institutions of higher education if the courses are not offered at the institution and are required to continue course work in subsequent semesters.
2. To apply for a special permit, the student will submit the corresponding application form to the Associate Registrar at the UAGM-Universidad Ana G. Méndez- Gurabo Campus applicable branch Campus. The Associate Registrar will present the petition to the Academic Director and will notify the student of the approval or disapproval of his petition.
3. The special permit will be given for a specific semester or summer session.
4. Courses approved with a grade of "C" or higher for bachelors or "B" or higher for a Master at the institution will be accepted. The credits will be recorded as attempted credits and will not be considered for the retention index.

Academic Load, Class Attendance, and Academic Advising

Academic Load per Term

Courses are scheduled in semester terms. Each semester is divided into five to fifteen weeks parts of terms.

1. The regular academic load for a full-time bachelor's student is twelve (12) credits and for a Master's is six (6) credits per semester.
2. For an academic load of more than eighteen (18) credits per semester or enrollment in more than two (2) classes per partial term, the student will need authorization from the Academic Director or Campus Director.

Class Attendance

Regular attendance and participation in class discussion and activities are expected. It will enhance and enrich the experience for the entire class. If the student expects to miss class for any reason, it is the student's responsibility to notify the professor by email or telephone prior to class. Professors may take student attendance into consideration when grading and should explain the possible impact of absences on the student's grades. Professors are not required to allow students to make up work. Students are responsible for all material covered during the course, regardless of whether they are present in class. Thus, attendance is strongly recommended to better facilitate student achievement of academic goals.

A census is made during the first two (2) weeks of each part of term to determine whether the student attended at least once during the period of enrollment.

Evaluation of Student's Academic Achievement

Evaluation System

Credit Value:

One semester credit hour is equivalent to a minimum of fifteen (15) hours of planned learning experiences

composed of hours of instruction and individual or group activities as indicated in the course module under the guidance of a qualified instructor.

Partial and Final Evaluations:

1. Each part of term (PT), professors will evaluate students based on the competencies required of the course where there will be at least three (3) partial evaluations and a final evaluation.
2. The weight of each evaluation will depend on the judgment and evaluation method of each professor. These evaluations may consist of exams, projects, cases or other appropriate activities in the judgment of the professors and depend on the nature of the course.
3. It will be the responsibility of the students to clarify with the professor any situation related to their evaluations.
4. If the student has been absent for justified reasons, the professors may give the student an opportunity for make-up exams or other means of evaluation.
5. Students must complete the work required for the evaluations by the last day of class as established in the academic calendar. Otherwise, they will receive zero (0) for each work not completed.

Responsibility of the Professors:

1. It will be the responsibility of the professors to inform the students of at least one partial evaluation before the last date established for partial withdrawals.
2. It will be the responsibility of the professors to comply with the academic calendar and to inform the students, at the beginning of the course, of the course objectives and content, exams and other work that will be required for their evaluation.

Grade System

Letter grade system and grade points per credit:

1. For the purpose of computing the students average, the number value of the grades in the courses will be:

Points	Grade	Honor Point
(100-90)	A	4
(89-80)	B	3
(79-70)	C	2
(69-60)	D	1
(59-0)	F	0

2. The following system of letters will be applied in special cases; they will not be considered for student's average, except for the WF.

W	Official Withdrawal
WF	Stopped attending the course without applying for withdrawal at the Registrar's Office
I	Incomplete (IA, IB, IC, ID, IF)
IP	Incomplete in Progress
WN	Administrative Withdrawal. Student registered but did not attend classes on the first day, (no grade points)
WA	Administrative Withdrawal. The Campus Director or designated representative approves a student withdrawal due to validated reasons.
T	Transfer Course
P	Pass
F	Fail

A minimum 2.00 average is required for all undergraduate degrees and 3.00 average for all graduate degrees, except for degrees requiring a different minimum average.

A course with a "W" indicates a withdrawal from a course.

A "WN" Indicates no assistance to a course within the first few days after classes begin (no grade points). This is reported in the official census.

A course with an “I” indicates that a student, who is absent from the final examination or does not satisfy all financial obligations to the University, will receive an incomplete as a provisional grade.

A course with “WA” indicates an administrative withdrawal approved by the Campus Director given for one of the following reasons:

1. The possibility of danger to the health of the student or that of other students if enrollment were to be continued.
2. Refusal to obey regulations or serious misconduct on the part of the student.
3. Deficient academic work (below required academic standards).
4. New admissions that do not complete the admissions application with the required documentation by the date scheduled in the Institution’s calendar.

Once assigned by the professor, the grades are final and certified by the Registrar’s Office in the students’ official evidence. Nevertheless, a student has the right to appeal his/her grade to the Appeals Committee.

A course with a “P” indicates that the student met the minimum expectations of the course. A “P” grade is not calculated into the CGPA but is considered in the determination of Satisfactory Academic Progress.

A course with an “F” indicates that the student did not meet the minimum expectations of the course. An “F” grade is not calculated into the CGPA but is considered in the determination of Satisfactory Academic Progress.

Changes, Grade Objections, and Additions

These are the specifications regarding changes, grade objections, and additions.

1. In the event of a student grade objection, the student is obligated to present the objection at the Integrated Services Office or Associate Registrar at Metro Orlando,

Associate Registrar at South Florida and Associate Registrar at Tampa Bay Campuses, as applicable to the campus, within thirty (30) calendar days of the first day of class of the term following the objected grade.

2. The professor must submit to the Academic Director any request for a grade change or addition, within a period of time not to exceed one term since the grade was given. The proper form will be provided. The Academic Director of the Campus will submit the form to the Associate Registrar as applicable to the campus, who will be responsible for making the change or addition in the Official Grade Register.
3. Changes made outside the established calendar must be justified in writing and approved by the Academic Director.
4. Special cases on grade objections or changes will be resolved by an Appeals Committee composed of the Chancellor or his/her representative, who shall preside, the Academic Director, a professor, the Associate Registrar or his/her representative, and a student appointed by the Director, at the beginning of each academic year. The decisions of the Committee will be final as decided by the majority of its members. The Academic Director and/or Campus Director will authorize grade changes. The Committee will make its decisions within 30 calendar days of the date the student’s objection was submitted.

Incompletes

Conditions:

1. The student will receive a provisional grade of Incomplete only for a justified absence to an exam or final work and if he or she has a minimum of partial grades.
2. The final exam will be offered, or the final work will be accepted only for students who

have the opportunity of obtaining a minimum final grade of "D."

3. It will be the student's responsibility to make the necessary arrangements with the Professor and the Academic Director of each campus to determine how to take the exam or turn in the final work and remove the Incomplete.
4. The Incomplete (I) may be removed if the student completes the work required in the academic session within (1) one academic semester of the first day of class of the following session and according to the dates established in the academic calendar.
5. If a student who has received an Incomplete in one or more courses does not achieve academic progress once the Incomplete is removed, according to institutional policies, financial aid will be reinstated, only if it is within the dates established by the Federal Government for assigning aid.

Responsibility of Professors

1. It will be the responsibility of the professors, at the end of each academic term, to submit to their Associate Registrar the Incomplete Form, Grade Register, indicating each case the partial grades obtained and with a blank space for the pending grade. The professors will also submit exams with corresponding answer keys or will indicate the work or assignments each student has pending.
2. Upon completion of the term specified to complete the students' academic work, professors will have thirty (30) additional days to hand in the documents for removal of Incompletes to the Associate Registrar's or Registrar's Office where the Official Grade Register will be completed, and final grades will be awarded.
3. When completing the Grade Register, the professors will specify the partial grades received by the students. In those cases where the student did not complete the

academic work during the established period, the Associate Registrar's, as applicable to the Campus, will compute the final grade, inserting a grade of zero (0) for the pending work.

Repeating Courses

1. A student who wishes to repeat a course will have the liberty to do so. When a student obtains a D, F, or W in core professional, major and / or concentration courses that are required for graduation at the undergraduate level and that must be passed with a minimum of C, it will be compulsory to repeat the course (as it applies to specific programs, refer to program outline).
 - a. It is recommended that all graduate courses be passed with a minimum of B; and that students maintain a grade point average of 3.0.
 - b. If a student obtains a final grade of C and it lowers the GPA to less than 3.0 it will be compulsory to repeat the course(s).
 - c. Students who obtain a final grade of D, F or W at the graduate level must repeat such course(s).
2. The Institution will allow a student who has obtained a C, D, F, W, or WN in a course to repeat it using financial aid if he or she has not exceeded 150% of attempted credits.
3. Students who repeat a course will receive the highest grade obtained for purposes of their academic average.
4. If the grades obtained are the same as the previous ones, they will be counted for the GPA and only once for the graduation average.
5. In the case of Practice/Practicum/ Internships courses, the student may repeat the course a maximum of twice. He or she will only be able to repeat the course the second and last time with the approval and

recommendation of the Academic Director and the practice supervisor.

6. No student will repeat a specified course until he or she has received a grade for it.
7. Repeated courses will be considered to determine the student's academic progress.

Independent Study

Courses in this category must comply with the four hours of weekly instruction. Independent study courses will be offered as an alternative for those students who require a course that is not programmed in their graduation year be it the first or second semester. These courses will be offered through independent study if they meet the following specific criteria:

1. The course content cannot be substituted for another.
2. The course is not being offered in the division the student is enrolled in, and the student cannot attend the section offered in another division.
3. The course is required for the student's major.

The Academic Director of each campus will consider special cases individually on their own merits.

Academic Progress

Students pursuing an academic degree must achieve or exceed the minimum standards of satisfactory academic progress (SAP). These standards shall apply to all students, regardless of the methods by which they fund their studies. Failure to meet SAP requirements may result in the suspension of Title IV eligibility and/or the student may not continue in the program.

SAP is measured at the end of each academic semester through minimum qualitative and quantitative benchmarks. Further, all students must successfully complete their program of study within 150 percent of the normal timeframe. All students must meet the minimum standards of academic

achievement and successful course completion percentage while enrolled at the Universidad Ana G. Méndez- Gurabo Campus, US Branch campuses. Specific programs may mandate higher academic standards to meet SAP. It is the responsibility of the students to adhere to the academic standards for their program of study. Students who fail to maintain specific academic requirements will not be permitted to continue in their program of study.

Reviewing Satisfactory Progress

Minimum CGPA and Rate of Course of Completion

The progress of all students will be reviewed at the end of each semester and at the end of each academic year. Students' satisfactory academic progress is reviewed using two measures, which must both be achieved to meet SAP: cumulative grade point average (CGPA) and rate of course completion percentage. Students who fail to earn the minimum required cumulative grade point average and/or earn the minimum required rate of course completion percentage will be placed on Financial Aid Warning status for one semester. While on Financial Aid Warning, the student will remain eligible for federal financial assistance.

At the end of the Financial Aid Warning period, the student's cumulative grade point average and rate of course completion percentage are again reviewed. If the student's cumulative grade point average and rate of course completion percentage equal or exceed the minimum, the student is removed from Financial Aid Warning because the student is meeting SAP. If the student's cumulative grade point average and/or rate of course completion percentages are below the required minimum for SAP, the student will be deemed not making satisfactory academic progress, and the student will lose eligibility for federal financial assistance.

SAP Appeal Process

If the student loses federal financial aid assistance because of not meeting the minimum SAP requirements following a semester on Financial Aid

Warning, he/she may apply for Appeal to the Director of the Student Success Center or Director of Nursing (for students majoring in Nursing) explaining and documenting the basis for an appeal including his/her injury or illness, the death of a relative, or other special circumstances. The appeal must also explain why he/she failed to make SAP and what has changed in his/her situation that will allow him/her to make SAP at the next evaluation. The appeal is submitted to the Appeals Committee or Director of Nursing. If the Committee or Director of Nursing determines that the student will make SAP at the end of the next evaluation, the student will be placed on Financial Aid Probation for one semester and remain eligible to receive federal financial assistance. If the Committee or Director of Nursing determines that, based on the appeal, the student will require more than one semester to meet SAP, the student may be placed on Financial Aid Probation, and an academic plan must be developed for the student. If the student meets the minimum SAP requirements at the end of the semester of Financial Aid Probation or after the semester when the student was on an Academic Plan, the student will be considered meeting the SAP standards. If not, the student will no longer be eligible for federal financial assistance and may no longer continue in their program of study. The student shall be referred to the Center for Student Success to explore alternate academic options.

Academic Plan

Once a student is placed on probation, an Academic Plan will be put into place. The Academic Plan will serve as a road map to guide a student toward meeting his or her SAP goal within a specified time and method. The plan is designed by the Center for Student Success and communicated to the student in writing. The plan that is implemented will be regularly evaluated and refined as internal and external developments warrant. An Academic Plan may span multiple evaluation periods, so long as the Academic Plan allows for graduation from the program within the maximum time frame (MTF), and

the student stays in compliance with the terms of the Academic Plan.

Extended Enrollment Status

Students not achieving the minimum standards of satisfactory academic progress or who fail to meet the minimum standards at the end of the probationary period may be terminated from the University. Students may continue their studies in an extended enrollment status to attempt to earn eligibility for reentry. Students on an extended enrollment status will be charged the appropriate tuition and fees and will not be eligible for any Title IV financial aid. While on this extended enrollment status, students must attempt to correct their academic deficiencies. The extended enrollment status must be completed within the required maximum time frame. The conditions for extended enrollment status will be agreed upon in writing by the student and the Center for Student Success. The Appeals Committee reviews and approves requests for extended enrollment.

Appeals Committee

The Appeals Committee is composed of a representative of the following offices: Academic Advisor, Registrar, Financial Aid, and the Academic Director. It is presided by the Campus Director or his/her representative.

Impact of Certain Grades on the CGPA and Rate of Course Completion Percentage

- Incompletes: A student with a grade of "I" must complete the coursework within the allotted time as published in the Catalog. The faculty member will assign a final grade if the student does not complete the course within the allotted time. The final grade will be included in the cumulative grade point average and the credits will count as credits attempted.
- Withdrawals: All course withdrawals will count as credits attempted but will not be

included in the cumulative grade point average.

- Repetitions: Students are permitted to repeat courses. All credits count as credits attempted. The grade for the repeated course will count in the cumulative grade point average.
- Transfer Credits: All transfer credits count as credits attempted and credits earned in the rate of course completion percentage. Transfer credits do not count in the cumulative grade point average.

Programmatic Academic Achievement Requirements

Bachelor of Science in Nursing (BSN)

In addition to the SAP requirements noted above, certain other standards related to academic progress apply to BSN students. In particular,

- Students must earn a grade of “A” or “B” in every core course with a NURS prefix,
- Students may repeat no more than two core courses with a NURS prefix, and
- Only one repeat of any core course with a NURS prefix may be attempted.

Reestablishing Financial Assistance Eligibility

If a student majoring in Nursing does not meet the program’s minimum requirements of rate of completion or cumulative grade point average, the student is not eligible for re-entry. If a student majoring in Nursing does not meet the program’s minimum academic achievement requirements, the student is not eligible for re-entry. A student who may not continue in the program is not eligible to apply for re-entry in the program at any of the Universidad Ana G. Méndez- Gurabo Campus, US Branch campuses.

Bachelor of Arts in Social Work (BSW)

In addition to the SAP requirements noted above, certain other standards related to academic progress apply to BSW students. In particular,

- Students must earn a minimum of a C in all major courses
- Students must earn a grade of “A” or “B” in Supervised Practice I (SOWO 451-O) and Supervised Practice II (SOWO 452-O).
- Students cannot receive an incomplete in Supervised Practice courses SOWO 451-O and 452-O.
- Students can repeat Supervised Practice courses SOWO 451-O and 452-O for a maximum of two occasions, may only repeat for the second and last time with the approval, and recommendation of a Committee composed of the Associate Director of the Social Work Undergraduate Program, Social Work Field Education Coordinator and Field Instructor/Liaison.

Reestablishing Financial Assistance Eligibility

If a student majoring in Social Work does not meet the program’s minimum requirements of rate of completion or cumulative grade point average, the student is not eligible for re-entry. If a student majoring in Social Work does not meet the program’s minimum academic achievement requirements, the student is not eligible for re-entry. A student who may not continue in the program is not eligible to apply for re-entry in the program at any of the Universidad Ana G. Méndez- Gurabo Campus, US Branch campuses.

Graduation Requirements

Eligibility to Obtain an Academic Degree

1. Students must have approved the courses required for the degree as specified by the Institution in the Catalog and comply with all academic requirements for their degrees including but not limited to tests, practicums, and internships.
2. Students must have approved the total number of credits required for the degree with a minimum GPA of 2.00 for

undergraduate programs and 3.00 for the graduate programs.

3. For master's degrees, students must complete the degree's final Requirements.
4. Transfer students must meet residency requirements.
5. When calculating the GPA for graduation, only the courses approved and required for obtaining the degree will be considered.
6. All students admitted to the Institution will be subject to the graduation requirements in effect the year of their admission. Nevertheless, when the curricula of the programs have been modified, the student may opt to take the program in effect at the time of graduation, but never a combination of both.
7. Have applied for Graduation to the Integrated Services Office Associate Registrar at the Branch Campuses by the date established in the academic calendar.
8. No document will be given certifying that the student has completed the graduation requirements until evidence of having no financial debts with the institution have been presented.
9. All students applying for readmission to the institution will be subject to the graduation requirements in effect the year they are readmitted.
10. Commencement will be held only once a year, at the end of the second academic semester. Students who fulfill their graduation requirements at the end of any semester or at the end of the summer session may apply and obtain a certification of completion of graduation requirements from the Registrar's Office at the corresponding Branch Campus, before Commencement.
11. Two degrees may be conferred if they are from different programs or different majors when it is the same program.

Financial Information

Fees and Tuition Costs

The information contained in this document regarding fees, tuition costs, deposits, reimbursements, etc., applies to all undergraduate and graduate students. The Board of Directors approves tuition costs at all levels.

The information included in this document does not represent a contract between the University and the student. Due to changing situations, it may be necessary to alter the fees and tuition costs before the publication of the next catalog.

Once a year, the Financial Office publishes a brochure with information about the tuition costs for all the academic programs, as well as other fees that apply.

Cost

The cost per credit is:

Diploma & Non-degree	\$250.00
Undergraduate	\$411.00
Undergraduate Nursing and Allied Health Programs	\$476.00*
Graduate	\$480.00
Graduate Nursing and Allied Health Programs	\$562.00*

* All courses with the prefix BIOL, PHAR, HESC and NURS

* All courses with the prefix HESC and NURS

The cost of credit awarded for prior learning is equal to 50% of the cost per credit.

Laboratory Fees

NURS 201-O	\$290.00
NURS 203-O	\$185.00
NURS 303-O, 304-O, 305-O & 404-O	\$155.00
NURS 407-O	\$500.00
All other Allied Health Courses	\$125.00

*Laboratory Fees include other elements including but not limited to Laboratory Supplies, Electronic Simulation Tools, among others

Technology Fee

In addition, the institution has a technology fee for each academic term. The fee amount is described as follows:

- Fall Term: \$98.00
- Spring Term: \$98.00
- Summer Term: \$48.00

The Technology Fee provides students with adequate technology experiences through these objectives:

- Broaden/enhance the quality of the academic experience through the use of technology in support of the curriculum;
- Provide additional student access to technological resources and equipment that are needed in support of instruction and to maintain and enhance the technological competency of students as it relates to their academic endeavors;
- Increase the integration of technology into the curriculum.
- The technology fee for each academic term is not refundable.

Additional Expenses

Please note that in attending any institution, you will need to allow for other expenses, such as books and supplies, transportation, meals, and other personal needs. A variety of financial aid packages are available.

Graduation Fee:

The student will apply for Graduation to the Integrated Services Office Associate Registrar at the Branch Campuses by the date established in the academic calendar, along with a \$90.00 graduation fee, non-refundable.

Payment Methods

Tuition, fees and service charges must be paid in full during registration or at the time student requests services. Payments can be made online or by cash, personal check, certified or manager's check, money order, or credit cards such as American Express, Visa or Master Card. Receipts for all transactions must be requested and retained, and presented with any claim or adjustment requested. The Bursar's Office will not accept claims without receipts. **All tuition, general fees and service charges are subject to change during the life-term of this catalog.**

Partial Withdrawal: Course Drop/Add Period

Students may cancel a course before the first day or during the first week of the part of term (PT) without costs or charges.

Non-Attendance

Students who do not attend the courses they are registered in will be reported as NP by the professor. The administration will record an administrative withdraw (WN), and the student withdrawn administratively and charge 25% of the course tuition cost.

Identifications

The Institution issues an identification card to each student. The cost of replacing a lost, misplaced or stolen identification card is \$5.00. The identification card is necessary at several offices within the institution and will be the property of the institution.

Copies of Credit Evidence

Evidence may be obtained at the Registrar's Office. Payment must be made at the Bursar's Office. The cost of each evidence will be \$6.00 per copy.

Other Fees

Returned Check Fee	\$15.00
Diploma Duplicate	\$25.00
Graduation Certification	\$ 5.00
Challenge Exam 50% Credit cost	

Cancellation and Refund Policy

Should a student's enrollment be terminated or cancelled for any reason, all refunds will be made according to the following refund schedule and norms:

1. Cancellation can be made in person, by Certified Mail or by termination.
2. No charge will be made for applying for admission. If the student is admitted and enrolled and the student cancels within three (3) business days after signing the student enrollment agreement and making initial payment all funds will be refunded.
3. Cancellation after the third (3rd) Business Day, but before the first class, results in a refund of all funds paid.
4. If cancellation occurs prior to completion of the first week (drop/add period) of the part of term of the semester, the school will refund 100% of the tuition for the semester.
5. Once the drop-add period has passed, for students that do not attend or show up for their courses, there will be a charge no greater than 25% of tuition costs of the courses.
6. Termination Date: In calculating the refund due to a student, the last date of participation in class by the student is used in the calculation unless earlier written notice is received.
7. Refunds will be made within 30 days of termination of student's enrollment or receipt of Cancellation Notice of the student.

Refund Formula

Any student who requests a total withdrawal of courses, after the drop-add period, on or prior to 60% of the part of term registered will be reimbursed according to the following formula:

$$\frac{\text{TOTAL DAYS ELAPSED}}{\text{TOTAL PART OF TERM DAYS}} = \% \text{ of TOTAL COST}$$

After 60% of the total part of term days has elapsed, the student will be responsible for 100% of total costs.

Financial Aid

UAGM-Universidad Ana G. Méndez- Gurabo Campus makes every effort to help its students obtain government financial aid for those who qualify and are unable to begin or continue their university education without such aid.

Financial aid is made up of three components. First, scholarships that are given and thus do not have to be repaid. Second, student money loans made available at a low interest with reasonable conditions of repayment. Third, the work and study program permits students to acquire experience that is related to their program of studies and at the same time receives compensation for the work being done, thus helping with his costs of education.

The student can be eligible to receive financial aid of all three components if they qualify according to applicable federal regulations.

Grant-Scholarship Programs

Federal Pell Grant

This grant helps undergraduate students to pay for their first post-secondary education. Students must be enrolled at least on three credits to receive the benefit. The maximum award varies every year. Information may be obtained from the Integrated Services Office and the Financial Aid Officer.

Federal Supplemental Educational Opportunity Grant (SEOG)

This grant helps undergraduate students with exceptional financial need. The amount of the awards is contingent upon the availability of funds.

State of Florida Grants

The Universidad Ana G. Méndez- Gurabo Campus is eligible to participate in the following scholarships:

- Florida Bright Futures Scholarship Program - Students must apply in their last year of high school.
- Robert C. Byrd Honors Scholarship Program - Students must apply in their last year of high school.
- Scholarships for Children/Spouses of Deceased or Disabled Veterans - Students must apply in their last year of high school, or the next year if they have never applied and are between the ages of 16 to 22.
- Jose Marti Scholarship Challenge Grant - Students must apply in their last year of high school.
- Access to Better Learning and Education (ABLE) - Student must be a Florida resident and a U.S. citizen or eligible non-citizen. Meet the standards of Satisfactory Academic Progress. Must enroll for a minimum of 12 credits hours per term. Not owe a repayment or be in default. Not have a previously a baccalaureate degree. Have a minimum institutional cumulative grade point average (GPA) of 2.0. Do not consider the EFC of FAFSA.
- Florida Student Assistance Grant Program (FSAG) - Student must be a Florida resident and a U.S. citizen or eligible non-citizen. Meet the standards of Satisfactory Academic Progress. Must enroll for a minimum of 12 credits hours per term. Not owe a repayment or be in default. Not have a previously a baccalaureate degree. Have a minimum institutional cumulative grade point average (GPA) of 2.0. Must not exceed the maximum EFC of FAFSA.

To apply for these scholarships, students must go to the Florida Department of Education web page - <http://www.floridastudentfinancialaid.org/SSFAD/home/uamain.htm>, to print an application and submit it. Students qualifying for the scholarships will be notified by mail.

Loan, Work-Study, and Veterans Programs

Federal Direct Loan

Federal Direct Loans are offered at a variable interest rate, with a cap of 8.25% for undergraduate and 9.50% for graduate programs. For “Subsidized-Direct” the government pays the interest while students are in school; for “Unsubsidized Direct” students are responsible for paying the interest while they are in school. If they choose not to pay the interest, it will accrue and be capitalized (added to the principle). This loan must be repaid; the repayment should begin six (6) months after the student graduates or ceases to study.

Federal Direct Parent Loan for Undergraduate Students (FDPLUS)

“PLUS” loans are borrowed by parents for dependent students. The interest rate is variable, with a cap of 10.5%. Repayment begins 60 days after the first disbursement.

Federal Work-Study Program (FWSP)

A program that requires the student work a maximum of 20 hours per week. The student is paid a competitive wage and is able to gain experience in his area of study.

Veterans’ Educational Benefits

UAGM Branch Campuses in the United States are approved for Veterans Training and higher education degrees.

Veteran’s Education Benefits are provided by the Department of Veterans Affairs, students interested in Veterans’ Educational Benefits should contact branch campus officials.

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class;
- Provide a written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies

How to apply for Federal Financial Aid

To be considered for federal student aid, a student must complete a Free Application for Federal Student Financial Aid (FAFSA). The FAFSA collects financial and other information used to calculate the expected family contribution (EFC) and to determine a student's eligibility through computer matches with other agencies. The FAFSA is the only form students must fill out to apply for federal financial aid.

The student must submit the Free Application for Federal Student Financial Aid (FAFSA) or Renewal FAFSA to the U.S. Department of Education at www.fafsa.gov.

The amount of financial aid award may vary each year according to the student's need, the type of aid they are eligible, their academic performance and available funding.

Eligibility Requirements

In order to meet the eligibility requirements, students must:

- Have financial need

- Must be enrolled as a regular student in an eligible program
- Be working toward a degree or certificate
- Be a U.S. citizen or eligible non-citizen
- Have a valid Social Security Number
- Not owe a refund on a Federal Grant or be in default on a Federal Educational loan
- Be making Satisfactory Academic Progress
- Be registered with Selective Service (if required)
- Be enrolled at least half-time except for the Federal Pell Grant, which allows less-than-half-time enrollment
- Not have received a Bachelor's Degree for Pell and FSEOG
- Provide documentation of any information requested by the Office of Admission and Financial Aid

Important Note: The Institution complies fully with the privacy Rights of Parents and Students Act of 1974 (Title IV of the U.S. Public law 90-247), as amended, which specifically governs access to records maintained by institutions to which funds are made available under any Federal program for which the U.S. Commission of Education has administrative responsibility. The release of such records provided that such institutions must furnish parents of students access to official records directly related to the students and an opportunity for a hearing to challenge such records on the ground that they are inaccurate, misleading or otherwise inappropriate. Institutions must obtain the written consent of parents before releasing personally identified data from student records to other than a specified list of exceptions; that parents and students must be notified of these rights; that these rights transfer to students at certain points; and that an office adjudicates complaints and violations of this law.

Student Affairs and Services

Student Services

The Universidad Ana G. Méndez- Gurabo Campus Branch Campuses reflects the commitment of the

System, its member institutions and the School for Professional Studies to student service. The service offered is characterized for being personalized and individualized, where the student and the program representative together go through the steps from admission to registration, according to the particular needs of each student. Due to the integration of the different student services into a one-stop student service model, students can process their admission; validate transfer credit for their courses; receive orientation and apply for financial aid; receive personalized academic advising; complete registration, and program planning and academic progress audits through an appointment with the Student Integrated Services Staff.

The School for Professional Studies personnel also offers orientation about other services available and acts as a liaison to other offices of the System and its member institutions. The Director of Integrated Services, Financial Aid Staff, Registrar, and Integrated Services Officers will be cross-trained to perform these services in an integrated manner. All Branch Campuses have Academic Advisors to meet the counseling and job placement needs of its students.

I understand that the School has not made and will not make any guarantees of employment or salary upon my graduation. The School will provide me with placement assistance, which will consist of identifying employment opportunities and advising me on appropriate means of attempting to realize these opportunities.

Integrated Student Services are provided in an extended schedule to accommodate the demands of working adults:

Monday through Thursday:	9:00 a.m. - 8:00 p.m.
Friday:	9:00 a.m. - 6:00 p.m.
Saturday:	8:00 a.m. - 5:00 p.m.

Academic Advising

All students will have a staff member assigned as an academic advisor. They must complete all the procedures and schedules for academic advising. In addition, they must meet periodically with their academic advisor to work a schedule for academic success.

Students Feedback and Complaints

Students in each course section will select a student representative that will meet with the Campus Director or its representative during the second or third week of class. Student representatives will provide feedback to staff on course, faculty, program, services, and facilities. Student representatives will also have responsibility for administering the end of course evaluations.

Students may also submit a Request for Service or Complaint by filling out the appropriate form in Campus. They may also e-mail the campus staff with service requests or complaints. These requests will be reviewed at least every week by the Director of Integrated Services or the Student and Registrar Services Coordinator for referral or resolution. In the event of any unresolved conflict, students can contact the Florida Commission for Independent Education at (850) 245-3200 or 325 W. Gaines St, Suite 1414, Tallahassee, FL 32399.

Student Conduct and Disciplinary Actions

Disciplinary Regulations:

All students will observe and comply with all the institutional policies, rules and procedures and will follow a code of exemplary conduct. Each student should be familiar with the institutional policies regarding plagiarism. Also, course work cannot be used to complete the requirement of more than one course. Any violation of discipline will be referred to the Dean of the School of Professional Studies or the Campus Director.

Disciplinary rules and regulations are ratified by the Ana G. Méndez University System Board of Directors. The students at UAGM-Gurabo Campus, are

expected to honor, obey and respect these rules and regulations in all their ramifications. These principles, rules, and regulations are clearly stated in the college by-laws, the Student Handbook, and in the other regular or periodic publications of the Administration.

Important Notification-Grounds for Termination

The student agrees to comply with the rules and policies and understand that the School shall have the right to terminate my enrollment at any time for violation of rules and policies as outlined in the catalog. I understand that the School reserves the right to modify the rules and regulation and that I will be advised of any and all modifications.

Due to the importance of the Disciplinary Regulations, each student is required to obtain a copy of the Student's Regulations Handbook from the institution internet page, the Integrated Services Office or Associate Registrar at the Florida Branch Campuses; and signs a receipt for it, and commit himself to read and become familiar with the Handbook's contents and the Student's Regulations. These requirements cannot be waved or omitted under any circumstances, and a digital copy is available at each Branch Campus website.

General Provisions

Course Numbering System

The following course numbering system is used by the UAGM-Gurabo Campus:

- 050, 100 and 200 coded courses are lower level bachelor's degree courses
- 300 and 400 coded courses are upper division bachelor's degree courses
- 500, 600 and 700 coded courses are master's degree level courses

The Course Prefix

The course prefix is a four-letter designator for a major division of an academic discipline, subject-matter, or sub-category of knowledge. The prefix is

not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

ACCO – Accounting
ARTS – Arts
BIOL – Biology
CH - Community Health
COIS, COMP – Computer Information System
COMM- Communications
CRIM – Criminal Justice
ECED – Education
ECON – Economy
ENTR – Entrepreneurship
EDUG – EDAG – Graduate Education Courses
ENGL – English
FINA - Finance
FORS- Forensic Sciences
HESM – Health Services Management
HIST – History
HS – Health Science
HUMA – Humanities
ITHM – International Tourism and Hospitality Management
LIAR – Liberal Arts
MANA – Management
MARK – Marketing
MATH – Mathematics
NURS - Nursing
OFAS – Office Systems
POSC – Political Science
PSYC – Psychology
PUHE – Public Health
SCIE – Integrated Sciences
SOCI – Sociology
SONO -Sonography
SOSC – Social Sciences
SOWO – Social Work
SPAN – Spanish
SPED – Special Education
STMG – Strategic Management

Separateness

The provisions of this document of are separable; declaring one or more void will not affect the other

provisions that may be applied independently of those voided.

Amendments

Universidad Ana G. Méndez- Gurabo Campus has the authority to amend this catalog at any time that it deems necessary.

False information

Any candidate who submits false information to attain admission to the Institution will be immediately disqualified for admission.

If, after admission, it is discovered that a student furnished false information, he or she will be subject to the appropriate disciplinary measures, including canceling his or her enrollment and losing the credits completed satisfactorily.

Student's Responsibility

It will be the responsibility of the students to know and comply with all the academic and institutional norms. The Institution will not accept a declaration of ignorance of a norm to avoid complying with it.

Institution's Responsibility

This Institution does not exclude participation, does not deny benefits, nor does it discriminate against any person by race, sex, color, birth, social origin or condition, physical handicap, or for political, religious, social or syndicate ideology.

Reserved Rights

The Institution, to safeguard its goals and objectives, reserves the right to admit, readmit or enroll any student in any semester, session or class. For the same reason, it reserves the right to temporarily, partially; totally or permanently suspend any student before a hearing, in accordance with the Rules of Discipline.

FERPA

The Institution faithfully complies with the dispositions of the Family Educational Rights and Privacy Act of 1974, known as FERPA. This act is designed to protect the privacy of the academic records and to establish to the right of the students to inspect and review them.

Anti-Hazing Policy

Sistema Universitario Ana G. Méndez Inc.- Branch Campuses do not recognize sororities, fraternities or similar student's organizations. UAGM does not allow hazing for any reason whatsoever. Students engaging in any potentially harmful activities will be disciplined and may be subject to suspension or termination.

Change of Name and/or Address

It will be the responsibility of the student to notify the Registrar and/or Director of Integrated Services of any change of name or address while he or she is an active student at the Institution.

Section III: Faculty

The Faculty of the UAGM: Gurabo Campus, Metro Orlando, South Florida and Tampa Bay Campuses have a minimum of a master's degree in their area of expertise and a minimum of three years of professional experience. In addition, faculty members must demonstrate and be certified to have the aptitude and ability to facilitate courses in an accelerated program for adults. An updated list of certified faculty is available in the administrative office at each campus. The Faculty, although assigned to a specific campus, may be shared between the three campuses.

Faculty Listing per Campus

Academic Year 2019-2020

Faculty Listing Metro Orlando Campus		
Faculty Member:	Subject Area:	Degrees/Diplomas Held & Awarding Institution:
Abraham, Leticia	Spanish	Master of Science in Spanish Language Education Nova Southeastern University, 2014
Acosta, Glenda	Criminal Justice	Master of Arts in Criminal Justice Boston University, 2010
Alberti, Jaime	Criminal Justice	Master of Public Administration in Public Management Park University, MO 2013
Alemán, Arturo	Computer Science	Master of Arts in Educational Computing Universidad Interamericana, PR 2006
Alomar, Maricelly	Counseling/ Student Development	Master of Arts in Education Guidance & Counseling Universidad Interamericana, PR 1992
Andrade, Pablo F.	Economics	Master of Arts in Applied Economics University of Central Florida 2000
Aponte, Carmen M.	Computer Science	Master of Science in Computer Information Systems University of Phoenix 2006
Arocho, Abigaíl	Spanish	Master of Arts in Spanish University of Central Florida, FL 2012
Ascensión, Aurora	TESOL	Master of Education in Teaching English as a Second Language (ESOL) Universidad Ana G. Méndez- Gurabo Campus, FL, 2007
Avilés, José		Master of Business Administration in Quantitative Methods Universidad de PR, 2014 Master of Public Health in Biostatistics Universidad de PR, 2007
Ayala, Celia	Nursing	Master in Science in Nursing University of Phoenix, FL 2005
Betancourt, Minerva	Nursing	MS Anesthesia, Interamerican University, PR 2003

Faculty Listing Metro Orlando Campus		
Faculty Member:	Subject Area:	Degrees/Diplomas Held & Awarding Institution:
Bonet, Yarisa	Counseling Educational Technology	Doctor of Education in Instructional Technology and Distance Education, minor in Curriculum Development Nova Southeastern University, 2014 Master of Science in Rehabilitation & Counseling University of North Florida, 2004
Bóssolo, Ivette	Criminal Justice	Juris Doctor Florida State University, FL 2005
Buleje, Miguel	Computer Science	Doctor of Philosophy in Information Systems Nova Southeastern University, FL 2014 Master of Business Administration NTU School of Applied Science Walden University, CO 2005
Burgos, Sandra	Psychology	Master of Arts in School Psychology Ball State University, IN 1987
Camacho, Evelinda	Nursing	Master of Science in Nursing University of Phoenix, 2006
Canaan, Marielys	Counseling/ Student Development	Master of Education in Guidance and Counseling Universidad Ana G. Méndez- Gurabo Campus, FL 2009
Cardona, Miguel	Finance	Master of Business Administration in Finance Universidad Interamericana, PR, 2000

Bachelor in Business Administration (BBA) – Major in Computerized Information Systems

123 Credits

Program Description

This major provides an ample curriculum so that the student has the opportunity to know the different current technological trends and to develop his level of competition in the use of emergent applications, in the field of information systems. The commitment of this major is to develop professionals able to become effective agents of change in their field, for the benefit of the organization and society in general.

Program Objectives

1. To provide students with the technical skills and the understanding of the socio-economic, institutional framework within which businesses operate, that enable them to perform the responsibilities of leaders in executive positions.
2. To provide training for different productive sectors of the economy including the public sector.
3. To improve and develop the technical skills required by the person currently holding positions in business administration in the area of computers information systems.
4. To provide technical knowledge of diverse computerized systems and applications.
5. To stimulate a positive attitude toward education, strengthening the concept of education as an on-going process.
6. To promote participation in community affairs.
7. To provide workshops in management techniques, marketing, accounting, and computers.

Program Outcomes

The students will:

1. Establish and maintain a continuous development in technology
2. Promote changes in his/her labor environment
3. Have the knowledge of design and application of computer systems
4. Prepare reports in English and Spanish
5. Enroll in continuing education courses
6. Communicate adequately in English & Spanish, both orally and in writing

Bachelor of Arts (BA) – Major in Elementary Education

127 Credits

Offered at the Metro Orlando, South Florida, and Tampa Bay Campuses

Program Description

The Bachelor of Arts in Elementary Education prepares students to meet the standard knowledge and skills that are specified for teacher preparation, including content specific standards, teacher standards and pedagogical standards of effective teaching in elementary schools and impact on student achievement.

Courses and experiences include instruction, observation, and practice to demonstrate competency in the following areas:

- Content knowledge and expertise
- Instructional design, planning, and delivery
- Learning environment and management
- Knowledge of students and student learning for instructional delivery and facilitation
- Assessment to engage, monitor and inform instructional decision-making
- Professional practices, responsibilities and conduct

The program requires clinical field observations that are integrated throughout the program for a cumulative of hours prior to internship. The program includes a practicum in an elementary school setting, full-time for 12 weeks providing students a supervised field experience in which they can demonstrate their skills, knowledge and pedagogical practices. The student must refer to the Internship Handbook available from the Academic Director for specific requirements and procedures.

If the student is interested in opportunities for employment in state public schools, state certification is required. Students are required to demonstrate mastery of the necessary basic skills, content and pedagogical knowledge by obtaining qualifying scores on all state examinations required for profession (standard) certification. If student is seeking professional (standard) level certification upon graduation, all certification examinations must be passed, practicum and program degree must be completed to apply to the designated state certification agency prior to practicum or graduation. If any of the aforementioned requirements are not met prior to practicum or graduation, student will acknowledge professional (standard) certification will not be met and may have to pursue a conditional or temporary certification while completing certification professional requirements.

The Elementary Education program meets the educational eligibility criteria for certification in the state in which the program is offered. Graduates of the program who wish to teach in another U.S. state or country may require additional eligibility criteria to qualify for licensure and/or certification in those locations. We are unable to confirm the licensure and/or certification requirements of other states or countries. Therefore, if you intend to pursue such credentialing in another state or elsewhere, it is advised that you to contact the applicable state or country credentialing authority to familiarize yourself with its specific requirements and determine if this program meets the applicable eligibility criteria.

Program Objectives

Students will:

- Understand the importance of the social and personal mission of the teaching profession.
- Accept the changes that will lead to the broadening of their knowledge, experience as teachers, and use that knowledge effectively in the teaching - learning process.
- Analyze social, psychological, and philosophical foundations of education.

- Choose and effectively use resources and materials to improve their teaching methods.
- Understand and use different educational strategies and techniques effectively.
- Be exposed to a variety of experiences that will help them to develop the skills, attitudes, and abilities in order to become change agents in the field of education.
- Develop awareness of the responsibility of keeping abreast in their fields of specialization.
- Understand, revise, and enrich the curriculum of their area of specialization.
- Be able to incorporate technological innovations into their personal life and their teaching.
- Develop the skills that will make them lifelong learners.

Admission Requirements

1. Minimum GPA 2.50

Education Programs Internship Requirements

Students are required to demonstrate mastery of the necessary basic skills, content and pedagogical knowledge by obtaining qualifying scores on all state examinations required for certification. If student is seeking professional (standard) level certification upon graduation, all certification examinations must be passed prior to practicum or graduation. If any of the aforementioned requirements are not met prior to practicum or graduation, student will acknowledge professional (standard) certification will not be met and may have to pursue a conditional or temporary certification while completing certification professional requirements.

Bachelor of Sciences in Nursing (BSN) – Major in Nursing

128 Credits

Program Description

The mission of UAGM emphasizes graduate and undergraduate education, research and service. The mission of the School of Health Sciences is to prepare excellent human resources in the Health Sciences with innovative academic offerings across the curriculum who can respond properly and rapidly to the needs of local and global communities. The mission, philosophy, and goals of the BSN program are congruent with the mission and goals of Universidad Ana G. Méndez- Gurabo Campus and the School of Health Sciences. The BSN is the program of the School of Health Sciences with the responsibility to prepare nurse generalists who can respond to the needs of our communities.

The curriculum includes 720 hours of supervised clinical hours experiences in the field combined with high fidelity simulation evidenced-based case scenarios.

This program is designed to meet licensure requirements for the National Council Licensure Examination (NCLEX).

Program Objectives

By the end of the program, the students will be able to:

1. Prepare entry-level BSN Nursing professionals for successful employment and graduate studies.
2. Foster a high degree of professionalism as a key member of the interdisciplinary team.
3. Produce graduates with the ability to apply practical knowledge in the workplace and willing to continue to develop skills throughout their nursing career.

Program Outcomes

The undergraduate program provides the knowledge and skills fundamental to professional nursing. Students emerge from this community-based program prepared to pursue graduate study and be able to:

1. Develop partnerships and collaborative relationships to enhance health and healing.
2. Use clinical reasoning in creative problem solving and decision-making to provide evidence-based care to clients in the context of appropriate resources and information technologies.
3. Design, manage and coordinate nursing care in collaboration with the interdisciplinary health care team using knowledge of health care systems, health policy, and global health care concerns.
4. Provide safe, competent nursing care to clients to promote, maintain and restore health and prevent illness within the context of the client's environment.

5. Provide culturally relevant nursing care to clients with diverse backgrounds across the lifespan.
6. Use assessment, communication, and technical skills to design, manage, and coordinate nursing care of clients.
7. Use ethical theory and professional values of altruism, human dignity, integrity, and social justice to advocate for clients, nurses and the nursing profession.
8. Assume the role of the professional nurse, valuing lifelong learning, continued professional growth and commitment to excellence.

Admission Requirements:

1. The applicant must have High School Graduation Diploma or its equivalent (GED).
2. The applicant must have a Grade Point Average (GPA) of at least 2.50 on a scale of 4.00.
3. The applicant must undergo an admission interview process with the Associate Director or his/her designee. In this, a protocol designed to identify the expected qualities will be followed.

Policy for Academic Credits Recognition for the BSN Program for Candidates with active, unencumbered RN license, via examination, in the Continental United States by completion of an ADN:

The NCLEX is a national exam used by each state's board of nursing that assesses essential knowledge and skills to determine whether a candidate is prepared for entry-level nursing practice. This examination considers the integration of knowledge among nursing specialties, in what is known as the five steps of the nursing process: assessment, diagnosis, planning, execution I implementation and evaluation. After meeting this license requirement, the state board of nursing grants a registered nurse license (RN). UAGM recognizes the value of obtaining state licensure and work experience as an RN to those students who possess an active, unencumbered RN license in the Continental United States by having completed an Associate Degree in Nursing (ADN) and seek to acknowledge those candidates who wish to expand their academic knowledge by earning a BSN.

Applicants to the BSN program with a conferred ADN and an active, unencumbered RN license, via examination, from the Continental United States, will be admitted to the BSN program as transfer students accepting the nursing credits completed in their ADN.

In addition, the applicant's transcript will be evaluated for the transferability of BSN's general education and professional courses. To be validated, the courses identified in the official credit transcript must have a passing grade. This new credit validation policy allows the ADN candidate with an active, unencumbered RN license, an expedited transfer with the opportunity to complete the BSN with greater agility.

Criminal Background Checks

Students must authorize and submit a state and federal criminal background check before assignment to clinical and practicum experiences. If any felony or misdemeanor are reported, it may impair student's graduation from the program or his nursing license application to the State Board of Nursing.

RN Licensure Requirements:

The State Board of Nursing mandates that all graduates from a professional nursing program must successfully sit and pass the NCLEX-RN exam in order to become a registered nurse.

*Students must meet State Boards of Nursing requirements to obtain a Nursing License that include the Nursing (NCLEX-RN) and state approved background checks. These requirements contain but are not limited to reporting felonies and misdemeanors in this application's process. Students must comply with state nursing license requirements and must abide with the minimum required hours set by state clinical and practicum experiences. The student must refer to the Nursing Internship Handbook available from the Nursing Program Director or Academic Director for specific requirements and procedures. Minimum Passing Grade: BSN students must approve the required nursing courses with a grade of A or B. *Language skills in English and Spanish will be assessed with a placement test. **Additional language courses** may be needed according to the student's scores in placement tests.

Students must maintain an average of 3.0 in all nursing core courses. No more than two core courses may be repeated in the program. Only one repeat of any core course may be attempted. A second failure of the same course or failure of a third core course will result in dismissal from the program. Students who fail to meet the minimum nursing core average will be placed on FA Warning or FA Probation in accordance with institutional policy and procedure. The number of times a student can withdraw from a course shall be in compliance with the institutional policy. Dismissal from the program is permanent. Nursing students cannot advance in their programs with grade of "F" earned in a core course. Academic counseling should be provided to the student in order to discuss alternatives regarding other academic programs.

REVISED 1/2020 MS, 3/2020 RLN

Bachelor of Sciences in Nursing (BSN) – Major in Nursing (RN to BSN)

128 Credits

Program Description

The Bachelor of Science in Nursing, with the track RN to BSN option, prepares the registered nurse for additional responsibilities and positions within the healthcare environment. Building on the framework of knowledge, skills and competencies acquired during the pre-licensure nursing program, the coursework will further develop the nurse in providing and leading care to diverse populations across the lifespan.

Student Learning Outcomes

Upon completion of the program, the student will demonstrate the knowledge, skills, and competencies necessary to:

1. Apply learned concepts and skills to complex problems and challenges based on knowledge of sciences, cultures, and society.
2. Use organizational and system leadership skills to improve quality care and patient safety.
3. Integrate evidence-based practice into the care of the patient, community and population.
4. Use information management and technology in the care of a diverse population.
5. Examine policy, finance, and regulations relative to diverse healthcare environments.
6. Incorporate inter-professional communication and collaboration to improve health related outcomes.
7. Use knowledge to promote population health and prevent escalation of disease and conditions.
8. Demonstrate professionalism in the delivery and leadership of healthcare.
9. Integrate the knowledge, skills, and attitudes into the care of individuals, families, groups, communities, and populations in a variety of healthcare settings.

Admission Requirements

1. Applicant must be a graduate from a state approved pre-licensure associate or diploma registered nurse program
2. Applicant must have a standard high school diploma or its equivalent
3. Provide official transcripts from a state approved pre-licensure associate or diploma registered nurse program
4. Applicant must hold an unencumbered license as a registered nurse
5. Applicant must undergo an admission interview
6. Applicant must have a cumulative grade point of average of 2.75 on a scale of 4.00

General Education Requirements

To be awarded the degree of Bachelor of Science in Nursing (BSN), all applicants must complete the required general education course work prior to starting the nursing concentration courses for the RN to BSN program option. Upon evaluation of official transcripts from the accredited pre-licensure associate or diploma registered nurse program, the student will be transferred credits for the equivalent courses based on the following requirements.

General Education Course Work	Total Credits
Humanities	29
Mathematics and Science	24
Social Sciences	9
Free Elective	1
Total	63

Transferable Nursing Concentration Credits

Upon evaluation of the official transcripts from the accredited pre-licensure associate or diploma registered nurse program, students will receive 29 transfer credits for the following nursing concentration credits for the equivalent coursework:

- NURS 201-O Fundamentals of Nursing,
- NURS 203-O Pharmacology,
- NURS 303-O Medical-Surgical Nursing,
- NURS 304-O Maternal and Child Nursing,
- NURS 305-O Nursing Care of Children and Adolescents
- NURS 404-O Mental Health Nursing,

Nursing Concentration Required Coursework

The following coursework for 36 credits is required to complete the degree of Bachelor of Science in Nursing (BSN):

- NURS 205-O Pathophysiology
- NURS 206-O Health Assessment and Promotion
- NURS 309-O Organizational and System Leadership
- NURS 210-O Nursing Informatics
- NURS 307-O Evidence-Based Practice
- NURS 308-O Healthcare Policy
- NURS 416-O Healthcare Quality and Outcomes
- NURS 417-O Clinical Prevention and Population Health
- NURS 405-O Nursing Leadership
- NURS 446-O Capstone RN to BSN

Graduation Requirements

Students must complete a total of 128 credits and maintain a cumulative grade point of average of 3.00 on a 4.00-point scale to qualify for graduations.

Bachelor of Sciences in Community Health (BSCH) – Major in Community Health

120 Credits

Program Description

The Community Health Bachelor's program will prepare students for careers in a variety of community and public health settings, including governmental and non-profit health agencies, health care facilities, worksite wellness programs, program research and development, and schools. Graduates will be able to promote healthy lifestyles and wellness through informing and educating individuals and communities about behaviors that promote healthy living and prevent injury, disease, and illness; plan, implement and evaluate health programs; develop effective and culturally competent health promotion and disease prevention strategies; apply statistics and research methods to population health and community health program evaluations, and advocate for community health initiatives at local, state and federal levels.

The curriculum includes coursework addressing the seven CHES competencies as identified by the National Commission for Health Education Credentialing (NCHEC) and the five core areas of public health as identified by Council on Education for Public Health (CEPH).

Knowledge and skills in the BSCH program include comprehension of basic community health content related to health care systems; public health; health disparities; health education resources; communications and instructional methods; health and wellness promotion; disease and injury prevention; behavioral health education; epidemiology; trauma; community health research; strategic management of health programs, cultural competency, and community health issues and advocacy.

The Main Objectives of the BSCH Program include the Following

1. Prepare entry level BSCH Community Health professionals for successful employment and graduate studies;
2. Foster a high degree of professionalism as a supporting member of the health interdisciplinary team;
3. Produce graduates with the ability to apply practical knowledge in the workplace and willing to continuously develop skills throughout their health career.
4. To respond to society's demand for human resources with skills in the field of community health.
5. To facilitate the student's integral development by providing learning experiences oriented towards the development of cognitive, affective and psychomotor skills, according to the description of the program of study.

BSCH Graduate Profile:

Community Health students are expected to:

1. Base practice on current knowledge, theory, and research.
2. Assume responsibility and accountability for practice.
3. Form partnerships with health care and allied health professionals.
4. Communicate, collaborate, lead, and negotiate.
5. Practice across a variety of settings and with diverse populations.
6. Assess needs, plan, implement and evaluate health programs.
7. Educate individuals and groups.
8. Advocate for patients and communities within the public health system.
9. Manage physical, fiscal, and human resources.

10. Participate in research and apply research findings.
11. Assume responsibility for lifelong learning and plan for professional career development.
12. Participate in shaping public health policy and programs.

Admission Requirements:

1. High School Graduation Diploma or its equivalent (GED).
2. Minimum GPA 2.50 or its equivalent or evidence of 2 years of work experience.

Bachelor of Arts (BSW) – Major in Social Work

122 Credits

Program Description:

The Baccalaureate's degree in Social work (BSW) will require the satisfactory completion of 122 credits. The general education includes 45 credits, 27 credits of required courses and 50 credits of major courses. The Social Work program has been accredited by the Council on Social Work Education (CSWE).

Through these courses, students acquire the knowledge to better understand specific concepts of social work practice such as diversity, social and economic justice, oppression, discrimination, prejudice, values, ethics, and social policy, among others. Additionally, these courses strengthen their critical analysis of the impact of economic and social forces on the individual.

The BSW Program expects that these courses will provide students with a better understanding of the bio-psycho-social determinants of human development and behavior, diversity, ethics, values, as well as a broader knowledge of U.S. culture and others cultures.

The Bilingual Bachelor of Arts in Social Work prepares the student under the Generalist Social Work model and the intervention with diverse populations. The program aims to promote the development and acquisition of necessary skills to utilize evidence-based interventions with individuals, families, groups, organizations and communities. Integrating the elements of professional ethics, diversity, human rights, social, economic and environmental justice. The Social Work program is offered in a bilingual model (Spanish and English), which promotes that the student develops the necessary linguistic skills, while acquiring a theoretical, practical, ethical, social, economic and political knowledge. Which will allow students to insert themselves in the work and serve the growing community of Hispanics/Latinos and other vulnerable populations in the United States.

Program Objectives:

Based on School of Social Sciences and Communications (SSSC) objectives the Baccalaureate Program in Social Work have the following goals:

1. Prepare competent and effective social workers with knowledge of the fundamental components of the Social Work profession; committed to the enhancement of their professional practice, and in compliance with academic and professional standards of excellence.
2. Development of knowledge and skills in generalist social work practice from micro to mezzo to macro levels; emphasize the dimensions of diversity and value principles as applied to general practice.
3. Prepare professional practitioners to deliver effective social work services to diverse groups and settings with a commitment to promote social and economic justice and human and civil rights.
4. Prepare students to develop knowledge of scientific inquiry and its contribution to social work practice.
5. Prepare students able to engage in the policy practice process capable of critically analyze the impact of social welfare policies and social services in the United States, and other societies across the World.
6. Prepare competent professionals with an education based on a body of knowledge in liberal arts and theoretical framework in human behavior and social environment.
7. Prepare competent professionals with an education based on a body of knowledge in liberal arts and theoretical framework in human behavior and social environment.

Admission Requirements:

- Social Work Baccalaureate program admission criteria require a minimum High School grade point average of 2.25 or equivalent.
- Students complying with the GPA requirement will write an essay about their interest in the social work profession in the language of their preference (English or Spanish) that will allow for the evaluation of the qualifications and aptitudes to human services, and their awareness of the community's social problems.
- All applicants admitted must take English and Spanish Placement Tests. Students that do not place at college level English or Spanish are required to enroll and pass developmental language courses in either or both languages prior to enrolling in Social Work major courses.
- Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of social work courses.

License

License requirements vary by state. For information on applying for a license, please refer to the Social Work State Board.

Master's Degree

Master's in Education (M.ED.) – Major in School Counseling

48 Credits Offered on all Florida Campuses and Capital Area Campus

Program Description

This program is designed to prepare professional school counselors in a school setting with the knowledge, skills, and practices necessary to address the developmental, multicultural, social, academic, and career needs of school children and adolescents. The Master's training leads the graduate to acquire the competencies needed to be able to develop, implement and evaluate a school counseling program according to state standards with an emphasis of a collaborative, preventive and responsive approach. The graduates from this program will be able to address effectively and support a diverse student population through proficient bilingual communication in conflict management, problem solving, and decision making. It provides school counselors with a foundation in the principles, theories, and practices of school counseling in a PK-12 school setting. The program is designed to prepare students to meet the requirements of School Counselor credentialing articulated by the national and state standards.

Students in the School Counseling program must meet all state and local requirements to obtain certification in the area of educational school counseling. The program meets state requirement for certification by requiring the completion of 48 hours in a master's degree with a major in school counseling, including 3-semester hours in a supervised counseling practicum experience that is a minimum of 100 clock hours over a minimum of 10 weeks. In practicum, students will complete at least 40 clock hours of direct service with actual clients. After completion of counseling practicum, students will complete 600 clock hours of supervised counseling internship. Internship students must complete at least 240 clock hours of direct service. The internship will require students to work in a PK-12 school setting for minimum 15 weeks, 40 hours per week, for a total of 600 hours. Students must arrange to comply with the school clinical observation and internship requirements during a regular school day schedule. Students must abide by all rules and procedures set by the school district to meet program requirements. Students must also show evidence of a passing score in state certification exams prior to assignment of the practicum/internship. The student must refer to the Internship Handbook for specific requirements and procedures.

The School Counseling program meets the educational eligibility criteria for certification in the state in which the program is offered. Graduates of the program who wish to teach in another U.S. state or country may require additional eligibility criteria to qualify for licensure and/or certification in those locations. We are unable to confirm the licensure and/or certification requirements of other states or countries. Therefore, if you intend to pursue such credentialing in another state or elsewhere, it is advised that you to contact the applicable state or country credentialing authority to familiarize yourself with its specific requirements and determine if this program meets the applicable eligibility criteria.

Program Objectives

- Demonstrate the knowledge, skills, and abilities necessary to become state certified as a school counselor.
- Demonstrate knowledge and understanding of the educational theories in school counseling.
- Practice of individual and group counseling techniques.
- Demonstrate knowledge and understanding of the process of school counseling.
- Demonstrate knowledge of human development theories, and career development issues.
- Demonstrate knowledge and understanding of major counseling theories and the relevant skills and their application in counseling relationships with students and groups with a variety of settings.
- Demonstrate knowledge of ethical issues in the school counseling process.
- Apply specific strategies for the counseling of students and consultation skills and techniques for conferring with groups such as agencies, teachers and parents
- Demonstrate knowledge of the legal aspects of the practice of school counseling in public schools.
- Demonstrate understanding of assessment techniques in counseling.
- Understand specific cultural idiosyncrasies of different populations.
- Apply principles and procedures of educational research and its relevance to the counseling process.

Education Programs Internship Requirements:

Students are required to demonstrate mastery of the necessary basic skills, content and pedagogical knowledge by obtaining qualifying scores on all state examinations required for certification. If student is seeking professional (standard) level certification upon graduation, all certification examinations must be passed prior to practicum, internship or graduation. If any of the aforementioned requirements are not met prior to practicum or graduation, student will acknowledge professional (standard) certification will not be met and may have to pursue a conditional or temporary certification while completing certification professional requirements.

Master in Education (M.Ed.) – Major in Counseling

45 Credits Offered at the Metro Orlando, South Florida, and Tampa Bay Campuses

(This program is not admitting new students)

Program Description

This program is designed to prepare school counselors to provide individual or group counseling services in K-12 schools or counselors in postsecondary and higher education institutions. It provides counselors with the background in the principles, theories, and practice of guidance and counseling. The graduates from this program will be able to interact with their clients and team with situations that require effective communication, conflict management, problem solving and decision-making. The goal of this program is to develop counselors who possess the needed competencies to perform the duties in an effective manner. The program offers two options: school counseling in public and private settings and students affairs in higher education.

Option in School Counseling K-12 (12 Credits):

Students that choose the K-12 option will develop dual language competencies to perform the duties of school counselors in an effective manner in the school setting.

Students must meet all state and local requirements to obtain certification including basics skills, content specific and pedagogical examination and demonstrate mastery in following areas:

- Student appraisal and evaluation methods in Pre-K-12 students including interpretation and analysis of standardized tests and other assessment results that assist students in career exploration, academic skills and personal and social skill development;
- College and career planning for Pre-K-12 students including college and career exploration and knowledge of financial aid and financing of postsecondary education options;
- Principles, philosophy, organization and administration of a comprehensive school counseling program in Pre-K-12th grades; and
- Consultation skills and techniques for conferring with groups such as agencies, teachers and parents.
- Completion of 600 clock hours in supervised school counseling practicum. During the practicum, students must complete at least 240 clock hours of direct service. The practicum will require students to work in a PK-12 school setting for minimum 15 weeks, 40 hours per week, for a total of 600 hours. Students must arrange to comply with the school clinical observation and internship requirements during a regular school day schedule.

Students must abide by all rules and procedures set by the school district to meet practicum requirements. Students must also show evidence of a passing score in state certification exams prior to assignment of the practicum/internship. The student must refer to the Internship Handbook for specific requirements and procedures.

The School Counseling option meets the educational eligibility criteria for certification in the state in which the program is offered. Graduates of the program who wish to teach in another U.S. state or country may require additional eligibility criteria to qualify for licensure and/or certification in those locations. We are unable to confirm the licensure and/or certification requirements of other states or countries. Therefore, if you intend to pursue such credentialing in another state or elsewhere, it is advised that you to contact the applicable state or country credentialing authority to familiarize yourself with its specific requirements and determine if this program meets the applicable eligibility criteria.

Option in Student Affairs in Higher Education (12 Credits):

The option in Students Affairs in Higher Education will prepare students in counseling students in higher education institutions and provided the dual language competencies to perform the duties in an effective manner. The students will develop the skills to counsel students in through the study of different theoretical perspectives. During the program, students will have the opportunity to discuss resources needed to counsel students in the transition from school to a higher education institution as well as legal and ethical issues pertaining university students. In addition, the program will develop the skills to help college students in the prevention and promotion of mental health, prevention of risk factors and the creation of prevention programs within the campus.

The option includes a 100-hours final formative experience in student's affairs counseling. The practicum/ internship will include direct service hours in individual and group interventions and will focus on the development of competencies in individual and group counseling in higher education institution interacting with faculty, students and student service personnel.

The internship experience is in English only; Students must demonstrate English language proficiency in listening, speaking, reading, and writing to ensure a successful experience. The student must refer to the Internship Handbook available from the Academic Director for specific requirements and procedures.

Program Objectives:

- Knowledge and understanding of the theories of counseling.
- Practice of individual and group counseling techniques.
- Knowledge and understanding of the process of counseling with students and consulting techniques when collaborating with parents, teachers and support agencies.
- Knowledge of human development theories, and career development issues.
- Knowledge of ethical issues in the counseling process.
- Knowledge of specific strategies for the counseling of students.
- Knowledge of the legal aspects of the practice of counseling in schools.
- Knowledge of assessment techniques in counseling.
- Understanding of specific cultural idiosyncrasies, needs and counseling practices for students in school settings.
- Knowledge and understanding of principles and procedures of educational research and its relevance to the counseling process.
- Understanding of the specific cultural idiosyncrasies, needs and counseling practices for students in a higher education setting.

Education Programs Internship Requirements:

Students are required to demonstrate mastery of the necessary basic skills, content and pedagogical knowledge by obtaining qualifying scores on all state examinations required for school counseling certification. If student is seeking professional (standard) level certification upon graduation, all certification examinations must be passed prior to practicum, internship or graduation. If any of the aforementioned requirements are not met prior to practicum or graduation, student will acknowledge professional (standard) certification will not be met and may have to pursue a conditional or temporary certification while completing certification professional requirements.

Master in Education (M.Ed.) – Major in Teaching of English as a Second Language

39 Credits

Offered at Metro Orlando Campus

(This program is not admitting new students)

Program Description:

This major is designed to provide candidates with educational experiences in the principles, theories, and practice of English second language acquisition, learning, and teaching. It seeks to prepare educators to assume positions of leadership in ESOL education as teachers in public schools. Students must comply with state and local requirements or limitations to practice the ESOL profession in Florida. Graduate students must achieve a passing score on the ESOL subject area test to be certified. The program focuses on the Florida State ESOL Performance Standards.

The practicum in teaching lasts 12 weeks, 20 hours a week, providing students with field experiences to demonstrate mastery of the Florida Educator Accomplished Practices in a school setting during the regular school year. Students must make arrangements to comply with the internship requirements during a regular school day schedule. The internship experience is in English only. Students must demonstrate English language proficiency in listening, speaking, reading, and writing. The student must refer to the Internship Handbook available from the Director of Faculty for specific requirements and procedures.”

Education Programs Internships Requirements:

All students seeking an education degree must achieve a passing score on the Florida State Teacher Exam (Basic General Knowledge Test) before initiating the internship experience at a public school setting. Additionally, before seeking a teaching position, graduates must comply with all Florida State Certification requirements.

Program Objectives:

Upon completion of the program, the student will develop:

1. Knowledge and understanding of the theories, goals, and research on ESOL education
2. Knowledge and understanding of ESOL curriculum development, theories, and applications
3. Knowledge and understanding of the process of English language development and language acquisition
4. Knowledge of the ESOL classroom-based language assessment strategies and will demonstrate application of those strategies
5. Knowledge and understanding of methods of teaching ESOL
6. Knowledge of specific strategies for teaching reading in a bilingual setting to limited English proficient (LEP) students and demonstrate application of these strategies
7. Knowledge and understanding of brain based research and cognitive psychology as it relates to language learning and acquisition
8. Knowledge of specific strategies for developing communicative competencies in LEP students
9. Knowledge and understanding of ESOL strategies to integrate cognitive and affective learning
10. Understanding of specific cultural idiosyncrasies that impact student linguistic and academic success
11. Knowledge of English writing strategies
12. Knowledge and understanding of ESOL educational research and its relevance to the instructional process

Program Outcomes:

Students will be able to:

1. Develop ESOL classroom research projects
2. Develop lesson plans for the teaching of reading and writing using different strategies.
3. Design ESOL curriculum units for LEP students
4. Develop ESOL performance portfolio assessments projects
5. Conduct ESOL workshops
6. Develop community projects within a diverse population
7. Communicate adequately in English both orally and in writing.

Master of Science in Public Affairs (MSPA) – Major in Criminal Justice

39 Credits

Program Description:

The program trains professionals to assume a multitude of roles such as analysts, evaluators, and planners in the public administration field in both the public and private sectors within the various Criminal Justice fields. The academic and professional orientation of the program enables the student to analyze the doctrines and principles of public administration that are involved in the implementation of public policy.

As a result, of the seminar and field projects emphasizing the application of concepts and analytical tools to the real problems of our present day society, the program prepares students for positions of high responsibility in the public affairs fields. The program also focuses on the political, economic and organizational aspects of developing, implementing and evaluating public policy.

The program will be built upon the current Bachelor Program in Criminal Justice offered at all campuses. The MSPA in Criminal Justice will offer courses in Ethics, Administration, Planning, and Developing the Criminal Justice System, from Philosophy of Punishment to Correctional Program Administration. The students will learn new tendencies in the administration and evaluation of the system that affect local, state and nationwide programs.

Program Objectives:

1. Offer students a quality education giving them the necessary professional tools to meet the challenges of public administration and public policy implementation within the area of Criminal Justice.
2. Develop competent bilingual professionals with outstanding leadership skills in the implementation of programs, policies and services in Florida.
3. Upgrade the professional and academic preparation of administrative personnel working in public and private agencies, enabling them to explore and utilize effective strategies in the decision making process.
4. The program will create professionals who will know and recognize the importance of integrity and ethics in the performance of their functions.
5. The program will provide the knowledge and skills necessities in the finance area for the effective management of fiscal resources.
6. Graduates from the MSPA in Criminal Justice will be capable of excelling in a constantly changing legal system full of new technologies and increasing demands as part of our multi-cultural society.
7. Graduates from the MSPA in Criminal Justice will know and understand the theories behind our Criminal Justice System, which will allow them to master and fully engage in the multidisciplinary processes within the system.
8. Graduates from the MSPA in Criminal Justice will be able to understand and practice basic principles and research methods that will guide them to excel in the different available practice fields.

Master of Science in Nursing (MSN) – Major in Family Nurse Practitioner

51 Credits

Program Description:

Master of Science Degree in Nursing with a Family Nurse Practitioner Specialty and Graduate Professional Certificate with a Family Nurse Practitioner Specialty. Students are taught from a holistic perspective with a multidisciplinary and collaborative focus throughout the life span of the patient. Students are exposed to educational activities that will prepare them to increase health promotion, preventive health, and provide primary care services. Students will contribute to decreasing morbidity and mortality in medically underserved, low-income populations both globally and in the United States.

Program Objectives:

1. Utilize national primary care guidelines and standards to promote high quality health care services.
2. Participate in the generation, application, and dissemination of research.
3. Participate in planning, development, and implementation of community health programs.
4. Utilize research to enhance the quality of health care.
5. Provide health promotions and disease prevention.
6. Maintain a collaborative relationship with other healthcare professions.
7. Participate in continuing education through different methodologies, including online courses.
8. Maintain proficiency in computer skills and information technologies.
9. Participate in legislative and policy-making activities which influence health care.
10. Develop grant/proposal writing skills.

Note: Students must pass a *criminal background check* in order to participate in some clinical settings and to meet the Board of Nursing Standards to become licensed.

Admission Requirement:

- Hold a Bachelor of Science of Nursing.
- GPA. 3.00.
- Basic statistics course at the baccalaureate level (3crs).
- Active Florida Professional Nursing License.
- Complete an Interview process with the coordinator of the program or his/her representative.
- Submit three letters of recommendation.
- Submit evidence of credits at the Nursing Bachelor's Degree with the admissions forms.

*Language skills in English and in Spanish will be assessed with a placement test. Additional language courses may be needed according to the student's scores on placement tests. If students qualify for Preparatory Language Courses or developmental Language Courses, they must enroll in the courses immediately to increase academic performance in the language. Students must abide with the minimum required hours and policies set by the state and accrediting agencies for the practicum experiences. Students must comply with state requirements to obtain an ARNP certification. Revised 4/2020 MIS.			

Master of Education (M.Ed.) – Major in Instructional Design and Technology Integration with E-Learning

39 Credits

Offered at Metro Orlando, South Florida and Tampa Bay Campuses

Program Description:

The M.Ed., Instructional Design and Technology Integration with E-Learning is designed for the student interested in a career in the area of curricular development with technological integration in private, public and nonprofit educational organizations. The program prepares students to create learning and performance solutions using learning theory, instructional design techniques and strategies to meet the need of diverse learners and purposes.

Upon completion of the 39 credit hour program, M. Ed. in Instructional Design and Technology Integration with E-Learning the graduate will be able to:

- Apply fundamental research and knowledge and skills into the instructional design process using instructional designer foundations
- Conduct comprehensive needs and instructional analysis as part of a learning project examining target populations, setting and learning characteristics, instructional materials, and multi-media and adaptive technologies
- Implement and evaluate learning and performance solutions based on instructional design proposals and learning projects for continuous improvement

This degree does not lead to teacher licensure in any state. Students seeking to become a classroom teacher must contact the state's department of education to determine what state-specific requirements for certification. Graduates seeking teacher licensure may be subject to additional requirements on a state-by-state basis that could include student teaching or practicum experience, additional coursework, additional testing, or, if the state requires a specific type of degree to seek alternative certification, earning an additional degree.

Program Objectives:

1. Contribute to the development of professionals in the area of instructional design and technological integration with E-Learning. That will assume, with vision and leadership, the management of organizations in the present and in the future.
2. Promote the education of a professional with the capacity to understand instructional design and technological integration as part of national and global perspective.
3. Train students in the use of technological and communication mean for the purpose of integrating them in a strategic way in the development of technological processes in education.
4. Develop in students skills of communications, analysis, and synthesis and to apply those skills in the process of decision making in educational settings.
5. Develop in students a creative and visionary attitude and teach them how to interpret correctly organizational culture and anticipate and foster opportunities for their organizations.
6. Promote in students an interest in innovation and use of leadership skills in the integration of technology.
7. Collaborate in the development of a professional with technological and strategic vision, with a clear understating of the social responsibility of a leader.

8. Prepare students with the skills to identify and use institutional resources to guaranty de development and success of a program.
9. Teach students the skills necessary to identify partnerships with local, national and international enterprises that will help their organizations in the achievement of high standards.
10. Promote in students an interest in integrating their knowledge in instructional design, technological integration, and E-Learning into the highest professional standards in their careers.
11. Promote in students an interest in research that contributes to the solution of problems in non-traditional ways in the context of a globalized economy.
12. Apply their specialized knowledge in serving the educational needs of adults at all levels and points of their careers.
13. Develop in students the knowledge and skills necessary to start their own enterprises and rise in an ethical way to the highest levels of management in private and public enterprises.
14. Learn to adapt their knowledge in the field to diverse settings while maintaining the highest standards in the practice of their profession.
15. Develop in students the knowledge and skills to practice their profession in an ethical and conscientious way for the benefit of his business and the community in general.
16. Contribute to the education of professionals in the field of instructional design, technological integration, and E-Learning that will serve effectively to our modern society at the local, national and international levels.

Master of Arts (MA) – Major in Forensic Sciences

42 Credits

Program Description:

The curriculum is interdisciplinary, focusing on the analysis of administrative processes, decision-making and the organization of public and private institutions at the local, national and the international levels.

It provides students with a solid education, which will enable them to plan, design and evaluate programs and services in the public administration field and particularly in the areas of criminal justice, human services, conflict mediation, and the arts. It fosters broad and programmatic responsibility and leadership.

Program Objectives:

1. Offer students the professional tools to meet the challenges of public administration.
2. Develop competent professionals with effective leadership in the implementation of programs and services in Florida and the United States.
3. Upgrade the professional preparation of administrative personnel in public and private agencies, enabling them to explore and utilize effective strategies in the decision-making process.

Master of Arts (MA) – Major in Multimedia Journalism

33 Credits

Offered at South Florida Campus

Program Description:

The Master in Communication with a specialization in Multimedia Journalism prepares journalists capable of producing journalistic products in tune with the requirements of the digital era and with the knowledge to use the new digital platforms that are present in the field of communications. It offers students the knowledge to understand the new tendencies and requirements of journalism in a changing and global world. The curriculum focuses on theory and practice of journalism.

The students will master diverse areas in the field of communications and will be able to develop new products in numerous multimedia platforms that will transcend territorial frontiers and have a global reach. They will master the traditional news formats but will focus on the use of multimedia formats. At the same time, they will understand the needs of the modern communication markets, and the legal, ethical foundations that protect freedom of speech and press.

The Master in Communications-Multimedia Journalism degree is a component of the multiple disciplines offered by the School of Social Sciences and Communications.

Program Objectives:

The general objectives of all school curricula and programs are to:

1. Maintain academic excellence through study, teaching and social research.
2. Promote the knowledge and preservation local, nation and universal cultural values.
3. Develop the understanding that collaboration is necessary to achieve the sharing of ideas within disciplines, institutions, communities, and nations.
4. Develop the capacity to analyze problems and seek solutions.
5. Promote understanding of the human condition, helping students to view the world with compassion and promoting responsible and ethical behavior.
6. Provide the student with interdisciplinary knowledge that makes it possible to understand modern society and its primary social problems.
7. Help the student to obtain a scientific and philosophic education, analytical and observant of human and organizational behavior.
8. Foster critical analysis and research of the economic, social and political situation in United States' today, and encourage interest in searching for alternative models and solutions.
9. Prepare the student to pursue graduate studies in the social sciences and communication fields.

Based on School of Social Sciences and Communications (SSCC) objectives the Master in Communications-Multimedia Journalism has the following objectives:

1. Apply the principles and laws that protect freedom of speech, press, and assembly both at the national and international level.
2. Analyze the history and development of communications in society and the role of professionals that work in the field.
3. Apply the principles of social respect and diversity that permeates society and understand its relation to communications and diversity of cultures in a global society.

4. Apply the principles, theories, concepts and fundamental models of social communications in the presentation of written and audio-visual news stories.
5. Apply the ethical principles of the profession, respecting truth, accuracy, impartiality, and diversity.
6. Demonstrate critical thinking, creativity, and independent thinking skills and use them to solve conflicts and problems in a creative form in the field of multimedia journalism.
7. Apply investigative techniques to obtain the necessary information to identify problems in the journalistic field and establish the strategies needed to solve them.
8. Write correctly and clearly in forms and styles appropriate in the field of multimedia journalism.
9. Apply the most recent tools and technologies of communications and recognize its impact in today's digital era.

Critically evaluate their own work and that of others for accuracy, precision, and clarity in the use of English and Spanish.

Master in Education (M. Ed.) – Major in Social and Community Services

36 Credits

Program Description

The program provides preparation and development for professionals to advise individuals in post-secondary institutions, businesses and community organizations in the advancement of their education, professional development and career planning. The program provides graduates with the background in principles, theories, and practice of advising and general counseling. Graduates from this program will be able to interact and establish relationships allowing them to work in situations that require skills in effective communication, career development, conflict management, problem solving and decision-making. Graduates will have the opportunity to apply interdisciplinary knowledge about human needs and social, economic, and cultural impacts to advise individuals in their life transitions in educational, profit, non-profit, and government settings. The graduates will be prepared to collaborate with diverse stakeholders; manage programs to best meet needs of individuals, and communicate recommendations regarding care, resources, and services.

The curriculum includes 100 hours of practicum experience in the field of the required 36 credits. Practicum locations will be based on student's area of interest and must be approved.

This program is not designed to meet licensure requirements for the social work and counseling professions.

Program Objectives

Students will be able to:

- Apply knowledge and understanding of fundamental theories in guidance, counseling, career, and adult development to help students and adults with their education, career and professional development.
- Use advising and counseling theories, techniques, and skills to analyze client's needs, develop goals and implement a plan of action that promote life planning towards academic success, career, and adult development
- Use skills in conflict management, problem solving, and decision-making to support and guide individuals through life transitions and efficacy.
- Demonstrate effective oral and written communication in English and Spanish for relationship building with individuals and stakeholders, administrative professional duties, and disseminate and present materials to promote civic engagement.
- Apply knowledge of ethical issues and legal aspects of advising in post-secondary institutions, profit, non-profit, and government settings.
- Design and implement programs for diverse populations understanding human needs, addressing collected data and using best practices to advise on educational goals and career advancement to help resolve underemployment or unemployment.
- Use assessment techniques to inform advising.
- Understand the context and role of diversity to establish and implement culturally relevant and inclusive professional advising practices for students and adults in post-secondary institutions, community service and businesses.
- Use educational research to maintain high quality performance in practice.

- Understand the range and characteristics of community resources and their conceptual models for direct care, resource sharing, and services.
- Evaluate interventions most appropriate to help students and adults in overcoming educational and social barriers to improve their performance garnering support and resources in their community.

Program Outcomes

Graduates will be able to:

- Offer individual advising to develop personal exploration, decision-making, and goal-setting skills needed to actualize educational, career, or professional goals.
- Offer group advising in post-secondary, career, and professional development.
- Administer and interpret diverse assessments and results.
- Offer guidance and advisement in career selection.
- Design educational and career advising plans for individuals.
- Conduct workshops with different students and adult populations.
- Engage diverse stakeholders to develop and implement schools-college-business-community partnerships to promote advocacy and collaboration.
- Provide guidance and resources needed for life transitions for students and adults.
- Coordinate programs that are reflective of the developmental and demographic profiles of individuals served.
- Communicate information about programs and services to individuals using varied methods of delivery.

Course Descriptions

ACCO 111-O Introduction to Accounting I

Three Credits

This course covers the fundamentals of the financial accounting. It includes the process of registration of the transactions; management of the accounts practices; the worksheets; preparation of the financial statements; management of the cash; account receivables and inventory systems. **Pre-Requisite: None**

ACCO 112-O Introduction to Accounting II

3 Credits

It will examine the second part of the Financial Accounting Fundamentals course. It includes the Information Systems in accounting, Property, plant and equipment, Tangibles, Intangibles assets, Current liabilities, Payroll system, accounting theory and business organizations, such as Partnerships and Corporations. **Pre-Requisite: ACCO 111-O**

ACCO 301-O Intermediate Accounting I

3 Credits

This course will study the generally accepted, basic principles of accounting, as they are applied to the presentation and disclosure of the accounting information in the financial statements and related notes. It includes wage entries, adjustments, work sheets, financial statements, appraisal of the assets and liabilities by classification. IT also includes the procedures and principles that are followed in the presentation of the owner's equity and the income statement. **Pre-Requisite: ACCO 112-O**

ACCO 302-O Intermediate Accounting II

3 Credits

Students will study the basis and the generally accepted principles of accounting, according to their application to the presentation and disclosure of accounting information in the financial statements and related notes. This includes journal entries, adjustments, work sheets, financial statement preparation, specifically the theories and basic principles applied to the acquisition and appraisal of uncommon assets, financial analysis of the company through debt or capital emission, financing alternatives through rent, investment registering theories, and recognizing profit and income. **Pre-Requisite: ACCO 301-O**

ACCO 303-O Cost Accounting

3 Credits

This course will study the fundamental principles of the Cost Accounting and functions. The accumulated system of cost, methods to determine the cost classification, problem solutions, statements preparations, use of forms and registers and decision-making. The course also includes: the accountant role in the organization, cost's purpose and terms, cost analysis, cost by orders, cost base on activities, master budget and flexible budget, variance, managerial control and accounting responsibility. **Pre-Requisite: ACCO 302-O**

ACCO 304-O Auditing I

3 Credits

Study of accounting theory, auditing procedures, worksheets, internal control and fraud. Preparation of Audit Financial Statements, forms, procedures and methodology. **Pre-Requisite: ACCO 302-O**

ACCO 307-O Auditing II

3 Credits

Study of the audit process focused on the practical part of the procedures and emphasizing the Risk Assessment SAS (SAS 104-111), from the planning of the audit using analytical procedures, to determine materiality and risk, auditing internal controls and fraud. Implementation of the processes of audit cycles in the sales and collection and other cycles as payroll, disbursements, accounts payable, property, plant and equipment, prepaid expenses, accrued expenses and income and expenditure accounts, inventory, notes payable and capital accounts and cash. The student will complete the audit process, review contingencies and commitments, issuance of the auditor's report and subsequent events. **Pre-Requisite: ACCO 304-O**

ACCO 310-O Forensic Accounting

3 Credits

This course studies the concept and development of forensic accounting through an analysis of their trends and institutions. It identifies and explains each one of the forensic accounting crimes and the methodology to detect them. The course also analyzes the main aspects of litigation services provided by forensic accountants, through the proper management of evidence, and the accurate calculations of commercial damage. This course integrates a deep analysis of cybercrime and the methodology applied to conduct an accurate business valuation. Finally, the course discusses practical case

studies to understand the principles and unusual procedures and relationships related to forensic accounting. **Pre-Requisite: ACCO 307-O**

ACCO 320-O Federal Income Tax I

3 Credits

Study of the historic development and the conceptual structure of the Federal Income Tax System; objectives, and basic concepts of the imposition system; income tax rate; kind of the income tax forms; how prepare the different tax forms; taxable income; contributive credits and others. **Pre-Requisites: ACCO 112-O**

ACCO 330-O Corporate Accounting Government

3 Credits

This course introduces the student to the corporate world, especially with details that pertain to the role of the key players. It includes the importance of corporate governance for the twenty-first century, rights and obligations, as well as, the legal and ethical challenges that the board of directors' face. Emphasis is placed on monitoring the implementation and administration of management to ensure the effectiveness of the board of directors. It also presents aspects of corporate governance and international non-profit institutions vs. the American model. **Pre-Requisite: ACCO 302-O**

ACCO 340-O EDP Auditing

3 Credits

Auditing, assurance and internal control, information technology governance, operating systems and networks, data management systems, system evaluation and control, processing financial reporting system, computer-aided audit tool, data structures, revenue and expenditures cycle test of controls and substantive testing. **Pre-Requisite: ACCO 307-O**

ACCO 391-O Cost Accounting II

3 Credits

Include the Activity Based Costing system and the management considering design, manufacturing and distribution Process; simple costing using a single indirect cost pool and the five steps decision-making process. Consider the master budgets and operating budgets considering the timing, advantages and the responsibilities in the implementation. The inventory costing using variable, absorption and throughout methods is also part of the course. The strategies, the balanced scorecard in the profitability analysis are emphasized. Also, the course includes the cost allocation

and methods analysis for different departments. **Pre-Requisite: ACCO 303-O**

ACCO 395-O Managerial Accounting I

3 Credits

Managerial reports preparation. The use of those in the decision-making process. Planning and control of the operations. Includes costs definition in terms of its behavior and function; cost analysis, volume and benefit; master and flexible budget; short-term decision-making. **Pre-Requisite: ACCO 112-O**

ACCO 396-O Managerial Accounting II

3 Credits

This course covers the second part of ACCO 395. It provides students with methods to report managerial information to internal users of the firm. Budgeting, standard cost systems, reporting and analyzing performance, management control systems, flexible budget systems, variance analysis are among the contents covered. The student taking this course will acquire a basic understanding of the most commonly used methods for using information from the firm's accounting and information systems to assist in making important managerial decisions. **Pre-Requisite: ACCO 395-O**

ACCO 453-O Accounting Project

3 Credits

The most important integrating experience in the studies of a bachelor's degree student. The student must synthesize and apply knowledge from the perspective of the accounting discipline in simulated situations and different scenarios. Financial decisions are examined from an integrative perspective of the variables that affect them and which fall within the specialty courses. It can be performed as a workshop, a research seminar, an individual project or group, or a creative work done in a study, a laboratory or field research. **Pre-Requisites: ACCO 303-O, ACCO 304-O, and 3 specialization courses**

BIOL 103-O Biology for Health Sciences

3 Credits

Biology compendium which includes fundamental concepts of the cell, genetics, and the introduction to Anatomy and Physiology. **Pre-Requisite: None**

BIOL 300-O Microbiology

3 Credits

This course emphasizes the fundamental concepts of microbiology such as: bacteriology, mycology, virology,

parasitology and immunology. The course discusses and analyzes a variety of topics about pathogenic microorganisms, signs, symptoms, diagnosis of infectious disorders and basic treatment. This course also analyzes the capacity of microorganisms that cause diseases, prevent diseases, and their economic importance in human societies. **Pre-Requisites: None; Co-Req: BIOL 300-OL**

BIOL 300-OL Microbiology Laboratory
3 Credits

Students will be exposed to the microbial world and the techniques for their study from the human and environmental health perspectives. During the course students will learn fundamental techniques for the study of microorganisms and their manipulation. Each laboratory experience and other activities have been chosen to encourage students to think for themselves, take initiative, and be responsible in their work as part of the ethical principles. **Pre-Requisites: None; Co-Req: BIOL 300-O**

BIOL 303-O Human Biology I
3 Credits

The course integrates the study of the structure of the human organism, its development and histology, with the function of organs and systems. Also, issues related to health are discussed. Study of the cellular concepts, histological structures, and of osteoarticular, muscle and nerve systems, emphasizing the value of life, human dignity, respect, integrity, justice and responsibility of every human being. **Pre-Requisites: BIOL 103-O, Co-Req BIOL 303-OL**

BIOL 303-OL Human Biology Laboratory I
1 Credit

The laboratory experiments were design to enable students to learn human anatomy and physiology in a whole manner. Each laboratory experience and other activities were chosen to encourage students to think for themselves, take initiative and be responsible in their work. Focus in the ethics principles involved in the study of human biology. **Pre-Requisites: BIOL 103-O, Co-Req BIOL 303-O**

BIOL 304-O Human Biology II
3 Credits

The course integrates the functions and organization of all the systems of the human body. Emphasizes all the

metabolic and physiological processes of the human body.
Pre-Requisites: BIOL 303-O, Co-Req: BIOL 304-OL

BIOL 304-OL Human Biology II Laboratory
1 Credit

The laboratory experiments were designed to enable students to learn human anatomy and physiology in a whole manner. Each laboratory experience and other activities were chosen to encourage students to think for themselves and to take initiative and be responsible in their work. The course focuses in the ethics principles related to the study of human biology. **Pre-Requisites: BIOL 303-O, Co-Req: BIOL 304-O**

COHE 201-O Healthcare Systems, Policy, & Politics
3 Credits

In this course, students study U.S. health care systems, health policies, health reforms and implications to infrastructure and in the delivery of health care services. Emphasis is placed on the Affordable Care Act, access to health care; health advocacy, and child health policy. **Pre-Requisite: None**

COHE 202-O Health Law and Ethics
3 Credits

This course explores ethical and legal issues in health care and emphasizes frameworks for conducting ethical analysis (on what basis can you say that a course of action is or is not ethical), the analysis of ethical dilemmas (how do you think about situations in which different ethical precepts collide), and how to deal on a day-to-day basis with the practical issues of ethical behavior. Students will explore compliance, confidentiality, and best practices in health care services; HIPAA and protected health information (PHI); an introduction to electronic medical records, and reporting child abuse and human trafficking. **Pre-Requisite: None**

COHE 203-O Introduction to Public & Community Health
3 Credits

This course covers the foundations of public health and education, including factors associated to health and disease. Emphasis includes the current technical issues and practical obstacles facing community health practitioners and policymakers; surveillance systems and their contribution to disease control; the continuum of individual and community health prevention to intervention in controlling disease, and the role and interactions of biological, psychological, social, and

systems factors that affect public health. **Pre-Requisite:** **COHE 201-O**

COHE 204-O Infectious Disease Epidemiology & Prevention

3 Credits

In this course, students will explore infectious disease epidemiology and its relation to health prevention for control and eradication of diseases from a public health framework. Emphasis is on terminology and application of epidemiology and demography; sources and usage of population data; types of epidemiologic studies; risk assessment; sources of bias in population studies; screening; classification of disease; methods of disease control; outbreak investigation; immunization, and reportable diseases. **Pre-Requisites:** **COHE 203-O, MATH 111-O, BIOL 103-O, BIOL 303-O, HESC 201-O**

COHE 205-O Health Disparities

3 Credits

This course explores health care disparities and related topics such as minority health; access to health services; health disparities research; strategies for Hispanic health engagement and empowerment; community-based participatory research; educational efforts and health equity, and methods for benchmarking progress in minority health. **Pre-Requisites:** **COHE 203-O, HESC 201-O**

COHE 206-O Community Health Work, Education, & Communications

3 Credits

In this course, students will review major health education campaigns and develop professional health education skills and frameworks for addressing community assets; patient referrals and resources; community health advocacy; health communication barriers with Hispanic clients; adolescent health programs; best practices for talking with children and teens about health and sexuality; work with children and families with special needs; community outreach; communication techniques; social marketing, and culturally sensitive health issues. **Pre-Requisites:** **COHE 202-O, COHE 203-O**

COHE 207-O Community Health Education

3 Credits

This course introduces students to public health and education theories that are applied in health promotion activities, including culturally relevant techniques and strategies. Emphasis is placed on education design; effective health communications; identification and

evaluation of local, state, and national resources; community health field methods such as group facilitation; organizing and conducting peer-to-peer dialogues and Spanish language "Platicas"; computer applications in health education, and Hispanic health literacy and strategies for behavioral change at group and community level. **Pre-Requisites:** **COHE 202-O, COHE 205-O**

COHE 301-O Community Health Leadership

3 Credits

This course will prepare students for the management and communication challenges of the health education workplace and development of future leadership styles. Emphasis includes creative problem solving; emotional intelligence; diversity; customer service; negotiation; interpersonal communication; conflict resolution; leadership, and Influence. **Pre-Requisite:** **None**

COHE 302-O Behavioral Health Education

3 Credits

This course is designed to introduce students to behavioral health as a foundation for program work and development. Emphasis spans mental health; depression, substance abuse, including drugs, alcohol, and tobacco; the role of culture and mental health; relapse prevention programs; domestic and other types of violence; mandatory domestic violence reporting; psychosocial, environmental, and biological influences on violent behaviors; youth gangs and intervention programs; interactions among drugs, alcohol, and violence; family violence; violence prevention and intervention strategies; infant and early childhood mental health issues, and human stress management. **Pre-Requisites:** **COHE 207-O, PSYC 123-O**

COHE 303-O Trauma & Psychological Perspectives

4 Credits

In this course, students examine the fundamentals of trauma and psychological perspectives in the field of public health, health education and wellness promotion. Emphasis is placed on epidemiology; Post-Traumatic Stress Disorder (PTSD) and other anxiety disorders; emotional and psychological trauma; eating disorders; Dissociative Disorders (DD), as well as the interrelationship between culture and victims of violence.

Pre-Requisites: **COHE 302-O**

COHE 304-O Instructional Methods & Culturally Competent Community Health Work

3 Credits

This course will offer students an overview of different types of instructional methods and cultural values, beliefs, and issues that enhance and affect diverse group communications. Emphasis is placed on culturally competent client-centered health education communications; assessment of needs, assets, and available resources for effective interventions and health program design; the relationship that culture plays in the health and wellness of individuals and the community in which they live; fundamentals for developing linguistically and culturally relevant health education and prevention information and programs, and identification and evaluation of Internet resources that intersect with culture and health. **Pre-Requisites:** COHE 207-O

COHE 305-O Assessment, Planning, and Evaluation of Health Programs

3 Credits

In this course, students are exposed to the substantive and procedural aspects of assessment, planning, and evaluation for health program management. Emphasis is placed on community needs assessment; barriers, beliefs, and values impacting health programs in Hispanic populations; development, coordination, and evaluation of health programs; collection and analysis of data for research, reporting, and continuous learning; PDCA; adaptation of health education programs for Hispanic Populations, and evaluation of program outcomes in minority communities. **Pre-Requisites:** COHE 304-O, HESC 201-O

COHE 306-O Human Sexuality & Reproductive Health

4 Credits

In this course, students will examine the fundamentals of sexuality and reproductive health within the context of public health as a key area in the protection of individual health status as well as society. The course will focus on basic aspects of human sexuality, reproductive health, teen pregnancy, violence and abuse in humans, maternal mortality related to pregnancy and childbirth, contraception and abortion, sexually transmitted infections (STI), cancer associated with STI, and prostitution and pornography. The course also highlights the role of the community specialist and his value as a leader in the search, together with communities, of solutions on important aspects of sexuality and

reproductive health. **Pre-Requisites:** COHE 204-O, BIOL 103-O, BIOL 303-O, PSYC 123-O

COHE 401-O Health Promotion and Disease Prevention I
3 Credits

This course exposes students to the contributions of health promotion to a healthy life; the different models and approaches to health promotion; the relationship between health promotion and health education; explore the Ethical and political values in health promotion; strategies and interventions to promote health and different settings in which health promotion interventions take place towards positive health and well-being. **Pre-Requisites:** COHE 306-O

COHE 402-O Health Promotion and Disease Prevention II
3 Credits

This course is the continuation of the Health Promotion and Disease Prevention I course. In this course, we will study the process of diseases and chronic diseases that prevail in communities. We will also use the different models, approaches to health promotion as well as the strategies and interventions learned previously and we will use them as tools in health education activities for the prevention of diseases in communities. **Pre-Requisite:** COHE 401-O

COHE 403-O Community Health Research Design
3 Credits

Community health professionals require a sophisticated understanding of research design in public health. The Community Health Research Design course is focused on integration knowledge through the development of an individual student research project proposal spanning design, data collection, analysis, and reporting components. **Pre-Requisite:** COHE-402-O

COHE 404-O Field Experience - Community Health Services
6 Credits

In this integrative field course, students will apply a research design to a community health professional experience within a community agency such as a health services agency, a nonprofit agency, or a health care setting, concluding with a community health research report. **Pre-Requisite:** COHE 403-O

**COHE 405-O Certified Health Education Specialist (CHES)
Certification Preparation**

3 Credits

The Certified Health Education Specialist Certification Preparation course offers students a general review the NCHEC Framework: Seven Areas of Responsibility to guide them in preparing for the CHES certification examination.

Pre-Requisite: COHE 403-O

CHEM 224-O Fundamentals of General Chemistry

3 Credits

The course promotes the study of the principles of General Chemistry, designed for students of health-related professions. It includes topics about measurement systems, matter and energy, chemical reactions, atomic and molecular structure, chemical bonds, radioactivity, stoichiometry, solutions, liquid and gas states, chemical equilibrium, chemical kinetics, acids, and bases, organic chemistry, biochemistry, and their application to physiological functions. **Co-Req: CHEM 224-OL**

**CHEM 224-OL Fundamentals of General Chemistry
Laboratory**

1 Credits

The knowledge of this course contribute to that the student interprets and verifies the main definitions, laws and theories of the general chemistry (matter, properties of matter, elements and compounds, chemical reactions, solutions, acids and bases, and radiations) and in its practical application. Also to dominate the main experimental techniques and the works with the measuring instruments and to develop experimental skills that allows him to acquire new knowledge. **Co-Requisite: CHEM 224-O**

COIS 102-O Logical Concepts and Problem Solving

3 Credits

This course is a practical and theoretical introduction to basic programming principles. It includes development of logic, as well as the use of flow charts, structured flow charts and pseudo codes. Students will become familiar with editing and compiling programs. **Pre-Requisite: COMP 110-O**

COIS 240-O Object Oriented Programming

3 Credits

This course is a study of the fundamental concepts and principles of the programming language C++. The course emphasizes on an individualized style of modular

programming, using object programming. It also promotes the use of extensions coding, modules and applications for the development competitive skills for today's employment market. This is an 8 week course. Requires computer laboratory. **Pre-Requisite: COIS 110-O**

COIS 250-O Systems Analysis and Design

3 Credits

This course covers the study of the systems development cycle, with emphasis on the present system documentation, using the classic tools and techniques as well as the structured ones. It includes the use of these resources for describing the processes, the data flow, data structures, forms design for data gathering, and reports. It also discusses data gathering activities and information, progress reports, and the transition from analysis to design. **Pre-Requisite: COIS 102-O**

**COIS 360-O Telecommunications and Computer
Network**

3 Credits

This course, Telecommunications and Computer networks (COIS 360), is designed for individuals in the field of computer information systems. The course describes the historical evolution, fundamental concepts, terms and latest state of the art computer network products available for management information. Emphasis will be given in the areas of planning, design and implement computer networks. The course also describes the most common networking topologies and protocols. It also studies, by comparison the most common design and implementation strategies like centralized versus distributed processing while studying the theory and technical concepts of computer networks internal structure and devices. **Pre-Requisite: COMP 110-O**

**COIS 420-O Introduction to Databases and SQL
Programming**

3 Credits

Course dealing with the development of programs that create, organize and manage databases. Its main focus is on the functions of development, modifying and accessing structures within the relational database. The course will include topics like data modeling, the normalization process, the creation of Entity-Relationships Diagrams, the application of databases structures as well and the relational and hierarchical database models. The course will be complemented with the development of applications in SQL (Structure Query Language), and

PL/SQL (Procedural Language/SQL). **Pre-Requisite:** COIS 240-O, COIS 250-O

COIS 421-O SQL Advance Programming

3 Credits

Specialty elective course designed to provide a working introduction to PL/SQL programming within the Oracle RDBMS environment. The course begins with basic relational database concepts, the SQL query language, PL/SQL language fundamentals of block program structure, variables, cursors, and exceptions, object creation, including indexes, tables, triggers, and stored procedures, Oracle Forms, Oracle-supplied packages, SQL*Loader, SQL developer, dynamic SQL, and object technology. Students will work with real-life projects. Requires laboratory. **Pre-Requisite: None**

COIS 422-O Database Applications Development

3 Credits

Major elective course in which the student will built all the necessary expertise on handling the critical tasks of planning and develop database backup and recovery strategies. Students will be exposed to exercises using backup methodologies based on business requirements in a typical enterprise. Utilize multiple strategies to recover from different types of failures. Also gain hands-on experiences learning a series of steps for the optimization and performance of the DBMS. Learn how to implement tuning techniques for improving data access and storage, support, practice diagnosing and resolving a variety of performance problems using real-world scenarios. **Pre-Requisite: COIS 421-O**

COIS 423-O Database Administration

3 Credits

Students will study and practice program development techniques related to a database management system. Emphasis will be given to functions such as: table files, append from, copy to, sort, report generator, queries, and many others. Object-linking embedding (OLE) and dynamic data exchange (DDE) are included as essential parts of the course in terms of knowledge integration with topics presented in other courses. Requires laboratory. **Pre-Requisite: None**

COIS 432-O Computer Network Design

3 Credits

A specialized course concentrating in Local Area Network design (LAN). The student will be able to learn the necessary methodologies for the design of computer-

based networks using wired, wireless, and optical media. They will learn to use application software in a simulation environment in order to prevent errors and time loss before a computer network is installed. This specialized course will provide the students a knowledge-base for diagnosing and anticipating problems in order to avoid the increase of costs and production loss in businesses. **Pre-Requisite: COIS 250-O, COIS 360-O**

COIS 433-O Wireless Local Area Network

3 Credits

Course that describes the technologies involved in all aspects within a local computer network and how wireless personal devices interact and communicate with each other. Using a practical approach, students will learn wireless devices communicate with wireless local area networks through protocols and access points. Students will also learn how to design, install and troubleshoot a wireless LAN network on a safe-base environment applying rules in the program to manage a device. **Pre-Requisite: COIS 360-O**

COIS 434-O Application Development for Mobile Devices

3 Credits

In this course the student begins in the application programming environment for mobile devices. The student will be able to develop applications to access information and data from any mobile device connected to the LAN while in motion. The course provides the skills for the distribution of mobile applications on both fronts, the creation of services and devices. It also provides guidance on the complex networks of acronyms and standards on which the data are disseminated. The student will learn how to diagnose and detect security flaws and emerging technologies. **Pre-Requisite: COIS 360-O**

COIS 435-O Computer Networks Administration and Data Communications

3 Credits

This course concentrates on the fundamental elements for the management of computer networks and data communication. The course emphasizes skills development for the design and management of modern communication networks, using digital technology. It also utilizes the ideal platforms for data transfer and telecommunications, oriented to the client-server services and to the management of applications for the information highway. **Pre-Requisite: None**

COIS 435-O Managing Computer Networks and Data Communications

3 Credits

Study all the essential elements for network management computers and data communication. The course emphasizes the development of skills in the design and administration of modern communication networks, with the use of digital technology. The transfer platforms data and telecommunications, service-oriented client – server are also used. It will cover the different applications to manipulate the information highway and the impact of these elements in our society. Requires use of Laboratory.

Pre-Requisites: COIS 250-O, COIS 360-O

COIS 450-O Information Systems Development Project

3 Credits

The course (COIS 450), Systems Development Project, guides the students to the application of concepts, principles and practices for developing a software system. Training for this process is achieved using software project management methodologies with integrated team dynamics in search of a solution to a simulated real-world information technology need. The course complements the study of real-life information technology need exercises and teamwork interactions simulating real world development teams, including presentations of development progress. This course requires laboratory exercises. **Pre-Requisites:** COIS 420-O

COMM 510-O Contemporary Theories of Communication

3 Credits

This course studies the concepts, models, communication epistemology, and history of the theories of communication as foundations of contemporary communication. It also emphasizes the application of contemporary paradigms of theories of communication to the communication disciplines. The course includes the study of principal theories of communication in organizations and the analysis of applications of the theories in multimedia journalism and/or public relations.

Pre-Requisite: None

COMM 511-O Development and Management of Media Enterprises

3 Credits

The course provides students with the theoretical frameworks on management of mass media; organization and behavior of firms (newspapers, magazines, radio, television, film, music); industry analysis and market

structure, and business challenges presented by the Internet and media convergence. **Pre-Requisites:** None

COMM 512-O Legal and Ethics Aspects of Communications

3 Credits

The course addresses the relationship between law, ethics and communications in the context of the Information Society. The course presents the theory about information rights, intellectual property and communication rights.

Pre-Requisites: None

COMM 515-O Research Methods in Communication

3 Credits

Study of scientific knowledge and research and its applications to communication sciences. Analysis and application of different types of communication research. Development of the theoretical framework for communication research. Study of the quantitative and qualitative communication research, and the design and implementation of these techniques. Analysis of the concepts of universe, reliability and representativeness of the samples. Application of different methodologies to conduct communications research. Design of communication research projects, principally in multimedia journalism and public relations. **Pre-Requisites:** None

COMM 517-O Communications and New Media

3 Credits

This course studies the concepts of globalization, information society, and postindustrial society as the social context of new media. It also studies the Internet as a new media of communication. It also presents postmodernism as the cultural logic of the information of society, its postindustrial expression, globalization, and the new media. This course also discusses the history of the society of information and the turn of the 20th century as the catalyst of new media and its cultural and social logistics. **Pre-Requisites:** None

COMM 520-O Advanced Writing for the Media

3 Credits

The course studies the particularities of traditional and new media and its impact on writing for the media. The new demands in the digital era are also explored. The course studies the structures for news, press releases, speeches and messages for social networking. It also

discusses the changes in the distribution and consumption of these products by the audience. **Pre-Requisites: None**

COMM 540-O Journalism and Globalization

3 Credits

This course provides graduate students with the knowledge and appropriate skills to work as journalists in a globalized world. Explore this profession in global context; analyze the impact of the digital era in news and the distribution for domestic and international audiences. **Pre-Requisite: COMM 510-O**

COMM 541-O Fundamentals of Multimedia Journalism

3 Credits

The course studies the main theories about the origins of multimedia journalism, concepts and current purposes. Also studies practical concepts of multimedia journalism; converge of text and audiovisual in cyber platforms; the essential elements of ethics and law; the evolution of journalism; and the different journalistic genres applied to multimedia. **Pre-Requisites: COMM 510-O**

COMM 542-O Journalistic Writing for Multimedia

3 Credits

This course provides students with the skills to write with fluency, conciseness and coherence that require multimedia. Also studies research concepts for multimedia, development of contacts and sources, and the techniques for the emerging social media. **Pre-Requisite: COMM 510-O**

COMM 543-O Journalism and Public Affairs

3 Credits

This course studies the media coverage of public policies of the government of Maryland, and the United States government. Also studies the Constitutions of both countries and their political and democratic development. Explore the current challenges for the reporter who covers government sources. **Pre-Requisites: None**

COMM 544-O Environment, Conflict and Crisis News

3 Credits

The course studies the practical concepts for media coverage of crisis, such as environmental disasters, strikes, war, terrorism, conflict and similar situations. Also studies the ways in which journalists should report this type of news with responsibility and ethics; the limitations and security measures. **Pre-Requisites: None**

COMM 545-O Investigative Journalism for Multimedia

3 Credits

The course studies the theoretical and practical concepts of investigative journalism and its history and evolution in the digital world. Studies this journalistic genre in traditional media and multimedia; and the skills required for the performance of this product. **Pre-Requisites: COMM 510-O, COMM 515-O, COMM 520-O**

COMM 550-O Project

3 Credits

In the course, students will conduct a research project according to their specialty area (Multimedia Journalism or Public Relations), integrating the knowledge, abilities and skills acquired at the University during his graduate studies. **Pre-Requisites: All COMM Courses**

COMP 110-O Computer and Software

3 Credits

This course focuses on the study, application and handling of basic computer concepts, and productivity tools. The course integrates the analysis and evaluation of different application software. The main focus of the course is the creation and editing of documents and effective presentation of programs such as: search engine, internet, electronic mail, word processor, and presentations. The course includes computer laboratory experiences and practice in the use of the Internet. **Pre-Requisite: None**

CRJU 500-O Foundations, Practice and Changes in the Administration of the Criminal Justice System

3 Credits

This course has been designed to familiarize the student with the theoretical, judicial and practical notions, that permeate the administrative process in the criminal justice system in the United States in general and the state of Florida in particular. The course will provide the student with knowledge so they may not only execute in a practical, concrete and immediate manner, but analyze and resolve the varied and complex problematic situations. **Pre-Requisite: MSPA 500-O**

CRJU 505-O Fundamental Principles of Law

3 Credits

The course deals with issues in the area of procedural and constitutional law with an emphasis on civil rights, criminal law, criminal procedure, and evidence rules and regulations in the United States. It promotes the study of the sources of positive law, the Constitution, and the

United States Supreme Court judicial decisions and precedents. **Pre-Requisite: None**

CRJU 510-O Law and Society

3 Credits

This course covers the relationships between rights and society; focusing on the theoretical vision and investigative approach to the legal system. The course encompasses legislative procedural and substantive aspects, as well as the influence of social factors in the legal development of society while analyzing the relationship between law and social change. **Pre-Requisite: None**

CRJU 520-O Philosophy of Punishment

3 Credits

This course analyzes the meaning of punishment throughout history, theories on its origin, its cultural relativity and dominant philosophies. Students will view the different arguments proposed historically to defend or reject punishment, social protection and rehabilitation, among others, and the alternative methods of punishment. **Pre-Requisite: MSPA 500-O**

CRJU 540-O The Police and Judicial Changes

3 Credits

Study of the dynamics surrounding the role of the police and the operational changes caused by the legislative and judicial interpretations. It will analyze the effect this has on the criminal investigation and the way they affect the rights of people who commit crimes. **Pre-Requisite: None**

CRJU 565-O Seminar: Program Design and Evaluation in the Criminal Justice System

3 Credits

This course will familiarize the students with the different aspects of the evaluation of administrative programs. General knowledge of the theory and practical applications of analytical problems as it relates to programmatic areas in the criminal justice system. The students will study and design evaluation instruments for law enforcement, corrections and criminal justice programs. Study, analyze and develop operational strategies towards objectives, decision making and problem solving. **Pre-Requisite: MSPA 530-O**

CRJU 575-O Rehabilitation and Delinquent Treatment Programs

3 Credits

This course is a seminar that analyzes the philosophy of correctional and public policy emphasizing the rehabilitation of the delinquents and the constitutional dispositions and the law. The course examines different programs of treatment and rehabilitation that are offered in the correctional institutions that comply with the correctional public policy. Furthermore, the seminar will evaluate the models that are implemented in the United States and other jurisdictions to include the following: expectations, findings and developmental scientific foundations such as tendencies and reform. Encourage the participation of persons associated with the correctional system, including ex-convicts and convicts, ex-employees and current employees in addition to experts in the correctional field through guest speakers, seminars, symposiums and conferences. **Pre-Requisite: CRJU 500-O**

CRJU 600-O Seminar: Crime, Victims and Society

3 Credits

This is a seminar that focuses on the analysis of the responsibility of the state with its obligation to protect the life and property of its citizens. It focuses on the study of the possibility that the state will compensate, although partially, a victim of a crime, for damages suffered as a result of such criminal act. The study of the restitution doctrine, as part of sentencing and as an alternative and rehabilitative technique is integrated. Comparative analysis of the efforts in other jurisdictions in respect to the aforementioned is integrated in the course. **Pre-Requisite: CRJU 500-O**

CRJU 630-O Organizations and Administrative Techniques of the Police System

3 Credits

Study of the organization and administration of the police in the United States of America. Emphasis is given to organizational theory, administrative techniques, procedures, and police administration and supervision programs. It analyzes alternative police models, strategies, programs, institutional approaches, roles, perspectives and interagency police relations. **Pre-Requisite: None**

CRJU 635-O Mental Health and the Law

3 Credits

This course will provide a critical analysis of the association between the criminal justice system and mental health. It is based on current Florida legal standards and its application in the administrative

processes of justice. It will then proceed to the analysis of the scientific theory utilized in the investigation of human behavior and the development of psychopathology. The student will develop a project in which he or she will implement the acquired knowledge in the course. **Pre-Requisites: MSPA 520-O, CRJU 500-O**

CRJU 640-O Addiction: Legal and Psycho-Social Aspects
3 Credits

Study of the medical-legal of drug addiction and alcohol abuse problem. It includes an analysis of the legal structure, from the framework of state and federal laws in the use and abuse of drugs and alcohol. It also discusses legislation, treatment and prevention programs. **Pre-Requisite: CRJU 500-O**

CRJU 645-O Comparative Correctional Systems
3 Credits

This course offers a comparative study of the correctional systems in Europe, United States, Canada, Latin America and Japan. The study will be conducted from the perspectives of historical development, administrative organization, correctional, philosophy, human resources, and treatment and rehabilitation programs for inmates. It will also consider the administrative and judicial mechanism to protect the rights of inmates as well as post-prison assistance. Trends and prison reforms in each country will also be reviewed. **Pre-Requisite: None**

CRJU 650-O Special Laws in Criminal Justice Administration
3 Credits

This course analyzes the special laws that regulate our legal conduct, including the basis for their creation, enforcement techniques, and jurisprudence. Students will discuss laws dealing with weapons, confiscations, explosives, controlled substances, elections, transit vehicles, and mortgage institutions, among others. **Pre-Requisite: CRJU 500-O**

CRJU 715-O Seminar: Special Situations in the Administration of Correctional Programs
3 Credits

This seminary course analyses the correctional system from different perspectives, including psycho-social, ecological, legal and disciplinary, among others. The course examines the subculture of the prison, how it forms, its developments and the effect in the inmates and the correctional personnel, producing a unique social system. This seminar covers subjects, situations,

controversies and particular problems of the correctional system, in addition to the examination of scientific findings, dynamics, as well as decisions or legislation of impact with respect to the correctional system. It examines and weights the different factors that incline to the good development of the programs as well as those that prevent their development. This course welcomes the participation of key players within the correctional system, including inmates and ex-inmates, as well as officers and employees of the correctional system, besides experts in the correctional field, through guest speakers, conferences and symposiums. **Pre-Requisites: MSPA 510-O and 24 credits**

CRJU 730-O Criminality, Crime Control and Criminal Justice
3 Credits

The course focuses on a critical analysis of criminality from a sociological perspective. Particular emphasis is placed on the relation of public policy, criminal justice administration: decision-making, program implementation, and evaluation of police participation. Students discuss different strategies and models to reduce crime as well as the new tendencies towards privatization of criminal justice services. **Pre-Requisite: None**

ECON 121-O Introduction to Economics: Microeconomics
3 Credits

This course will present the study of economics from a practical viewpoint so the student will be able to make knowledgeable and informed business decisions. Some of the aspects to be covered are: the definition of economics, supply and demand theory, price equilibrium, and elasticity of demand, application to market analysis, market structures, definitions, and its effect on consumers. **Pre-Requisite: None**

ECON 122-O Introduction to Economics: Macroeconomics
3 Credits

This course will present the study of economics from a practical viewpoint so the student will be able to make knowledgeable and informed business decisions. Some of the aspects to be covered are introduction to macroeconomics aggregate supply and demand, limitations of national income accounting, classic supply and demand theory, banking and money supply, federal budget and public policy, and its application to market analysis. **Pre-Requisite: ECON 121-O**

**ECON 123-O Economics Principles & Problems
(Compendium)**

3 Credits

The course covers economic theories, value and price, distribution, protection and the role of government in the economy. **Pre-Requisite: SOSC 111-O**

ECON 519-O Managerial Economics

3 Credits

This is a course with a general approach in economics. The student will learn basic principles and theories of macro and microeconomic analysis. Some microeconomics aspects to be covered are: scarcity and marginal decisions, supply and demand, production costs and market analysis. Some macroeconomics aspects to be covered are: national income accounting, inflation, and unemployment. **Pre-Requisite: STAT 555-O or equivalent**

EDUC 106-O Introduction to Education

3 Credits

EDUC 106 offers a general vision of education, and its social commitment in the academic and professional fields. This course introduces an objective study/analysis of the state educational system, and the role of teachers and students as the most important elements in education. The course is designed to provide future teachers or aspiring teachers, a comprehensive vision of education past and present. **Pre-Requisite: None**

EDUC 123-O Creative Expression in Children

3 Credits

Study of the methods, materials and techniques used in developing basic skills in music, art, and drama in young children. Processes used to initiate singing, basic rhythms, use of simple instruments, arts and crafts materials, use of puppets, improvisation and dramatization according to child's age development and maturity from Pre-school to sixth grade elementary school, will be practiced. Discussion of ways used to motivate free expression and creativity in infants and young children. Development of appreciation of fine arts in young children. **Pre-Requisite: EDUC 171-O**

EDUC 135-O Philosophical, Sociological and Psychological Foundations in Education

3 Credits

The course Philosophical Foundations of Education is an introductory course to the knowledge, skills and professional competencies required for the educational

preparation of teachers in the State of Florida at all levels. It is geared towards the study of the psychological, sociological and philosophical principles in the field of education. **Pre-Requisite: None**

EDUC 171-O Human Growth and Development

3 Credits

The course is an analysis based on studies on educational psychology processes of growth and development. It studies the changes that occur in the human being from the moment of conception throughout the stages of development. It includes the study of physical, motor, sensory, language, psychosocial, emotional, moral, creative, critical thinking and problem solving developments. It studies the psychological changes that happen as a result of the different stages of development, hereditary and environmental factors that motivate the conduct of the human beings. **Pre-Requisite: None**

EDUC 173-O Educational Psychology

3 Credits

This course offers a general vision of the learning concepts and intelligence and its relation with the human development. It examines the theoretical aspects related to learning and intelligence, and the different learning styles. It discusses the recently introduced theory of the multiple intelligences and the emotional intelligence and its relation with the teacher's role. **Pre-Requisite: EDUC 171-O**

EDUC 202-O Technology and Materials for Teaching and Learning

3 Credits

This course covers the application of the Instructional Design and principles of Instructional Technology in the preparation of teaching materials, as well as the study of communication processes, perception and learning, and its relationship with the design of materials. The student will learn about the importance of planning and designing instruction, and in the selection, usage, and evaluation of resources. In addition, he/she will learn diverse techniques for making instructional materials, different technical sources and how to integrate them to the instructional experience. The concept of technological innovation and its importance in the development of effective educational experiences for students, will be discussed and analyzed. **Pre-Requisite: EDUC 214-O**

EDUC 206-O Methodology for Teaching Reading and Writing in English to Spanish Speakers I

3 Credits

This course provides an overview of the theory and practice of essential aspects in the teaching of English reading and writing to Spanish-speaking students in kindergarten through third grade. The course examines the similarities and differences between teaching reading and writing in the native language and in English. Furthermore, the course focuses on different research-based methods to teach reading and writing in English to Spanish-speaking students. Special attention is given to understanding the impact of the five crucial components for effective reading in English: phonemic awareness, phonics, reading fluency (including oral reading), vocabulary development, and reading comprehension. The course addresses proven second language acquisition reading and writing practices and strategies that support transferability of skills from the native language to the English language by using cognates, transfer strategies, diagnosis of readiness skills, and correction of reading difficulties. **Pre-Requisite: None**

EDUC 207-O Methodology for Teaching, Reading and Writing in English to Spanish Speakers II
3 Credits

This course focuses on the study and analysis of the theory and practice used in the teaching of writing in Spanish and in English in grades kindergarten to third. The development of research-based teaching techniques and strategies used to teach the English writing process to young Spanish speaking children are emphasized. The effective use of the Six Traits for Effective Writing is studied: Idea Development, Text Organization, Voice, Word Choice, Sentence Fluency, and Conventions (grammar, punctuation, spelling) Special attention is given to the diagnosis and alternative corrective methods of English writing difficulties Spanish speaking students confront in school. **Pre-Requisite: EDUC 206-O**

EDUC 213-O Curriculum and Teaching Mathematics and Sciences in Elementary School
3 Credits

Critical curriculum study of science and mathematics and their application in the pre-kinder and kinder to third grade levels. We will examine the curriculum designs of other areas and their correspondence to the growth and development of children between the ages of three to eight. We will use different techniques, methods, and educational strategies with a constructive focus. We will integrate technology in this educational process. **Pre-Requisites: MATH 112-O, SCIE 112-O**

EDUC 214-O Computers Systems in Education
3 Credits

The course EDUC 214 covers the study of the origins, development, basic concepts, description, and implications of usage, role, and computer applications from a pedagogical perspective. The application of computers and their impact in our lives as well as the usage of didactic materials designed by computers. Computers and computer laboratory are used for basic practice by using different software, word processor and other computer applications. **Pre-Requisites: None**

EDUC 215-O Curriculum and Teaching Social Studies in Elementary School
3 Credits

This course is designed to prepare the future teacher in the content and skills of the Social Studies program for grades Pre-K through Sixth of the elementary school. It examines in depth themes related to the development of mental processes, intellectual skills, processes used for conflict resolution, and the development of ideal attitudes and values expected of a future teacher. Standards of the Social Studies Program of the Department of Public Education are used as base reference. **Pre-Requisites: HUMA 102-O, EDUC 135-O**

EDUC 216-O Teaching Reading: Diagnosis and Correction of Reading Difficulties
3 Credits

Theoretical and practical study of essential aspects needed to teach reading in elementary grades, kinder to sixth grade. Conceptual models and official documents of the Department of Education of Florida are studied and analyzed. Examination and discussion of selected literature appropriate for the grades included in this course. The course includes clinical experiences, skills development, laboratory, study of diagnosis and correction techniques, and practice in the use of different methods of teaching reading in grades kinder to sixth. **Pre-Requisites: EDUC 135-O, EDUC 173-O**

EDUC 217-O Teaching Writing: Diagnosis and Correction of Writing Difficulties
3 Credits

This course will prepare future teachers in fourth through sixth grades in basic techniques needed to develop writing skills, required to write a persuasive, an expository or a narrative essay among other literary styles. The course will combine theory and practice and will develop in the future teacher the skills they will need to teach writing, not only

as a process, but also as a tool to develop cognitive thinking, creativity and language. This course will prepare future teachers with theories and strategies to develop effective writing skills in grades fourth through sixth. Throughout this course, participants will examine and practice methods of assessing writing. Samples of children's writing will be examined to determine their understanding about writing. **Pre-Requisites: EDUC 135-O, EDUC 173-O**

EDUC 276-O Classroom Management

3 Credits

The purpose of this course is to promote the observation, the practice and the analysis of a teacher's daily routine. The development of skills on group management and students interventions on different behavioral demonstrations will be included. Classroom management strategies and techniques on its physical aspect in the same way as alternatives for group control and behavior modification will be studied. Teacher's role within a group of students and methods and strategies available to organize the teaching process will be discussed. Official documents required in the profession should be managed. The course includes ethical and moral concepts over the teacher's career. Inclusion and cultural diversity basic principles will be discussed. **Pre-Requisites: EDUC 135-O, EDUC 202-O**

EDUC 302-O Principles of Health, Hygiene, and Nutrition

3 Credits

In this course, the student will be able to learn and apply different aspects of health education, utilizing the theory, the practice and research as methods of learning, with the purpose of increasing their intellectual and professionalism as active member of a responsible society. **Pre-Requisites: EDUC 171-O, EDUC 173-O**

EDUC 322-O Development, Language and Correction of Speech Difficulties

3 Credits

This course provides the future teacher with the information related to language development of preschool and elementary school children. Different stages in linguistic development and theories related to why children show signs of language and speech difficulties in preschool and elementary school are studied and analyzed. The emphasis of this course is in identification and referral of children with these difficulties so they may receive the special services they

will need to improve their oral communication. **Pre-Requisite: EDUC 173-O**

EDUC 323-O Literature for Children

3 Credits

This course offers the future teacher the most essential material related to children's literature within the elementary school program, in a theoretical and practical form. The integration of literature to the elementary curriculum develops the child's intellectual and creative abilities. The future teacher must be knowledgeable of a selected and ample amount of children's literature and the methodology that will enable him/her to inculcate the enjoyment of good literature in children, and also inspire them to create their own. In this course books, works of art, fiction, folklore, poetry and games will be studied. Creativity will be stimulated. **Pre-Requisite: EDUC 217-O**

EDUC 333-O Teaching Mathematics in Secondary Schools

3 Credits

Professional course required for all students majoring in the teaching of mathematics in the Secondary School. Themes to be discussed are objectives, curriculum, standards, and study units of studies as well as the theoretical framework that sustains the teaching of mathematics in the secondary school. **Pre-Requisites: TESL 222-O, 15 credits in major courses**

EDUC 355-O Evaluation and Measurement of the Educational Process

3 Credits

This course consists of theory and practice of educational testing and measurement foundations. This course introduces the relationship existing between goals and evaluation, teaches different goal taxonomies (cognitive, affective, psychomotor), and helps the teacher candidate understand the importance of effective learning that promotes the development of higher thinking processes in learners. It covers the latest evaluation concepts such as: criterion-based tests, performance tests, standardized tests, assessment, and so on. Besides the traditional concepts of preparation, administration, grading, and interpretation of tests, it also includes a session of basic statistics concepts. Finally, it includes evaluation procedures needed to complete the future teacher's preparation, and emphasizes the use of the computer as an educational tool. **Pre-Requisites: EDUC 173-O, EDUC 363-O**

EDUC 356-O Foundations of Research in Education

1 Credit

This course integrates academic and professional knowledge obtained throughout the program of study for future elementary education teachers. Innovations in education, methods, techniques, and strategies in elementary education are discussed and analyzed. The Florida Educator Accomplished Practices are the main focus of this seminar. A review of sociological, philosophical and psychological foundations of education will be included in this course as a preparation for the teacher's certification examination in the state of Florida.

Pre-Requisites: All EDUC Courses, Passing score on the FL Basic General Knowledge Test.

EDUC 363-O Curriculum Planning and Design

3 Credits

This course introduces the foundations and principles that rule out the design, evaluation, implementation and revision of curriculum. It includes content per subject and instructional strategies. It also covers needs assessment, planning and processes to design, revise, and innovate the curriculum from pre-K to the secondary level.

Pre-Requisites: EDUC 173-O, EDUC 135-O

EDUC 436-O Pedagogical Integration Seminar

3 Credits

This course integrates academic and professional knowledge obtained throughout the course of study of future teachers. Innovations in education, methods, techniques and strategies are discussed and analyzed. A review of sociological, philosophical and psychological foundations of education will be included in this course as a preparation for the Professional Education Sub-Test, which is one of the assessments required for the Florida Teacher Certification.

Pre-Requisite: All courses except EDUC 447-O, EDUC 356-O.

EDUC 447-O Practicum

3 Credits

The course of Education 447 is one of a functional and practical nature in which the student teacher experiences a clinical period of the majority of the pedagogical aspects of the educational process. For the student teacher, it is a period of challenge. It is at this time that the student will determine finally his/her capacity to become a good teacher.

Pre-Requisites: All courses. A passing score on the FL Basic General Knowledge test.

EDUC 501-O Principles and Development of Curriculum in ESOL

3 Credits

Study of the foundations, principles and practices of curriculum development. Read and discuss the process of school curriculum design and development. Analysis of the problems related to curriculum content in contemporary education and its application to the local educational system.

Pre-Requisite: None

EDUC 512-O Innovations and Education in English as a Second Language

3 Credits

This module describes the future and contemporary tendencies, models, curriculum paradigms, philosophy and educational changes. School reform concepts and recent findings on educational research are included.

Pre-Requisite: None

EDUC 550-O Second Language Acquisition

3 Credits

The course Second Language Acquisition focuses on the process of acquiring a second language. Issues in second language acquisition are discussed based on recent relevant research. It also includes aspects of the research process in second language acquisition. A critical examination of the theories and models in second language acquisition and their implications for second language teaching, are the fundamental bases of the course.

Pre-Requisite: None

EDUC 551-O Reading Processes in a Second Language Setting

3 Credits

This course provides an overview of learning to read and reading comprehension as cognitive processes. Emphasis is given to the application of brain-based learning theory and the Whole Language Approach as a foundation for developing decoding skills. Likewise, metacognitive and schema theories are examined as the basis for developing reading comprehension skills. Implications for the teaching of ESL reading are also discussed.

Pre-Requisite: EDUC 550-O

EDUC 553-O ESOL Curriculum and Materials Development

3 Credits

The course, ESOL Curriculum and Materials Development, is divided into three basic areas: (a) a general overview of

how the brain functions regarding major learning aspects and how the brain uses its intricate and delicate cell structure to learn and effect change, especially in the acquisition of language; (b) an overview of learning theories as they relate to language learning, beginning with skinner"s behaviorism, cognitive psychology, and ending with brain-based learning; and (c) Implications for the ESL teacher in the design of effective second language learning and the use of appropriate second language learning strategies and techniques. **Pre-Requisite: None**

EDUC 555-O Development of Communication Skills in English

3 Credits

The course is based on theoretical and practical aspects of developing communication skills for English Language Learners (ELLs) who have different cultural and linguistic needs. The course will focus on the identification of activities that promote second language acquisition, emphasizing the active language skills of listening comprehension, speaking, reading and writing. The first part of the course will be dedicated to the discussion of the different acquisition models and their implications and applications in the classroom. The second part of the course will focus on the identification, selection and development of instructional materials and strategies for teaching academic skills. The role of the teacher and the social cultural aspects will also be addressed. Some of the areas to be studied will be aural discrimination, attention and recall; vocabulary development, oral production and pronunciation; the mechanics and process of writing. **Pre-Requisite: None**

EDUC 564-O Applied Linguistics for ESOL Teachers

3 Credits

"Applied Linguistics for ESL Teachers" provides the student with a substantial knowledge of the key concepts, issues, insights, and pedagogical implications of research in some of the issues related to ESL and applied linguistics. Some of the applied linguistic issues that will be examined in the course include: the use of phonics and phonemic awareness in learning to read, factors in teaching oral communication in social contexts, irregularities in English orthography and implications for teaching, word formation in vocabulary development and writing, and language proficiency in ESL. **Pre-Requisite: None**

EDUC 566-O Methods of Teaching English as a Second Language

3 Credits

This course examines the various methods for teaching a second language, as well as its principles and foundations for teaching a second language. It reviews the evaluation, design and adaptation of materials for teaching English as a Second Language. Fundamental to this course is the critical analysis of current research on methods for teaching a second language to impact a second language.

Pre-Requisite: None

EDUC 567-O Cross-Cultural Communication and Understanding

3 Credits

In this course, the sociological and cultural issues that impact the development and implementation of both, curriculum and teaching of students will be examined. Emphasis is given to the examination of the results of research conducted in this area. Best practices to embrace multiculturalism and its role in student achievement are integrated in the course. **Pre-Requisite: None**

EDUC 569-O Testing and Evaluation of ESOL

3 Credits

The course examines the types, techniques, and procedures of assessing language learning in the classroom. It provides the students with the theoretical and practical tools to design effective Classroom – Based ESL Assessment (ESL/CBA) based on language learning theories, standards, and assessment principles. This course also examines issues related to the assessment of English Language Learners (ELLs). Course content includes: definitions of terms, foundations and principles of CBA, ESL CBA strategies and techniques, design of rubrics, use of learning taxonomies to design assessment instruments, design of CBA systems, administration and interpretation of ESL CBA results, and the design of an assessment – result based remedial lesson plan. **Pre-Requisite: None**

EDUC 576-O Introduction to School Counseling

3 Credits

This course offers a professional orientation to the counseling field including history, and philosophy, functions, roles, and operations of a comprehensive school counseling program in elementary and secondary schools. It will also introduce the students to theories, approaches and stages of process to meet national and state standards accordingly. **Pre-Requisite: None**

EDUC 578-O Introduction to Social and Community Services

(3 credits)

This course is designed to introduce students to the theory, practice and research of guidance to enhance their knowledge and ability to work with adults in a collaborative partnership using a holistic and developmental approach in defining, clarifying and achieving academic, personal and career goals. This course's framework emphasizes development of professional skills and understanding of interpersonal relations, needs of specific individuals, groups, or communities, learning principles, and multicultural aspects of advising. Students will be able to recognize the impact of varied institutional programs and services can exert upon learning and development. Students will also identify professional development resources to stay current, knowledgeable and well-trained to fulfill responsibilities and performance expectations of an advisor.

Pre-Requisite: None

EDUC 580-O Education Psychology: Human Growth and Development

3 Credits

This course covers the study of theories of human development as seen from different perspectives: biological, social, philosophical, historical, and psychological dimensions. It examines the physical, moral, sexual, social, and cognitive development of individuals from conception through the aging process. Human development is analyzed as a continuous process throughout a lifespan, given special attention to the social and cultural contents in which human development occurs. **Pre-Requisite: None**

EDUC 581-O Introduction to Guidance and Counseling Services

3 Credits

This course offers a professional orientation to the counseling field including history, and philosophy, work setting, and roles. It will also introduce the students to theories, approaches and stages of the guidance and counseling process requirements in Texas. **Pre-Requisite: None**

EDUC 582-O Legal and Ethical Issues in Counseling

3 Credits

This course covers the study of the ethical and legal issues related to the guidance and counseling process. Emphasis

is given to legal dispositions related to the services, procedures and the rights of individuals involved in the process. The course also provides the student with knowledge of ethical codes and standards for the counseling profession.

Pre-Requisite: EDUC 581-O

EDUC 583-O Instruments and Techniques for Diagnosis and Assessment

3 Credits

This course will study the historical perspectives concerning instruments, and techniques used for assessment, measurement, and evaluation. The purpose of assessment, its characteristics, and the different kinds of standardized test, scales, observations and obtained records will be analyzed and discussed in class. A greater emphasis is going to be placed on the discussion of the administration, scoring, and interpretation of aptitude, achievement, intelligence and personality assessments.

Pre-Requisites: EDUC 582-O

EDUC 584-O Individual Counseling Techniques

3 Credits

Study and analysis of theories, techniques, and the process of Guidance and Counseling will be explored. This course includes the study and discussion on establishing effective counseling relationship with clients. Interaction processes, ethical and professional issues. This course is designed to prepare students as a school counselor. Introduce didactic experiences of participation and observation. **Pre-Requisites: EDUC 588-O**

EDUC 585-O Group Counseling Techniques

3 Credits

Study and analysis of theories, techniques and process of group work in Counseling and Guidance, focused in the understanding and development of leadership and facilitation skills. This course includes the study and discussion of group formation stages, purposes and goals of counseling and guidance in group work, participants and leadership roles, interaction processes, group dynamics, ethical legal and professional issues and applications for diversity and multicultural populations. This course works on the student preparation as a leader and group work facilitator. Introduce didactic experiences of participation, observation and practice that stimulate student's consideration of ethical and legal issues in group work development and dynamics. **Pre-Requisites: EDUC 588-O**

EDUC 585-0 Group Counseling Techniques (3 credits)

This course includes the study and analysis of theories, techniques, and procedures used in group guidance and counseling. Discussion of topics such as purposes and goals of group guidance and counseling, advantages/disadvantages, selection of members, roles, and leadership as well as the different phases of the process.

Pre-Requisite: EDUC 588-0 Instruments and Techniques for Measurement and Assessment

EDUC 586-0 Career Counseling

3 Credits

This course studies and analyzes theories and principles of career counseling. The course combines theory and practice applied to career counseling. It includes knowledge and use of different occupational resources such as PROICC, standardized tests (Aptitude, Personality, and Occupational Interests) as well as other resources in a Career Center. **Pre-Requisites: None**

EDUC 601-0 Educational Research Methods

3 Credits

This course is a study of educational research methodologies and theories in ESOL. It places emphasis on practical applications of research findings and teacher conducted research to classroom practice. **Pre-Requisite: 18 credits from specialization courses.**

EDUC 603-0 Lecture Seminar

3 Credits

This course is oriented towards the research of literature on a topic related to the student's major. The student submits a written work for the primary purpose of promoting the analysis of a problem based on the review of recent literature and research. Students enrolled in this course have up to one semester to complete the written research application project. If they do not complete course requirements in one semester, they will need to enroll in the continuation of the seminar for 2 credits. **Pre-Requisite: EDUC 601-0**

EDUC 604-0 Knowledge Integration Seminar in ESOL

3 Credits

This course has been designed to provide students the opportunity to revise, examine, and critically discussed knowledge integration related with the educational system in the United States of America. Emphasis will be given to the evolution of the educational system during the end of the 20th Century and the beginning of the 21st

Century. Challenges and concerns affecting today's educational system and their impact to academic achievement will be the prime focus for classroom discussions. **Pre-Requisites: All core and specialization courses. Student must be a graduation candidate.**

**EDUC 638-0 Internship in School Counseling
3 Credits**

This course requires the student to complete 600 hours over 15 weeks in a public or private school setting and under the supervision of a certified professional counselor with at least 240 hours of direct service. This course emphasizes the development and application of the skills and techniques of counseling in the personal/social, academic and career areas. The student will be exposed to the legal and ethical issues inherent in the provision of services and the counseling process. **Pre-Requisite: EDUC 635-0**

EDUC 587 Counseling and Guidance Internship

3 Credits

The Internship experience in counseling and guidance gathers within its experiential supervised component in a counseling center (Internship), and its academic component (Seminar), an opportunity in which the Prospect Counselor is able to apply within a real scenario his/her knowledge, skills, theories approaches and professional counseling competencies developed through the introductory counseling educative period. Through the experiential and practice component of this Internship, the student is required to complete a minimum of 300 hours of supervised practice offering professional counseling services to real clients. Through the Academic component or Internship Seminar, the experiential internship experience will be complemented with case discussion sessions, procedures analysis, complementary study of counseling themes that help student performance at internship, techniques updates and information actualization in themes or issues found by students in case management. All documentation and Internship reports will be collected and updated in the Seminar. **Pre-Requisites: All Specialization Courses**

**EDUC 588-0 Instruments and Techniques for
Measurement and Assessment (3 credits)**

This course includes the study of instruments and techniques used for assessment, measurement, and evaluation. The purpose, characteristics, types of standardized tests, scale observations, and records will

be analyzed. Emphasis is placed on aptitude, achievement, intelligence, and personality tests. Ethical test use, diversity and inclusion issues are also addressed in serving student populations.

Pre-Requisite: EDUC 578-0 Introduction to Social and Community Services.

EDUC 589-O Consultation in Schools

3 Credits

This course examines the theories and modalities of consultation as they apply to the school community. It explores the role of the counselor as a consultant, change agent, and participant within the school community with particular attention to the collaboration with parents, teachers, and other school personnel. Multicultural and ethical issues in consultation are discussed. **Pre-**

Requisites: All Specialization Courses

EDUC 600-O Educational Research Methods

3 Credits

This course covers the study of the nature of scientific investigation and its application to the educational research process. It also studies the different research methods and its investigative phases. Emphasis will be given to the proposal design: problem identification, hypothesis or guide questions, literature review and the investigation methodology. The student will present a research proposal at the end of the course. **Pre-Requisite:**

All Specialization Courses

EDUC 601-O Educational Research Methods

3 Credits

This course covers the study of the nature of scientific investigation and its application to the educational research process. It also studies the different research methods and its investigative phases. Emphasis will be given to the proposal design: problem identification, hypothesis or guide questions, literature review and the investigation methodology. The student will present a research proposal at the end of the course. **Pre-Requisites: 18 credits from specialization courses.**

EDUC 603-O Lecture Seminar

3 Credits

This course is oriented towards the research of literature on a topic related to the student's major. The student submits a written work for the primary purpose of promoting the analysis of a problem based on the review of recent literature and research. Students enrolled in this

course have up to one semester to complete the written research application project. If they do not complete course requirements in one semester, they will need to enroll in the continuation of the seminar for 2 credits. **Pre-Requisite: EDUC 600-O or EDUC 601-O**

EDUC 604-O Knowledge Integration Seminar in ESOL

3 Credits

This course has been designed to provide students the opportunity to revise, examine, and critically discuss knowledge integration related to the educational system in the United States. It includes the culmination of the proposed project from the previous course, EDUC 600. Emphasis will be given to the evolution of the educational system during the end of the twentieth century and the beginning of the twenty-first century. Challenges and concerns affecting today's educational system and their impact on academic achievement will be the prime focus for discussions. **Pre-Requisites: All core and specialization courses. Student must be a graduation candidate.**

EDUC 617-O ESOL Seminar in a School Setting (Internship)

3 Credits

Research course where students will apply theoretical knowledge as well as practical skills acquired through out the program of study and their experience in the educational scene in order to improve it. The student will develop a project that contributes to the development or enhancement of the educational system at the classroom, school or district level. Students will understand that Action Research is the practice by which educators attempt to study their problems scientifically in order to guide, correct, and evaluate their decisions and actions. This course requires 12 weeks of internship in a school setting. All students are required to complete 20 hours per week for 12 weeks for a total of 240 hours. **Pre-Requisite: EDUC 600-O and passing score in the FL Basic General Knowledge Test.**

EDUC 618-O Counseling for Children and Adolescents

3 Credits

This course examines the theories and techniques of counseling children and adolescents in the school community, private practice, or an agency. It includes the study of counseling children and adolescents with special needs, such as emotional and/or behavioral problems, learning disabilities, cultural and/or linguistically diversity, and physical challenges. This course also studies other specific issues, such as the use and abuse of controlled substances, school violence, dropouts, child abuse, self-

esteem, grief and loss, and divorce. Pre-Requisite: EDUC 634-O

EDUC 630-O Statistics for Educational Research

3 Credits

This course identifies proper research approaches for the solution of educational problems. Descriptive and inferential statistics aspects are studied, with emphasis in the interpretation of data. It includes basic notions of probability and studies topics on estimation, sampling, tests of hypotheses, expert criteria, and notions of experimental design. **Pre-Requisite: EDUC 601-O**

EDUC 632-O Multicultural Counseling

3 Credits

This course is designed to analyze theories and models related to multicultural counseling. Emphasis is given to the development of cultural identity as a component of diversity. The course also examines knowledge and research related to social factors such as gender, race, ethnicity, prejudice, culture, sexual orientation, physical impairments, mental disabilities, and intellectual ability that impact diverse populations. Counseling interventions for specific populations will be discussed. **Pre-requisites: EDUC 579-O**

EDUC 633-O Counseling Theories

3 Credits

This course examines major theoretical systems of counseling and psychotherapy such as psychoanalysis, existential, humanistic, person-centered, gestalt, reality therapy, behaviorism, cognitive/behavior, feminist, and family systems. This course includes the study of how different theories suggest interventions and techniques to help people change, the characteristics of an effective counselor and the development of the therapeutic relationship. It provides an overview of the impact of technology on the counseling process and its practice and application. **Pre-requisites: EDUC 579-O**

EDUC 636-O Development and Management of Counseling Programs

3 Credits

This course focuses on the philosophy of counseling/advising in comprehensive models and their development and management. Students demonstrate professional knowledge, skills and competencies needed to promote academic excellence in addition, the personal, emotional, and social development of their target population. The course emphasizes the critical role of

counselors or advisors in different settings such as K-12 school, higher education, business or community organizations. Students will analyze strategies to develop, plan, implement and assess programs in education, community, and businesses based on their major. Students will also examine different models and strategies of case management, with emphasis on basic interviewing and assessment strategies, case conceptualization, effective intervention strategies, and effective documentation. This course will familiarize students with content areas: terminology, process, leadership, assessment of culture and structure within a variety of systems. **Pre-Requisite: EDUC 635-O**

EDUC 637-O Practicum in School Counseling (3 credits)

This course is a formative experience in school counseling. It consists of 100 hours of a practicum experience under the supervision of a certified school counselor in an elementary or secondary school over a minimum of 10 weeks. The practicum must include 40 direct service hours in individual and group interventions and other counselor related activities. It focuses on the development competencies in individual and group counseling in the school interacting with parents, students, and school personnel.

Pre-Requisite: EDUC 636-O

EDUC 638-O Internship in School Counseling (3 credits)

This course requires the student to complete 600 hours over 15 weeks in a public or private school setting and under the supervision of a certified professional counselor with at least 240 hours of direct service. This course emphasizes the development and application of the skills and techniques of counseling in the personal/social, academic and career areas. The student will be exposed to the legal and ethical issues inherent in the provision of services and the counseling process.

Pre-Requisite: All Core Professional and Major Courses

EDUC 640-O Consultation Skills and Management 3 credits

Consultation, an indirect service delivery model, is addressed as a provision of effective school counseling services. This course will provide a conceptual understanding of consultation theory and research, and its application in educational settings. Understandings of the client, consultee, and organizational/systems context will be explored as critical variables that influence the implementation and outcomes of consultation. Students will demonstrate the knowledge and skills necessary to

deliver effective consultation services in educational, health, and community settings.

EDUC 645-O Counseling in Schools

3 Credits

This course is an introduction to the school counseling profession. The course evaluates professional aspects including history, organizational structure, and multicultural standards, legal and Ethical aspects. It explores the School Counseling s profession with emphasis in the cognitive, emotional, affective, academic, and social areas in children and adolescents. **Pre-Requisites: EDUC 634-O**

EDUC 646-O Development and Management of Schools Counseling Programs

3 Credits

This course uses the American School Counselor Association (ASCA) national model to introduce the philosophy of school counseling programs in grades K-12. It promotes that all students demonstrate professionalism, as well as the knowledge and skills needed to promote academic excellence and the personal, emotional, and social development of students in grades K-12. Furthermore, the course emphasizes the education, planning, and assessment of the school counseling programs as critical components of the education system. **Pre-Requisite: EDUC 645-O**

EDUC 648-O Practicum in School Guidance and Counseling

3 Credits

This course is a formative experience in school counseling as required by the Council of Accreditation of Counseling and Related Educational Programs (CACREP). It consists of 600 hours of a practicum experience, including direct service hours in individual and group interventions. It focuses on the development competencies in individual and group counseling in a school setting, interacting with parents, students, and school personnel. **Pre-Requisite: All education courses.**

EDUC 649-O Counseling in Students Affairs in Higher Education

3 Credits

The purpose of this course is to provide the future guidance counselor information regarding his/her role in order to prepare to work, as a counselor, in higher education institutions. By studying different theoretical perspectives, students will analyze the philosophy and

organizational culture of higher education institutions and their impact on counseling programs. The characteristics of traditional and non-traditional students, the services provided by student services offices, and the connection of the counselor to the mission and institutional goals, will also be part of the topics that will be discussed. **Pre-Requisites: EDUC 581-O**

EDUC 650-O Counseling for Students Development in Higher Education

3 Credits

The purpose of the course is to provide prospective counselors with the strategies needed for the development and well-being of university students. During this course, students will have the opportunity to discuss resources needed for the transition from school to a higher education institution, as well as legal and ethical issues pertaining to university students. Topics discussed include students 'cultural diversity, their adaptation to college life, their needs, and student retention. **Pre-Requisite: EDUC 649-O**

EDUC 651-O Counseling for Prevention in Higher Education: The College Students Experiences

3 Credits

This course includes the study and analysis of concepts related to the prevention and promotion of mental health, the use of models of prevention and risk factors and protection for the creation of prevention programs within the campus. Also includes the prevention strategies and science-based prevention services, as well as the strategic plan and the prevention program evaluation. **Pre-Requisite: EDUC 649-O**

EDUC 652-O Practicum in Counseling in Students Affairs in Higher Education

3 Credits

This course is a formative experience in student's affair counseling as required by the Council of Accreditation of Counseling and Related Educational Programs (CRACREP) for a 100 hours practicum experience. The practicum must include a direct service hour in individual and group interventions. It focuses on the development of competencies in individual and group counseling in higher education institution interacting with faculty, students and student service personnel. **Pre-Requisites: All specialization courses**

ENGL 050-O Preparatory English

4 Credits

This course is designed for low and high beginning level students (Level 1 – Starting). It is a conversational and grammar-based immersion course designed to prepare undergraduate students in the four domains for language proficiency: listening, speaking, reading, and writing. Students will develop and/or strengthen skills for effective paragraph construction and basic expository essay writing skills. The main focus of the course is to prepare students for English academic course work in their selected degree program. This course requires the use of E-Lab and/or the language lab guided by the course English faculty. **Pre-Requisites: None**

ENGL 102-O Basic English

4 Credits

This course is designed for low and basic level students (Level 2 – Emerging). The primary goal of this course is to teach communicative competence, which is the ability to communicate in English according to the situation, purpose, and student's roles in the communication process at the professional level. Emphasis is placed on the development of aural (listening)/oral (speaking) comprehension skills. Basic reading and writing (productive) skills are also emphasized. In both cases, assignments and activities are in the context of topics from the degree programs the students represent. It systematically reviews basic structures and vocabulary with a substantial amount of listening, speaking, reading, and writing practice, which leads students to a more confident ownership of the language. Reconstruction of relevant life and job activities will be used in a constructivist approach to learning.

ENGL 115-O College Reading and Writing I

4 Credits

This course is designed for English intermediate level students (Level 4 – Developing). It is the first-year English course. The course focuses on paragraph construction conventions, content, organization, voice, vocabulary, fluency, grammar, and syntax of college technical writing at the intermediate proficiency level. The course is intended to prepare students for the demand of college writing focusing on reading critically and incorporating source material in student's own writing. Research projects will be developed through the responsible use of technology by individual, pair, and group work activities. All course assignments and activities are delivered in the context of topics from the degree programs the students represent. This course requires the use of E-Lab and/or

the language lab guided by the course English faculty. **Pre-Requisite: None**

ENGL 116-O College Reading and Writing II

4 Credits

This course is designed for English high intermediate level students (Level 4 – Expanding). It is the continuation of the first-year English course, ENGL 115-O. An integrated language arts (listening, speaking, reading, and writing) approach is used in the course. The course focuses on strengthening paragraph construction conventions, content, organization, voice, vocabulary, fluency, grammar, and syntax of college technical writing at the high intermediate proficiency level. The course is intended to increase skills on professional college reading and writing skills aligned to the student's degree program. Research projects will be developed through the responsible use of technology by individual, pair, and group work. This course requires the use of E-Lab and/or the language lab guided by the course English faculty. **Pre-Requisite: ENGL 115-O**

ENGL 154-O Intermediate Basic English II

3 Credits

This course is designed for intermediate level students of English as a Second Language who scored from 215 to 240 points (Level 5 – Bridging) on the English section of the Accuplacer Placement Test. Priority will be placed on reading and writing skills. Language Lab is required. **Pre-Requisite: None**

ENGL 221-O Reading and Composition I

3 Credits

This course is a continuation of First Year English. The course integrates the development of oral skills, reading, and writing. The student will learn appropriate expression in English and understand spoken English. Grammar and writing practice are integrated in the daily lessons. **Pre-Requisite: ENGL 154-O**

ENGL 222-O Reading and Composition II

3 Credits

This course is a continuation of First Year English. The course integrates the development of oral skills, reading, and writing. The student will learn appropriate expression in English and understand spoken English. Grammar and writing practice is integrated in the daily lessons. **Pre-Requisites: ENGL 154-O, ENGL 221-O**

ENGL 331-O Public Speaking

4 Credits

This course is designed for English advanced level students (Level 5 – Bridging). An integrated language art (listening, speaking, reading, and writing) approach is used in the course. This course is divided in two required parts: intensive practice in writing different types of essays, monographs, reports, and conducting research in their degree program. The course also focuses in strengthening public speaking skills. English language and professional etiquette for public speaking is studied and practiced in weekly classes. All course assignments and activities are delivered in the context of topics from the degree programs the students represent. This course requires the use of E-Lab and/or the language lab guided by the course English faculty. **Pre-Requisites: ENGL 115-O, ENGL116-O**

ENGL 500-O Graduate Preparatory English

3 Credits

This course is a conversational/grammar preparatory course designed to prepare graduate-level students for the accelerated curriculum offered at the School for Professional Studies Discipline-Based dual language program.

ENGL 501-O Academic Writing for Graduate Students I

3 Credits

This is an application English writing class that focuses on strengthening writing skills. It examines and provides strategies for strengthening skills in writing for specific audiences, writing conventions and development of topic sentences and supporting details. It also provides emphasis on strategies for developing supporting ideas. It stresses the development of basic reading and writing skills for graduate students. It systematically reviews basic structures and vocabulary with a great deal of written practice, which lead the student to a more confident ownership of the language. Grammar and editing skills review is incorporated in the course. Therefore, the goal of this course is to provide student writers with information that will allow them to demonstrate a command of academic writing skills in English. This course requires the use of E-Lab or the Language Lab. **Pre-Requisite: English placement test scores.**

ENGL 502-O Academic Writing for Graduate Students II

3 Credits

ENGL 502-O is a writing course designed to improve the academic writing skills of graduate students. The course focuses on organization and development of ideas and on

paraphrasing and summarizing of reading selections to develop fluency, accuracy, and maturity in academic writing. A discussion of basic research skills and plagiarism is included. Editing skills are stressed, and a basic grammar review is provided. In addition, a variety of common rhetorical modes are analyzed, including narratives, informational reports, summaries, reviews, and argumentative essays. Students are placed into this course based on their English language placement results. It is an advanced English course that uses an integrated language approach. Role-play, oral presentations, and other verbal and writing techniques are used. All phases of the English writing process are discussed and practiced. Students concentrate on writing good topic sentences, supporting details and paragraph unity. This course requires the use of E-Lab or the Language Lab. **Pre-Requisite: English placement test scores.**

ENTR 360-O Entrepreneurship

3 Credits

This course provides students the opportunity to apply the basic concepts of small business management using a teambuilding approach with participants from different disciplines. Different aspects for the small business management will be studied, emphasizing the formulation of solutions applicable to specific entrepreneurship problems. The preparation of a group project including strategies and tactics for the development and administration of a small business will be required. **Pre-Requisites: COMP 110-O, MARK 133-O, MANA 210-O, FINA 202-O**

ENTR 401-O Entrepreneurial Opportunities

3 Credits

This course provides students with the concepts, techniques, and skills necessary to identify the principal approaches for recognizing entrepreneurship opportunities. Techniques for conducting feasibility studies and developing the new business, as well as strategies for the growth of the firm, will be presented. In addition, personal characteristics essential to becoming a successful entrepreneur will be discussed. **Pre-Requisites: MANA 316-O, ENTR 360-O, COMP 110-O**

ENTR 402-O Small and Midsize Business Design and Organizational Structure

3 Credits

The course, Organizational and Structural Design for SMEs (Small and Medium Enterprises) prepares students for the startup operation of a small business. This course will

examine the challenges of the small business owner and how to overcome them. It will present important business administration theories, including Human Resources. In addition, students in this course will develop a Business Plan to design and describe the business strategies to develop the organizations structure. **Pre-Requisites: ENTR 401-O**

ENTR 403-O E-Commerce and Network Design

3 Credits

The course provides the principles and practices for the development of e-commerce and the network systems design. It will familiarize the student with the basic concepts of the types of e-commerce applications. **Pre-Requisites: ENTR 360-O**

ENTR 404-O Business Development in Biotechnology and Health Industry

3 Credits

This course is aimed towards providing technical and scientific knowledge needed to establish businesses in different areas of biotechnology and the health industry. It analyzes the different areas of biotechnology business management as well as strategic planning and management of permits and licenses related to the healthcare industry. The course also covers the stages and methods of product development, quality control, and safety. Processes related to drug approval and marketing of biotechnology and health industry products will also be studied. **Pre-Requisites: ENTR 360-O**

ESCS 578-O Introduction to Social and Community Services

3 credits

This course is designed to introduce students to the theory, practice and research of guidance to enhance their knowledge and ability to work with adults in a collaborative partnership using a holistic and developmental approach in defining, clarifying and achieving academic, personal and career goals. This course's framework emphasizes development of professional skills and understanding of interpersonal relations, needs of specific individuals, groups, or communities, learning principles, and multicultural aspects of advising. Students will be able to recognize the impact of varied institutional programs and services can exert upon learning and development. Students will also identify professional development resources to stay current, knowledgeable and well-trained to fulfill responsibilities and performance expectations of an advisor.

Pre-Requisite: None

ESCS 601-O Service Delivery Systems and Access

3 credits

This course is designed to expose the student to the management and access of community resources within a human services approach. The purpose of the course is to provide students with knowledge of the effective use and access of community resources to advise individuals in their needs and life goals. Through the course, students will become familiar with current resources and intervention technologies.

Pre-Requisite: None

ESCS 602-O Student Affairs

3 credits

This course is designed to familiarize students with student affairs. These course main topics are: nature and purpose of student affairs, its functions, and how they can be managed, coordinated, and integrated as part of the broad educational purposes of the institution. It also examines institutional strategies for organizing, staffing, and funding the extensive array of programs, services, and facilities designed to facilitate learning and development of students. This course takes a broad look at the essential work of student affairs and its administration, examining the work through historic, theoretical, research, resource, ethical, legal, and best practice perspectives.

Pre-Requisite: None

ESCS 652-O Practicum in Social and Community Services

3 credits

This practicum is designed to expose students to their professional role by completing a minimum total of 100 hours in the field. Students will assume responsibilities in educational, profit, non-profit, and government settings; identifying community resources and services to assist adults advance in their education, professional development and career planning. The course instructor will conduct at least one visit for each student enrolled the Practicum course.

Pre-Requisite: Core professional and major courses

ETEG 500-O Applied Instructional Design Models

3 Credits

Introduction to theories of instructional design. Study of models used for instructional design such as: Mayer's SOI

model (1999); Merrill's Principles of Instruction (1983, 1994) CDT; Jonnassen (1999), CLEs; Jerrold Kemp (2001), Gerlach & Ely (1980), ASSURE ISD model, which incorporates Robert Gagné's events of instruction (1985), ADDIE model (1975), model of Dick & Carey (1990), among others. Included is an analysis, needs assessment, performance improvement, systematic design of materials, teaching strategies, and formative and summative evaluation of instructional materials. **Pre-Requisite: None**

ETEG 501-O Fundamental of Educational Technology

3 Credits

Theoretical foundations, concepts and perspectives of the educational technology field. Analysis from a professional stand point and perspective of the development of educational technology, terminology, definitions, roles of the educational technologist and practice of the profession, according to the latest technological means of the 21st century. Research, case studies and readings related to this field is encouraged. **Pre-Requisite: None**

ETEG 502-O Fundamentals of Distance Education

3 Credits

This course covers the theoretical and philosophical foundations of distance education. Students will have the opportunity to evaluate emerging technologies that may be integrated into distance education, as well as teaching and learning techniques for the modality. Emphasis will be given to the Internet, video clips, video conference, and the selection and impact of the most appropriate medium and technologies for both synchronous and asynchronous distance education instruction. **Pre-Requisite: None**

ETEG 503-O Curriculum Design and Instructional Design for the Adult Learner

3 Credits

Introduction to the principles of curriculum design for an adult population, and the development of innovative strategies to be used with this population will be discussed. The use of evaluation methodology and the selection of constructivism strategies for instructional design and implementation will be emphasized. **Pre-Requisite: None**

ETEG 504-O Technology Immersions

3 Credits

This course covers the study and integration of the most commonly used software and applications for instructional design purposes. New technological trends

and open source multimedia, WEB 2.0, the new world of virtual reality, and its contributions to corporate organizational environments in cultural, educational, and social environments will be studied. **Pre-Requisite: None**

ETEL 600-O E-Learning, Technology Integration and Multimedia

3 Credits

An introduction to the effective use of instructional media and strategies of E-Learning that promote new knowledge and skills with the support of communication network technology. Major topics include the planning and production of an instructional module that integrates some of the different technologies that exist in the market, available multimedia (video, audio, CDs, DVDs, among others), as a tool for learning, and evaluation of the effectiveness of instructional media in the learning processes. **Pre-Requisite: None**

ETEL 601-O Development of Corporate Virtual Training

3 Credits

This course emphasized in the design, concepts and strategic planning required for developing corporate training related to personnel professional development. Students will analyze the philosophic concepts that guide the different virtual training models. It emphasizes the selection, adaptation and practices of different methods, strategies and activities used today online in organizations. **Pre-Requisite: None**

ETEL 602-O Distance Education Assessment

3 Credits

Study of the different strategies (e-mail, blog, forums, wikis) and stages of the assessment process that allow to collect, interpret and use data related to the learning experiences of students. The purpose of this systematic process is to develop student understanding and meaningful learning essential to enable him/her to develop their own knowledge, based on this educational experience. This analysis allows improving the next learning experiences. The course presents techniques of electronic assessment like e-portfolio, e-rubrics, e-forms, etc., as well as a variety of open technologies that serves as a support to online courses. **Pre-Requisite: None**

ETEL 603-O E-Learning and Virtual Learning Communities

3 Credits

Study of different technological means used in distance education, such as video clips, audio, blogs, wikis, and

open source, among others; both synchronous and asynchronous to promote learning in the new virtual environments of the 21st century. Critical analysis of the principles and theories which e-learning is based on, research on various media, and effective teaching techniques in the implementation of educational offerings or training in virtual communities. **Pre-Requisite: None**

ETEL 604-O Applied Instructional Design for the Corporate World
3 Credits

An introduction to the theories and foundations of the systematic design of instruction by integrating learning strategies focused on the corporate world. Among the topics, the analysis of improving employee performance, through a systematic design of materials, learning experiences and integrating technologies for the adult learner, implementation of the ID, need of assessment, and formative and summative evaluations will be covered. **Pre-Requisite: None**

ETEL 605-O Applied Instructional Designs for the Academy
3 Credits

Introduction theories and Foundations of Systematic Instructional Design based on Dick and Carey Model, focusing on the strategies for the adult learner integrating constructivism. The student will design a unit using the nine steps of this model in the instructional design including the strategies for an adult population. **Pre-Requisites: All Core courses**

ETEL 640-O Technological Project and Instructional Design II
3 Credits

Supervised individual research project and critical analysis of the models of instructional design for synchronous or asynchronous virtual learning environments. Comprehensive study of the development and implementation of models that exist for distance or e-learning instruction. Analysis of interoperability and development of learning tools and content management in the implementation of e-learning, with the aim of developing an innovative technological solution to a problem of practical nature in general educational meaning or distance education instruction. It is expected that at the end of the project the student is able to present significant contributions that support the management of instructional designers to improve the performance of

students in e-learning, virtual learning, and education communities at distance. **Pre-Requisites: All ETEL Courses**

ETRE 525-O Applied Research
3 Credits

Analysis of research methods and the integration of methodology to the real World. Compilation, organization and analysis of data for decision making process and for the implementation of changes. Immersion of statistical data with the research methodology. Development of measurement and evaluation instruments, as well as, researcher's responsibility in relation to federal regulations of the Institutional Review Board (IRB). The course devotes special emphasis to the research skills as applied in this particular field of knowledge but maintaining the tradition of the scientific investigation. Application of results to the distance learning discipline. **Pre-Requisites: All Core courses**

FINA 202-O Business Finance
3 Credits

This course covers a study of fundamental principles of business finance and its analysis, planning and control functions. Some of the areas studied are: effects of income tax, basic financial ratio earnings, capital budgeting and cost of capital, interest factor in financial decisions, working capital, and assets management. **Pre-Requisites: ACCO 112-O**

FINA 410-O Corporate Finance
3 Credits

This course studies concepts and problems of corporate finance for decision making under certainty and uncertainty. The course examines working capital management and asset pricing and portfolio theories. Topics include capital budgeting, corporate valuation and restructuring, capital structure relevance, and dividend policy. **Pre-Requisites: ACCO 302-O and FINA 202-O**

FINA 503-O Managerial Finance
3 Credits

This course presents the Management decisions related to investments, financing and dividends policy. Assets value, risk, debt policy, and financing alternative. Financial planning to increase the investor's investments value. Administration of short-term assets and debt management. Aspects of international financial management. **Pre-Requisite: ACCO 500-O**

FORS 730-O Forensic Investigation and Identification Techniques

3 Credits

The course will be aimed at exposing the student to an experience through which he will have the opportunity to learn and apply relevant techniques to the forensic investigation process. The student will learn technical techniques to identify and analyze the physical evidence collected at the crime scene. The student will also be exposed to the application of the theory learned in relation to the elements of the crime scene and physical evidence such as hair, fiber and paint, drugs, fire and explosives, fingerprints, deoxyribonucleic acid (DNA), firearms and questioned documents examination. **Pre-Requisites: None**

FORS 735-O Investigation and Gathering Evidence at Crime Scene

3 Credits

The course focuses on responsibilities of criminal investigators to protect the crime scene, process and gather the evidence, and any other duty necessary in order to achieve the successful criminal prosecution of the accused. **Pre-Requisites: None**

FORS 740-O Forensic Photography and Drawing

3 Credits

The course deals with photography techniques control of negatives, design and assembly of an index of photographs, among other topics. In reference to drawings, the student will be taught how to develop seven forensic drawing techniques in which a crime scene will be illustrated with measurements and distance between objects. **Pre-Requisites: None**

FORS 745-O Expert Witness in Court

3 Credits

This course covers the theoretical and practical aspects of the role of the forensic expert witness in court, as part of the investigator's important role in helping to solve crime. The student will learn and apply techniques about presenting expert witness testimony and how to respond to questions posed by the defense and the prosecutor. The student will be exposed to the application of the theory learned during a final court exercise. **Pre-Requisites: None**

FORS 750-O Examination of Questioned Documents

3 Credits

The course focuses on the study and analysis of the theory and principles of handwriting and hand printing, duplicating processes, paper manufacture and fiber analysis, studies of different types of paper and methods of examining questionable documents. **Pre-Requisites: None**

FORS 760-O Forensic Psychology

3 Credits

The course deals with theory and practical strategies which will clarify the psychological conditions involved in the different judicial and mediation processes. It includes instruction of how to organize information in a scientific manner, thus validating the results from investigations performed within the juridical scenario. **Pre-Requisites: None**

FORS 762-O Cellular and Molecular Biology Applied to Forensic Sciences

3 Credits

Study of Biology applied to forensic molecular process and in body fluids.

FORS 763-O Techniques on Handling Samples

3 Credits

This course deals with the application of the extraction techniques of field forensic samples, as well as the management, custody and preservation for the use as expert testimony in court. **Pre-Requisites: None**

GEOG 202-O Human Geography

3 Credits

The course is an introduction to human and cultural geography. Topics include variation of human traits, diversity of economic systems, and population changes. **Pre-Requisite: SOSC 111-O**

GEOG 205-O Global Communities and Resources: A Critical Analysis

3 Credits

This course is an introduction to the main problems that hit the contemporary world, identifying the common factors of the diverse situations. The physical geography of the world-wide scene and the theories that explain the organization of it are described. The main cultural groups and the diverse forms of organization of humanity will also be discussed. In addition, the main problems considered by humanity these days will also be taught concluding the course by making an analysis of the implications of what

these problems represent for the economic and political development of our country. **Pre-Requisites: SOSC 111-O**

HESC 201-O Statistics for Health Sciences

3 Credits

This course is an introduction to the concepts, procedures, and technology used in the statistical analysis of data in health services. Emphasis is placed on statistical terminology; bio-statistical methods and applications; descriptive statistics; evaluating confidence and probability; and inferential techniques for analysis and interpretation of health sciences data. **Pre-Requisites: MATH 111-O, BIOL 103-O, BIOL 303-O**

HESC 360-O Statistic Applied to Health Sciences

3 Credits

This course provides a discussion of statistical methods applied to the health professions. Emphasis is given to qualitative and quantitative statistical analyses applied to clinical research according to different research designs. **Pre-Requisites: MATH 120-O**

HESC 365-O Health Sciences Research

3 Credits

This course prepares students to critically analyze research literature in the health sciences. Specific attention is given to the relationship between research outcomes and clinical practice. Students also have the opportunity to apply the scientific method to clinical research. Funding opportunities available to develop research studies in health sciences are presented and discussed. **Pre-Requisite: HESC 360-O**

HESC 500-O Statistics Applied to Clinical Research

3 Credits

The student has the opportunity to study and apply statistical methods useful in quantitative and qualitative analysis of clinical research. Review of descriptive and inferential statistics with simple uni-variable procedures. Statistical analyses of multi-variables and complex hypotheses testing procedures are also discussed. The material is presented to facilitate students' application of the concepts learned in research courses and focused on research utilization. **Pre-Requisites: NURS 502-O**

HIST 273-O History of the United States of America

3 Credits

This course is a survey of the political, economic, and socio-cultural development of the United States of America through its history. It covers the hominization

process in the continent, its geographical surroundings, and the development of the Amerindian settlements. It also includes a chronological analysis of the major historical processes that contributed in the development of the U.S. from its origins to present. **Pre-Requisite: None**

HUMA 101-O World Cultures I

3 Credits

This course is a critical study of humanity's cultural evolution from its beginnings to the development of cities and urban life, with special attention on ancient cities. It promotes general understanding of moral, social, and cultural values through history. The course covers the study and analysis of the origins of Western civilization from prehistory to the development of the Hellenistic civilization. Students will develop cooperative and critical thinking skills by the analysis of human development and the influence Ancient World cultures and civilizations have on contemporary political, economic, and sociocultural factors. Emphasis will be on the role played by aesthetics, philosophical, political, and economic factors in civilization. Students will have the opportunity to interact and construct their own knowledge on the topic. **Pre-Requisite: None**

HUMA 102-O World Cultures II

3 Credits

The course of Humanities 102 (HUMA 102), World Culture II is a critical study of the cultural evolution of humankind since the development of cities and urban life to the present. Special attention is paid to cultural events of greatest impact for humanity. The course promotes understanding of moral, social and cultural aspects of Hispanics living in the United States. **Pre-Requisite: HUMA 101-O**

HURM 400-O Safety and Health Occupation

3 Credits

This course was designed for students to learn basic concepts about rules and policies of security and occupational health such as (OSHA, EPA, ADA). Emphasis will be given to the analysis and prevention of accidents and how to register them. Accident theories, compensations, security personnel, norms and regulations, risk evasion, accident research, personnel protection systems, first aid, ergonomics, and other related topics will be covered in class. **Pre-Requisite: MANA 210-O**

HURM 412-O Training and Development

3 Credits

This course studies the importance of training and development in achieving organizational goals. This will include the design of continuous training programs, assessment for the need of training and development, and identify what is considered appropriate training. The course also integrates learning theories in designing training programs. Moreover, it integrates the learning theories, how to evaluate the effectiveness of training, the aspect of cost effectiveness and return on investment and the learning outcomes based on performance. Will have debates/discussions on the different methods of training, the use of technology on how it is incorporated in training methods and compare the cost benefit and learning characteristics. Other topics include the aspects of employee development and performance evaluations. Discuss special circumstances that surround cross-cultural training, career management and organizational challenges such as the loss of value in employee skills and the orientation and socialization of the employee. Another topic discussed will be the importance of balance between work and a family life. Other scenarios faced by employers such as staff reductions and retirement factors faced by companies will be discussed. **Pre-Requisite:**

MANA 210-O

HURM 710-O Personnel Administration

3 Credits

The course deals with philosophy, techniques and policies of the management of human resources in modern organizations. A conceptual model of personnel administration is discussed. The analysis is supplemented with classical case studies. **Pre-Requisite: None**

HURM 725-O Labor Law

3 Credits

The course promotes the analysis, evaluation, and discussion of local and federal laws pertaining to the employer-employee relationship. Topics discussed include fair employment practices, wage and salary legislation, anti-discrimination laws, promotion, termination and other pay-related actions. **Pre-Requisites: MANA 501-O, HURM 710-O**

HURM 732-O Occupational Health and Safety

3 Credits

The course covers fundamental aspects of existing legislation and policies regarding occupational health and safety, compensation, and distribution of responsibilities. **Pre-Requisite: None**

INBU 350-O International Business

3 Credits

This course focuses on the concepts and administrative implications in the international business practice in the products and services merchandising all around the world. The course will make emphasis in the pros and cons of the economic theories, the government policies, the business strategies and the organizational structure of the international business. **Pre-Requisite: None**

MANA 204-O Business Law and Professional Ethics

3 Credits

This course covers the study of the legal aspects of common business transactions. Special attention is given to contracts, sales and marketable securities, transfer of property, deeds, and mortgages. **Pre-Requisite: None**

MANA 210-O Business Administration Theory

3 Credits

This course covers the study of the common principles of business administration compared to new concepts. It analyzes the management process through discussions on the four basic principles of business administration: planning, organization, administration, and control. **Pre-Requisite: None**

MANA 213-O Human Resources Administration

3 Credits

This course covers the study of the theory and application of fundamental principles of human resources management in an enterprise. It also includes the dynamic role of the manager and his relationship to personnel. The course also looks at issues in human resources management and their relation to the general objectives of the enterprise. **Pre-Requisite: MANA 210-O**

MANA 230-O Organizational Behavior

3 Credits

Organizational Behavior is the study and application of knowledge about the way people behave within organizations. In the Organizational Behavior course the meaning and importance of human behavior is studied—individually and as a group—within organizations, which are social systems. Students will study topics such as: theories and practices of organizations, psychology of the individual and its nature, advantages of team work, the organizational conflict and the changes, amongst others. Students will also be able to apply the human behavior and organizational theories to understand the managerial

functions that are carried out in an organization. **Pre-Requisite: None**

MANA 302-O Labor Legislation

3 Credits

This course studies the fundamental aspects of labor laws at both state and federal levels. Analysis of the rules governing employers' labor relations, protective labor legislation, personal law, social security legislation of labor law, health, and safety at work will take place during this course. **Pre-Requisite: MANA 213-O**

MANA 316-O Small Business Administration

3 Credits

This course covers the planning, distribution of space and handling of materials, analysis of investments, inventory control, quality control, and the analysis of methods to determine employee efficiency, for small business. **Pre-Requisite: MARK 133-O**

MANA 321-O Supervision and Leadership

3 Credits

This course provides a general overview of the concepts, methods, and modern supervisory techniques needed to become efficient business managers. The role and functions of the supervisor are highlighted by emphasizing the supervisor's responsibility and authority. Theory is combined with practical observations, so that the student can become aware of all the fiscal, human, and psychological resources that the supervisor must use in order to administer efficiently and effectively. **Pre-Requisite: MANA 210-O**

MANA 340-O Operations Management

3 Credits

This course focuses on the analysis, planning and control of production facilities and operations. It includes the use of techniques and models for decisions related to: demand forecasts, product mix, plant location, quality control, inventory control, and the human factor in the production process. **Pre-Requisite: STAT 201-O**

MANA 401-O Business Strategies

3 Credits

Business Policies is an advanced course in which the students will learn the concept of top management analysis. It is designed to expose students to corporative problems in various business scenarios. In addition, the class will integrate skills developed in previous core courses like Human Resources, Accounting, Economics,

Finance, Information Management, and Marketing. **Pre-Requisite: STAT 201-O**

MANA 404-O Labor Relations

3 Credits

Labor Relations is a course that studies the employment involvement in a labor force with special consideration in a union environment. Students will develop skills in collective bargaining process, negotiation, grievance, discipline and arbitration processes. They will learn and understand the involved labor laws and governmental agencies that regulate the labor practices. The course will complement subjects about the labor-management relations in the public and private sectors and international employee and labor relations. **Pre-Requisites: MANA 213-O**

MANA 422-O Compensation Administration

3 Credits

Principles and techniques used in the design and the administration of a compensation system. It will include aspects concerning legislation, base pay structure, job evaluation, performance analysis, as well as incentive plans, benefits and services. **Pre-Requisite: MANA 210-O**

MANA 450-O Management Project

3 Credits

The focus of this course is to apply all the knowledge gained in the management program as a final project. The student must dedicate a minimum of 45 hours supervised by the professor during the academic term for the course to develop a management project or assigned task. The student may design his own business or serve as a management consultant. The student will utilize the strategic plan components as the integrated vehicle for the final project. **Pre-Requisites: ACCO 111-O, FINA 202-O, MANA 210-O, MARK 133-O, and 6 specialization credits**

MANA 501-O Organizational Behavior

3 Credits

The course Organizational Behavior and Development is oriented towards the study of the impact of the organizational behavior and its effects in the development of an organization. Its main emphasis is the application of these theories at an individual and group level; and the processes related to the effectiveness and efficiency of an organization. The course focuses on the aspects of the

individual and group behaviors considering learning styles, organizational culture, communication, personality, leadership, motivation, conflict and management by objectives (MBO). **Pre-Requisite: None**

MANA 600-O Research Methods

3 Credits

The course examines the nature and scope of research design and its application to management science. It also incorporates the statistical tools commonly used in the research process and in the development of a research proposal. **Pre-Requisites: STAT 555-O or 24 credits approved of more.**

MANA 605-O Business at the Private/Public Intersection

3 Credits

Understanding the role of business requires understanding its role relative to other economic, social, and political institutions. This course helps students understand business within the broader global progression of the private and public environment and encourages them to be managers and leaders of businesses that create value in both sectors. **Pre-Requisites: None**

MANA 625-O Total Quality Management

3 Credits

The course centers on the presentation of the principles and concepts of the total quality management philosophy and its application in business and industry. **Pre-Requisites: MANA 501-O, STAT 555-O**

MANA 700-O Entrepreneurship

3 Credits

This course is focused on the establishment and operation of new enterprises. It discusses the entrepreneurial process, from generating business ideas and evaluating the market, to determining the appropriate resources, financing options, coordinating startup operations, and successfully operating the new business during its growth stage. **Pre-Requisites: None**

MANA 705-O Production and Operations Management

3 Credits

This course deals with concepts, techniques and decision-making in production operations management. Among the specific topics included are: acquisition and utilization of raw materials, short and long-term projections, job programming, purchasing and inventory control production scheduling according to demand, quality

standards, and incentive systems. **Pre-Requisite: STAT 555-O**

MANA 715-O Supervision and Leadership

3 Credits

This course concentrates on the management skills needed by front line supervisors with emphasis in their leadership capability. It will prepare students which intend to be supervisors in commerce, manufacture, government or service industries. Also, it will examine the supervisor's functions. Study the ways and practices to represent the supervisor's roles as leaders, to the community. Include the study and analysis of leadership styles, strategies and diverse organizational environment in which it occurs. **Pre-Requisite: None**

MANA 738-O Knowledge Integration in Management

3 Credits

This course was developed to provide students of the Graduate Program in Human Resources the opportunity to examine and compare their knowledge with actual conditions in organizations. The student can identify, discuss and analyze in a critical way the concepts and theories in materials management, using real situation of different organizations. By practicing integrative analysis, students will be able to use knowledge acquired in their concentration courses. **Pre-Requisites: 27 or more credits approved, including MANA 600-O**

MARK 133-O Marketing Principles

3 Credits

This course analyzes the processes involved in the distribution of goods and services from producer to consumer. It studies the comprehensive system of marketing, including management-controlled variables: product, price, promotion and distribution; and external variables such as government, the economy and society. It also studies consumer behavior, modern marketing trends, market's definition, and placement and information systems. **Pre-Requisite: None**

MARK 206-O Consumer Behavior

3 Credits

This course studies consumer motivation, decision making in selection of goods or services, market definition, and site. It considers the role of anthropology, sociology, and social psychology in analyzing and understanding consumer behavior. It includes psychological principles that facilitate the understanding of individual traits such

as learning experience, perception, attitudes, motivation, and personality. **Pre-Requisite: MARK 133-O**

MARK 301-O Marketing Management

3 Credits

In this course the student will study the process of marketing management. The course Mark 301 includes the theoretical aspects and its applications to management. The Marketing Management course also studies the importance of the marketing function for an organization, the development of Marketing strategies and the design of a Marketing plan. **Pre-Requisite: MARK 133-O**

MARK 306-O Sales

3 Credits

The fundamentals of professional selling are studied in this course. Emphasis is placed on the creation, communication and delivery of value, as well as on initiating, developing and strengthening relationships with consumers. **Pre-Requisite: MARK 301-O**

MARK 318-O Sales Management

3 Credits

MARK 318 is a course designed to teach the basic functions of the sales force management and leadership; become familiar with some recent research in sales management that underlies the theories and concepts; and maintain a sales force with the objective of maximizing the efficiency and effectiveness of the organizational revenue-generating. In addition, it's emphases on the business-to business model and develops professional decision-making skills to build and maintain an effective sales organization. Topics covered include salesperson effectiveness, forecasting, motivation, organizational design, compensation, and evaluation. **Pre-Requisite: None**

MARK 320-O Market Research

3 Credits

This course studies the application of the scientific method in the research, analysis and use of information in the market. It covers the procedures involved in the collection of data, its analysis and the use of statistical tests to solve marketing problems. Additionally, it studies the interpretation and proper use of results generated during a market research. **Pre-Requisite: STAT 202-O**

MARK 350-O Distribution Channels

3 Credits

This course provides students with the skills to design local and international distribution channels. A company's channels of distribution often represent the main points of contact with the final consumer. To have the appropriate "partners" and their cooperation is critical for the success of the company and its consumers. This course especially discusses the nature of distribution channels, the importance of using intermediaries in marketing, the number of levels in distribution, the behavior and organization of distribution channels, systems of vertical and horizontal integration, hybrid systems, marketing, physical distribution and logistics management, among other topics. **Pre-Requisite: MARK 133-O**

MARK 404-O Negotiations

3 Credits

This course studies techniques to enhance negotiation outcomes, and reviews the latest ideas in negotiation. It focuses on the value of the deal and examines the different issues that interfere with successful outcomes in marketing. Key topics covered in this course include negotiating in the global marketplace, negotiation ethics, negotiating using the Internet, and the advantages and disadvantages of using arbitrators and/or mediators. **Pre-Requisite: MARK 133-O**

MARK 406-O Direct Marketing

3 Credits

The course focuses on marketing strategies; by describing present marketing problems, the course provides an opportunity for the development of decision-making skills. Emphasis is placed on products and services, integrated marketing communications channels and pricing strategies. **Pre-Requisite: MARK 301-O**

MARK 410-O International Marketing

3 Credits

This course presents the history and basic principles of international marketing. In addition, it exposes the student to different marketing situations that occur to managers in the international marketing business environment; as cultural, political and legal. This course will also give the students the opportunity and experience to internalize basic concepts on how to make decisions about international pricing and distribution. **Pre-Requisite: MARK 133-O**

MARK 415-O Sales Projections

3 Credits

This course studies different quantitative and qualitative methods to predict the uncertain nature of business in the area of sales such as the moving average, exponential smoothing, time series, simple linear regression, the Delphi method, the expected value, a decision tree diagram, and Bayes' theorem. **Pre-Requisite: MARK 301-O**

MARK 450-O Internship

3 Credits

This course involves students in a work experience in which they apply principles related to marketing strategy acquired in the classroom. Furthermore, strategies in drafting marketing policies at management level will be studied, including organization, demand analysis, product planning, pricing system, logistics, and sales promotion. The course also exposes the student to actual work situations, which develop the assurance and self-confidence required in professional life. The internship experience provides the student with the opportunity to focus on a specific area in the marketing field. This course requires one-hundred and sixty (160) full-time work hours. **Pre-Requisites: MARK 133-O, MARK 301-O, MARK 320-O**

MARK 455-O Marketing Project

3 Credits

MARK 455 is a course in which students must apply all the knowledge of the marketing field obtained during their professional and /or academic careers. This course will apply, but not be limited to, the following subjects: Function of Marketing in the Organization, Development of Marketing Strategies, Development of Marketing Tactics, Implementation and Control of a Marketing Plan. **Pre-Requisite: MARK 450-O**

MARK 511-O Marketing Management

3 Credits

This course examines the relevance and interaction of basic marketing concepts like product, price, place, and promotion, by discussing real business situations and the decision-making procedures that marketing managers engage in. In addition, the course explores market analysis, strategic planning, the marketing mix, preparation, analysis and distribution of budget, effective communication and designing strategic marketing plans inherent to the administration of marketing. **Pre-Requisite: None**

MATH 103-O Basic Mathematics I

3 Credits

Study of the fundamental concepts in basic mathematics: operations with whole numbers, fractions and decimals, ratio, proportions, percentage, integer numbers, measurement, and applications.

MATH 104-O Basic Mathematics II

3 Credits

Elementary algebra and introduction to geometry, statistics and probability, exponential laws, polynomials, linear equations, and basic concepts of geometry.

MATH 111-O Intermediate Algebra I

3 Credits

This course covers the study of rational exponents and radicals, linear graphs and quadratic equations, inequalities, systems of equations and their applications, as well as special products factoring and rational expressions. **Pre-Requisite: None**

MATH 112-O Intermediate Algebra II

3 Credits

This course studies rational mathematical expressions, exponents, and radical numbers. The course also includes a detailed presentation of complex numbers, quadratic functions, inequalities, linear equations and linear inequalities systems, and its uses. The commonly used graphical representations and applications of linear and quadratic functions are also discussed. **Pre-Requisite: MATH 111-O**

MATH 120-O Basic Algebra

3 Credits

This course is the continuation for a course of basic mathematics. It includes the following topics: set theory, the real numbers, algebraic expressions, linear equations, linear inequalities, polynomials and its operations, and factorizations. **Pre-Requisite: None**

MATH 126-O Fundamental Topics in Mathematics

3 Credits

This course includes problem solving, theory of sets, functions and logics, linear geometry, constructions, geometric transformations, measurement, probability, statistics, theory of numbers, and a brief introduction to BASIC (optional). **Pre-Requisite: MATH 120-O**

MATH 151-O Pre-Calculus I

4 Credits

This course covers the Real Number System and its properties: Properties of Exponent, solving inequalities

(including absolute value, quadratic and linear inequalities) and interval notation, solution of equations, Relations, Functions, Graph properties of Functions, Rational Functions, Logarithmic and Exponential Functions, and Solution of Linear Systems of Equations using determinants. **Pre-Requisite: None**

MATH 152-O Pre-Calculus II

4 credits

This is a course of trigonometry and analytic geometry, designed for students majoring in the different fields of the natural sciences. Its main goal is to provide an adequate preparation for other courses, such as calculus, in which a firm base in trigonometry and analytic geometry is fundamental. The topics are: trigonometric functions and their graphs, trigonometric identities and equations, applications of trigonometry, and the following topics from analytic geometry: circles, parabolas, ellipses, and hyperbolas. **Pre-Requisite: MATH 151-O**

MATH 173-O Plane and Space Geometry I

3 Credits

This is a course in geometry for students specializing in Mathematics Education. The main purpose of this class is to present the fundamental geometric concepts including Euclidean geometry of the plane and geometry of the space providing a modern focus in terms of the definitions and notation. It is expected for the students to obtain a practical knowledge of the subject by applying the concepts in the solution of exercises. MATH 173 will cover the basic concepts of geometry including the plane, straight lines, angles, polygons, etc. This course will develop the deductive method to formalize geometric proofs; will discuss the concepts of perpendicularity and parallelism, the properties and theorems related to triangles, rectangles and the geometry of coordinates. **Pre-Requisites: MATH 152-O**

MATH 174-O Plane and Space Geometry II

3 Credits

The second semester of the course covers the following areas: circumference; areas; polygonal regions; Cartesian geometry of the plane, space geometry, solid bodies and surfaces, surface areas, volume and basic non-Euclidean geometry. **Pre-Requisites: MATH 152-O, MATH 173-O**

MATH 290-O Theory of Numbers

3 Credits

This course covers topics such as: divisibility, congruency, Gauss integers and Diophantine equations. The course

will be delivered by proving theorems as study guides.

Pre-Requisite: MATH 301-O

MATH 301-O Calculus I

4 Credits

This course covers the intuitive concept of the limit of a function. It also covers the derivative and applications, as well as anti-differentiation. This course also includes the definite integral, areas and volumes, and the fundamental theorem calculus. **Pre-Requisites: MATH 151-O, MATH 152-O**

MATH 302-O Calculus II

4 Credits

This course is an integration of transcendental functions. It includes integration techniques, indeterminate forms and improper integrals, sequences and series, analytic Geometry, planes, curves, and polar coordinates. **Pre-Requisite: MATH 301-O**

MATH 305-O Probability and Statistics

3 Credits

MATH 305 is a course that will provide the basic principles of statistics. This includes data collection and classification of information, measurements of central tendency and measures of variability. The course also includes probability and distribution (the normal, Poisson, the binomial and other), sampling theory in infinite populations, and the principles of experimental design. **Pre-Requisite: MATH 301-O**

MATH 555-O Statistics for Decision-Making

3 Credits

The course centers on the study of concepts and statistical methods useful to administrators in their decision-making processes. The course covers descriptive statistics and inferential statistics. Computer applications are part of the course. **Pre-Requisite: None**

MSPA 500-O Theory, Practice, and Change in the Administration of Public Policy

3 Credits

This course deals with modern theories and ideologies that define and delineate the formulation, administration, and evaluation of public policy. It refers and aim to the understanding of concepts such as individualism, collectivism, and community as developed by philosophers. The course analyzes the conceptual requisites for planning as well as methods and applications. It focuses on critical analysis of alternate

methods in which public and social policy are developed into practical actions. **Pre-Requisite: None**

MSPA 505-O Computer Education for Public Administrators
3 Credits

This course has been designed with the objective of familiarizing the Master's Level student in Public Affairs with the use of computers as an effective decision-making tool. It offers students an opportunity to familiarize themselves with basic concepts in the management and use of computers. At the end of the course students will be able to develop and apply specific skills in three areas of knowledge: (1) the ability to utilize advances in technology, (2) the ability to incorporate technological development in the assigned areas, and (3) the ability to implement strategies and policies focused on management improvement. **Pre-Requisite: None**

MSPA 510-O Research and Quantitative Methods in Public Administration
3 Credits

The course gathers the statistical concepts and the investigative methodology that are applicable to the program of public affairs. It presents a multidisciplinary approach to the professional areas of public affairs. It develops in the students the capability and objectivity in decision-making processes with a minimum of prejudice and subjectivity. The course emphasizes the practical elements of applied statistical methodology and analysis; the study and application of the methodology of a social research. **Pre-Requisite: None**

MSPA 520-O Administrative Law and Ethics
3 Credits

The course of Administrative Law and Ethics is directed to the study of theories and doctrines involves in the development, structure and function of the administrative agencies. This course introduces students to fundamental legal concepts regarding administrative law and the administrative process. The course also introduces students to the field of ethics and shows how ethical principles are applied to administrative agencies to ensure not only legal but also moral government decision-making. The course thus examines how administrative agencies are created, how they exercise their powers, how they make laws and policy, formally as well as informally, the laws that govern agency rulemaking and adjudications, especially the Administrative Procedure Act, Constitutional and other legal protections afforded

against agency actions, and how agency actions are reviewed and remedied by the courts and legislative branch of government. **Pre-Requisite: MSPA 500-O**

MSPA 530-O Planning and Evaluation: Theories, Methods and Techniques
3 Credits

The purpose of this course is to prepare the student in managing public administration issues through planning and evaluation. The student will learn how to seek solutions and evaluate results using the concepts learned in the course. The course is designed based on the assumption that the student does not have the theoretical planning background; therefore, the course presents a global overview of the diverse planning theories that will lead into specific actions of implementation and evaluation. **Pre-Requisite: MSPA 510-O**

MSPA 540-O Seminar: Planning, Development and Evaluation of Human Resources
3 Credits

Study of the concepts and theories of communication, leadership, human motivation, perception, emotions, personality, mental health, decision-making process and living patterns in the administrative system. Principles of the public sector organization. Analysis of the components of the human resources administration such as: recruitment and personnel selection, job classification and evaluation, pay systems, human resources evaluation, training and retirement, motivation, human relations in public administration, and living together within the organizational setting. **Pre-Requisite: MSPA 520-O**

MSPA 550-O Fiscal Resources Management
3 Credits

The study about the administration and formulation of the public fiscal policy. Problems evaluation over efficiency, effectiveness, costs and benefits, and fiscal decision-making on public budgetary administration and nonprofits organizations. Analysis and evaluation of concepts, theories, models, approaches and strategies in the administration of fiscal resources. **Pre-Requisite: MSPA 530-O**

MSPA 710-O Research Seminar in Criminal Justice
3 Credits

The seminar offers an opportunity so that the student completes an investigation, integrating the knowledge acquired by means of the administrative systems analysis and the contingencies in the performance of functions

that affect the public and private organizations. The student will analyze the planning, organization, design, formulation and decision-making activities within the public administration organizational scene. **Pre-Requisites: MSPA 510-O**

MSPA 720-O - Internship

3 Credits

This course involves the supervised internship in administrative function in a public organization or a non-for-profit organization. The student will complete one hundred thirty (130) hours of practice in an organization applying knowledge, theories, values, methods and administrative skills. **Pre-Requisites: MSPA 710-O**

NURS 200-O Introduction to Nursing

1 Credit

This course focuses on presenting students the important role nursing professionals play in our society. Emphasis is given to basic concepts of nursing, health, and illness; as well as the emotional, spiritual, psychological, and physiological components of the human being. Students participate on basic nursing procedures, and familiarize with a variety of instruments and equipment at the Nursing Skills laboratory. They are also exposed to university life activities, including the cultural aspect and life of a professional nurse. **Pre-Requisite: QYLE 110-O**

NURS 201-O Fundamentals of Nursing

5 Credits

This theoretical and clinical course introduces the historical, sociopolitical, and legal concepts of the nursing profession in Florida and the United States. Emphasis is placed on the development of basic nursing skills, which are needed for promotion of health and maintenance of individuals, families and communities. The student is guided to consider the individual's motivation in seeking health care and how these problems interfere with the person's daily activities. Clinical practice provides opportunities for development of the skills needed in hospital and community settings to carry out the nursing role. Emphasis is placed on the client as a holistic being and the use of critical thinking when intervening in health and illness with a variety of individuals from different cultural/social backgrounds and age groups. **Pre-Requisites: NURS 200-O, CHEM 224-O, BIOL 304-O Co-Req: NURS 203-O, NURS 205-O**

NURS 202-O Health and Physical Assessment

4 Credits

This course focuses on concepts of health promotion and disease prevention in conducting physical examinations and health assessments. Multidisciplinary and interdisciplinary collaboration, cultural competence, and professional interpersonal skills are modeled in order to achieve the goals of Healthy People 2020. Practice in the skills and clinical simulation laboratory provide an opportunity for students to examine and implement the nursing process with individuals, families, and communities throughout the life span as consumers and resources of health care. The nursing diagnosis process, health screening, referrals process, and physical examination techniques are discussed, applied, and practiced in clinical simulated laboratory experiences. **Pre-Requisites: NURS 201-O Co-Req: NURS 303-O**

NURS 203-O Pharmacology

4 Credits

This course presents students with the opportunity to develop critical thinking skills related to pharmacology concepts applied to the nursing process. The content focuses on principles of pharmacology, drug classifications, administration routes, dosage calculations, therapeutic use, disinfection procedures, basic concepts of nontraditional medicine, and drug interactions. The advantages and disadvantages of pharmacotherapy and the client's well-being are discussed. In addition, the course includes content on bioterrorism agents, drugs for HIV/AIDS, medication errors, and gene therapy. The clinical skills component provides the student the opportunity to demonstrate competency in the techniques of safe medication administration. **Pre-Requisites: NURS 200-O, CHEM 224-O, MATH 112-O, BIOL 300-O, BIOL 304-O, PSYC 123-O (Co-Req NURS 201-O, NURS 205-O)**

NURS 205-O Pathophysiology

3 Credits

This course presents the basic concepts of human pathophysiology and explains the processes of specific diseases. The course is divided in two parts: the microsystem and the macrosystem. Part one reviews cellular responses to infection, environmental factors, genetics, diet, cancer, and stress. Part two is organized by body systems. Students are expected to have a basic knowledge of microbiology, chemistry, anatomy and physiology. Relevant case studies are discussed in class, and aspects such as risk factors pertinent to pediatric, aging and women's health are presented. **Pre-Requisites: NURS 200-O, CHEM 224-O, MATH 112-O, BIOL 300-O,**

BIOL 303-O, BIOL 304-O, PSYC 123-O (Co-Req NURS 201-O, NURS 203-O)

**NURS 206-O Health Assessment and Promotion
3 Credits**

This course further develops health assessment, interviewing skills, and preventative health interventions for patients across the lifespan. **Pre-Requisite: General Education Requirement**

**NURS 210-O Nursing Informatics
3 Credits**

This course is an introduction to computers and nursing informatics focusing on applicants to the nursing profession. The emphasis is on integrating nursing practice systems and informatics technology. The student explores the use of informatics in the nursing practice and its role in enhancing patient care. The student also examines issues related the protection of the privacy, confidentiality, and security of health information in health care environments and the potential utility of a wide array of social networking tools in communicating health-related information. **Pre-Requisites: NURS 201-O, NURS 203-O, MATH 112-O; Co-Req. NURS 403-O, NURS 404-O**

**NURS 303-O Medical Surgical Nursing
5 Credits**

This theoretical and clinical course prepares students to intervene with individuals in adult and elderly stages who present physiological alterations affecting their homeostasis. The focus is on the development of knowledge based on application of the nursing process, communication skills, critical thinking and therapeutic interventions, as essential to ensuring optimal care. The course includes theory, nursing skills laboratory, clinical experiences (hospitals and communities), and seminars. The hospitals used for clinical practice are at secondary and tertiary levels of care. **Pre-Requisites: NURS 201-O, NURS 203-O, NURS 205-O (Co-Req NURS 202-O)**

**NURS 304-O Maternal & Child Nursing
5 Credits**

This theoretical and clinical course focuses on concepts of the childbearing patient, her infant and the impact on her family. The nursing process is presented as a guide for intervention with families during the normal human development process including: pregnancy, delivery, postpartum, and care of the newborn. Health promotion

is emphasized. Epidemiology, infectious, acute, and chronic diseases are discussed, taking into consideration maternal and newborn needs in community and hospital care settings, from a bio-psychosocial perspective. At the beginning of the course, specific maternal and childcare skills are practiced in a nursing skills laboratory. After this practice, students participate in different experiences within the clinical setting. **Pre-Requisites: NURS 202-O, NURS 210-O, NURS 303-O (Co-Req NURS 305-O)**

**NURS 305-O Nursing Care of Children and Adolescents
5 Credits**

This theoretical and clinical course focuses on the care of children and adolescents. The student is introduced to the concepts of nursing care from the first year of life through adolescence. Basic nursing skills are developed for the prevention of illness, health promotion, and health maintenance in this age group. Emphasis is placed on the client as a holistic being, on applying critical thinking, and on promoting the use of nursing diagnosis according to the North American Nursing Diagnosis Association (NANDA), with nursing interventions (NIC) and outcomes (NOC) adequate to this age group. **Pre-Requisites: NURS 202-O, NURS 210-O, NURS 303-O (Co-Req NURS 304-O)**

**NURS 309-O Organizational and System Leadership
3 Credits**

This course prepares the student to address organizational and system related issues affecting quality improvement and safety. The student will develop leadership skills in critical decision-making, interprofessional communication and collaboration, and conflict resolutions strategies. Quality improvement concepts, processes, and outcome measures will be reinforced throughout the course. **Pre-Requisite: General Education Requirement**

**NURS 307-O Evidence-Based Practice
3 Credits**

The student will utilize a systematic process for the evaluation and application of scientific evidence surrounding practice issues. In addition, the student will share evidence of best practices and integrate reliable evidence from multiple ways of knowing to inform practice and make clinical judgements. **Pre-Requisite: NURS 306-O**

**NURS 308-O Healthcare Policy
3 Credits**

In this course, the student will explore the broader context of health care and how patient care services are organized and financed, as well as how reimbursement is structured. Students will identify boundaries of nursing practice, understand the scope and role of regulating agencies, and how healthcare policies are central to discussion on quality and safety in the practice environment. Pre-Requisite: **NURS 306-O**

NURS 403-O Community Health Nursing

5 Credits

This theoretical and clinical course focuses on the study of principles and practices involved in community health nursing and the development of skills for health education in community settings. Students are familiarized with models, theories, concepts and skills related to community interventions. Public Health concepts are discussed and applied to the health improvement of different communities, as well as the analysis of the physical and social environments in the community, including the role of the different organizations involved in the process. Emphasis is given to priorities for health promotion and maintenance according to Healthy People 2020, including health disparities and the essential role of the nursing professional. **Pre-Requisites: NURS 304-O, NURS 305-O (Co-Req NURS 404-O)**

NURS 404-O Mental Health Nursing

5 Credits

The focus of this theoretical and clinical course is the promotion of health and provision of opportunities for clients to maximize their ability to live, work, socialize, and learn in the communities of their choice. The practice of Mental Health Nursing is presented from the perspective of helping people manage difficulties, solve problems, decrease emotional pain, and promote growth, while respecting their rights to their own values, beliefs, and decisions. Nursing students are encouraged to engage in self-analysis in order to increase their understanding and self-acceptance. This is important because nurses who are able to clarify their own beliefs and values are less likely to be judgmental or to impose their own values and beliefs on clients. Neurobiological, psychosocial, sociological, and spiritual theories are discussed to help students understand clients and their experiences and to help them engage in the healing process. Emphasis is given to development of effective communications skills, application of the nursing process, community mental health, critical thinking, and cultural diversity. **Pre-Requisites: NURS 304-O, NURS 305-O (Co-Req NURS 403-O)**

NURS 405-O Nursing Leadership

3 Credits

The focus of this course is on the basic concepts of effective nursing leadership and management within today's dynamic health care system where nursing roles are evolving. The impact of economics, information, technology, and politics on the health care system is discussed and analyzed. Problems and challenges are viewed as opportunities for growth and improvement for the health care team where nursing plays a key role. The student has the opportunity to critically analyze case studies in various health care settings. A variety of concepts and theories from research and literature are analyzed and applied to practice. Participation in local, national, and international nursing and non-nursing organizations is encouraged. **Pre-Requisites: NURS 403-O, NURS 404-O (Co-Req NURS 406-O, NURS 407-O)**

NURS 406-O Practicum

4 Credits

In this course, the student has the opportunity to integrate knowledge from previous courses with the purpose of promoting professional attitudes, internal motivation, and development of responsibility and accountability for practice. Emphasis is placed on the development of skills in the clinical setting. The goal of the course is to increase clinical skills and apply critical thinking, using nursing diagnoses according to the North American Nursing Diagnosis Association (NANDA, NIC and NOC). In addition, students have the opportunity to practice the employer-employee relationship and leadership skills. In addition to the clinical experiences, the group meets once a week for two hours to discuss issues relevant to this stage of their professional development. **Pre-Requisites: NURS 403-O, NURS 404-O (Co-Req NURS 405-O, NURS 407-O)**

NURS 407-O Knowledge Integration in Nursing

3 Credits

The focus of this course is integration of knowledge in preparation for local and/or national professional examination tests. Students have the opportunity to become familiar with the requirements for practicing the nursing profession in Florida and the National Council Licensure Examination (NCLEX). In addition, students will review and practice the basic components included in the examination test required by the Department of Health to practice the profession of Nursing and the NCLEX. **Pre-Requisites: NURS 403-O, NURS 404-O (Co-Req NURS 405-O, NURS 406-O)**

NURS 416-O Healthcare Quality and Outcomes
3 Credits

This course allows students to establish shared goals, compare role expectations of care professionals, apply flexible decision-making, and incorporate open communication and leadership in practice. Throughout this course, students will develop respect and trust for other members of the healthcare team. **Pre-Requisite: NURS 308-O**

NURS 417-O Clinical Prevention and Population Health
3 Credits

In this course, the student will apply principles of health promotion, disease, and injury prevention across the lifespan at the individual and population level to improve population health. The student will also apply knowledge to minimize health consequences of emergencies and mass casualty disasters. **Pre-Requisite: NURS 308-O**

NURS 446-O Capstone RN to BSN
9 Credits

This course allows the student the opportunity to apply knowledge, skills, and competencies acquired through previous course work and practice in the care of the patient across the lifespan in various healthcare environments. The student will identify a problem important to a population, identify contributing factors, develop a plan for improvement, educate, implement, and evaluate the plan. **Pre-Requisite: All Courses**

NURS 500-O Theoretical Foundations of Advanced Practice Nursing
3 Credits

Discussion and analysis of a wide range of theories from nursing and other sciences. Scientific knowledge of care is presented as the central concept and essence of nursing. Emphasis is given to clinical care and research focused on a comprehensive and holistic approach. The practice of nursing is viewed as directly related to the development and revision of nursing theory where advanced practice nurses can make important contributions. **Pre-Requisite: None**

NURS 501-O Public Health Policies, Ethics and Systems
3 Credits

The nature of the U.S. health care delivery system is explored. The social, economic, cultural and political forces that impact the delivery of primary health care are discussed with emphasis on how they influence nursing. Discussion and analysis of professional aspects of advanced practice nursing including how to implement

the role. Public policies and legislation are discussed at local, national and global levels. The student examines health care policy development and analyzes the effects of policy on the health status Hispanic communities. This course provides an opportunity for the student to design innovative strategies that may influence the direction of public policy to improve the health care locally and advance the profession of nursing in Florida. This course also provides for discussion and analysis of factors influencing human essential moral status and the ethics of the health care systems. Different dilemmas are selected and analyzed to justify the most appropriate decision-making process. **Pre-Requisite: NURS 505-O**

NURS 502-O Nursing Science and the Research Process
3 Credits

Discussion of professional nursing practice that is based on evidence to achieve optimal outcomes. Pragmatic considerations of scientific inquiry in the use and conduct of research in practice. The scientific method is presented as it relates to nursing research. Experimental and non-experimental methods of conducting clinical research are examined, with ethical implications. Emphasis is given to the writing of a research proposal as the plan for a scientific project. Successful grantsmanship is presented as an art that requires sound planning for the project development of a well written proposal, and selection of an appropriate funding source. **Pre-Requisite: NURS 500-O**

NURS 503-O Nursing Research Project: Proposal to Publication
3 Credits

Description: This course is the implementation phase of an evidence-based research project focused on clinical nursing. The research proposal for the study to be implemented in this course must have been approved by the professor from the previous course (NURS 502) and by the Institutional IRB Committee. This phase requires a set of thoughtful, careful, organized, and sequential activities to conduct research projects which improve the quality of care. The ethical conduct of the team that participates in research with human subjects, animal subjects, and research staff is discussed in the projects. It is expected that the student demonstrates that the study contributes to the advancement of the nursing practice, emphasizing the dissemination of findings, as well as the respective recommendations. An oral presentation of the study is required, as well as the writing of an article for publication in a scientific journal. These two activities are important

as part of the research process; in this way, the student will contribute with the ongoing development of the nursing practice and his/her personal satisfaction in his/her role as a visionary leader. **Pre-Requisites: NURS 502-O, HESC 500-O**

NURS 504-O Advanced History Taking and Physical Assessment

3 Credits

This course will develop competence in advanced physical assessment skills, documentation in the SOAP format for progress note charting, and oral case presentations necessary for advanced practice nursing providers, such as nurse practitioners. Emphasis will be placed on the importance of obtaining and documenting a comprehensive health history with identification of risk factors, medical-legal and cultural competence issues to guide the physical exam, thus generating an accurate diagnosis and management plan. Course conference presentations will cover episodic, focused, and complete examinations throughout the lifespan of women, adults, and in pediatric, and adolescent health. **Pre-Requisites: NURS 506-O, NURS 507-O**

NURS 505-O Health Promotion and Disease Prevention: Transcultural Considerations

2 Credits

This course discusses health priorities according to Healthy People 2020. Focus on the analysis of human caring as an essential dimension of advanced practice nursing work, especially dealing with life crises, health maintenance problems, and change in health practices. Discussion of demands made by changing life-styles and disease patterns, new and complex technologies, shifting demographics, global economies, dramatic health system changes and socio-biological and environmental threats to health and safety. Development of culturally competent holistic plans of care that address the health promotion and disease prevention needs of client populations. Theoretical models are presented as the means by which health care practitioners can give structure and organization to disease prevention and health promotion programs. **Pre-Requisite: None**

NURS 506-O Advanced Pathophysiology

3 Credits

Analysis of complex interrelations and interdependence of pathophysiologic concepts which produce alteration of human functioning across the life span. This serves as a primary component of the foundation for clinical

assessment, decision making and patient management in advanced nursing practice. Interpretation of the natural history and clinical manifestations for specific illnesses in terms of their etiology and pathogenesis. Description of the relationship between pathologic changes in body defense and the illness experience. Discussion of the features of pathophysiologic processes involved in the body's reactions to injury and infection, the immune response, circulatory disturbances and abnormalities of cellular growth. Description of the relationship between pathophysiologic process and alterations in body fluids and the pathophysiologic process involved in altered endocrine, exocrine and neuromuscular functions. **Co-Req: NURS 506-O, NURS 504-O.**

NURS 507-O Advanced Pharmacology

3 Credits

Analysis of the essential pharmaco-therapeutics for advance nursing practice. Study of the actions and effects of drugs on human systems across the life-span. Analysis of the scope of legal professional nursing responsibilities related to pharmacology in an expanded role. Description and identification of the actions, effects, uses and potential interaction of the major categories of drugs. Discussion of the pharmacologic process of absorption, distribution, metabolism, excretion, and the factors that influence the pharmacokinetics of drugs. Analysis of the physiologic effects of the drugs in the individual across the life-span and the factors, which influence the patient response to therapeutic agents, adverse drug reactions and appropriate interventions. Description of the controversies related to the bioavailability and bioequivalence of the drugs. **Pre-Requisite: None**

NURS 508-O Diagnostics and Differential Diagnosis

3 Credits

Development of advanced practice proficiency in the ordering, analysis and interpretation of appropriate diagnostic tests related to primary care for accurate diagnosis, treatment and referral. Knowledge of clinical decision making will be discussed. This includes comprehension of important pathophysiologic, epidemiologic, psychosocial and clinical management concepts that will help the FNP to determine which diagnostic tests are indicated given the patient's clinical presentation. Discussion and practice of proper specimen collection, handling of specimens, appropriate use of diagnostic tests, accurate interpretation of test results with an appreciation of sensitivity and specificity of the particular test, and appreciation of time factors that

influence availability and interpretation of test results will also be included. Practical laboratory sessions will be given concurrently with the theory session. Students will develop the critical thinking skills necessary to form a differential diagnosis. These differential diagnoses are established after analyzing the findings from the history and physical assessment and results of laboratory findings (diagnostic findings). This course emphasizes the importance of ordering the correct diagnosis. Discussion and practice of proper specimen collection, handling of specimens, analysis and interpretation of blood tests, and radiologic examinations will be covered. The course will be offered concurrent with the Advanced Physical Assessment (APA) course. Case studies will be discussed for every topic included in the APA course. **Pre-Requisites: NURS 506-O, NURS 507-O**

NURS 509-O Pharmacology for FNP's

3 Credits

Practical exposure to the general principles of providing and monitoring drug therapy for FNP's, as well as identification of a disease, review of the drugs used to treat the disease, select treatments, special patient considerations, and therapy adjustment. Finally, learn how to provide a primary, secondary, and tertiary line therapy when the first line fails. Discuss the prescription, monitoring, and evaluation of pharmacologic agents utilized to treat common disease states. Description of the teaching needed by individuals and families, to properly adhere to prescribed pharmacology therapy. Identify the roles and responsibilities of the FNP in prescribing pharmacologic agents, monitoring, and evaluating patient responses. The collaborative role of the FNP with the physician when consulting in providing, monitoring and evaluating the pharmacologic agents is identified and discussed as well. **Pre-Requisites: NURS 506-O, NURS 507-O**

NURS 510-O Primary Care I

4 Credits

This course is the first of a three-part series focusing on established primary care evidence based guidelines. Provides advanced practice knowledge of standard protocols through discussion in conference sessions and clinical experience. Emphasizes wellness, illness prevention, treatment of chronic and acute diseases throughout the life span. Builds upon the advanced practice core courses of advanced pathophysiology, advanced pharmacology, advanced history taking, and physical assessment. Integrates theories of collaborative

practice, cultural competencies, ethical and legal issues. Covers: Health Maintenance Issues, Skin Disorders, and Infection diseases, general symptoms, behavioral problems, mental health and HEENT. The clinical portion of the course will consist of 19 hours per week for the duration of this 8-week course making a total of 150 hours. **Pre-Requisites: NURS 504-O, NURS 505-O, NURS 506-O, NURS 507-O, NURS 508-O**

NURS 511-O Primary Care II

4 Credits

This course is the second of a three-part series focusing on established primary care evidence-based guidelines. Provides advanced practice knowledge of standard protocols through discussion in conference sessions and clinical experience. Emphasizes wellness, illness prevention, treatment of chronic and acute diseases throughout the life span. Builds upon the advanced practice core courses of advanced pathophysiology, advanced pharmacology, advanced history taking, and physical assessment. Covers: Pulmonary and Cardiovascular Disorders, Gastrointestinal Diseases, Metabolic and Endocrine Disorders. The clinical portion of this course will consist of 19 clinical hours per week for the duration of this 8-week course making a total of 150 hours. **Pre-Requisite: NURS 510-O**

NURS 512-O Primary Care III

4 Credits

This is the third course of a three-part series focusing on established primary care patient care evidence-based guidelines. Provides advanced practice knowledge of standard protocols through discussion in conference sessions and clinical experience. Emphasizes wellness, illness prevention, treatment of chronic and acute diseases throughout the life span. Builds upon the advanced practice core courses of advanced pathophysiology, advanced pharmacology, advanced history taking, and physical assessment. Covers: Genitourinary Disorders, Prenatal Care, Postpartum and Family Planning, Women's Health Issues, Pediatric Development and Common Health Issues, Sexually Transmitted Diseases, Hematologic Disorders, Musculoskeletal Disorders and Ambulatory Emergencies. The clinical portion of the course will consist of 19 hours per week for the duration of this 8-week course making a total of 150 hours. **Pre-Requisite: NURS 511-O**

NURS 513-O Residency

3 Credits

Culminating clinical experience consisting of 240 hours of clinical practice in an ambulatory setting providing comprehensive primary care services to underserved communities. Students will be paired with qualified and credentialed nurse practitioners or primary care physicians, physicians specialized in pediatrics, geriatrics or in any other specialty (according to our students' needs), who will be oriented, trained and certified to serve as preceptors in our FNP program. The course provides a depth of practice during 8-hour shift clinical days. Students develop and refine FNP competencies through clinical hours/experience. Weekly seminar conferences provide a forum for clinical case studies discussions, case presentations and preparation for the HESI's Advanced Practice Registered Nurse: Family Nurse Practitioner. **Pre-Requisite: NURS 512-O**

OTEM 101-O Introduction to Office Technology Systems
3 Credits

This course introduces the student to basic computer concepts, the internet as a technological resource, electronic mail, and the importance of different computer applications. The student will be introduced to the basic concepts of information processing, as well as the basic concepts of data processing. Emphasis will be given to acquiring basic computer skills. **Pre-Requisite: None**

OTEM 201-O Information Technology
3 Credits

This course will develop different input technologies: digital image, scanning, speech recognition, electronic communication and information processing. **Pre-Requisite: OTEM 101-O**

OTEM 202-O End-User Productivity Programs
3 Credits

This course presents the three most important Microsoft Office applications: Microsoft Word, Microsoft Excel, and Microsoft PowerPoint. It emphasizes the use of the programs, independently, to carry out efficiently all applications in an enterprise. In this course, the student will practice the common skills that every user needs to know to perform his/her job efficiently. **Pre-Requisite: OTEM 201-O**

OTEM 303-O Introduction to Database Administration
3 Credits

The course provides the concepts, techniques and necessary skills for the analysis and design of databases. The course offers the necessary tools for the creation, the

handling and maintenance of the data. It applies the knowledge to different cases. The student learns how to analyze the data to present it in form of tables, reports and queries. It provides the basic of the SQL programming language. **Pre-Requisite: OTEM 201-O**

OTEM 310-O Office Information Administration
3 Credits

This course develops in the student the competitions to administer all types of offices. The processes and administrative basic principles and topics are presented such as: administration of documents using the rules promulgated by ARMA (Association of Records Managers and Administrators, Inc.), ethical aspects and social responsibility, efficiently work and time management, the importance of ergonomics in the office environment, relevant information for the selection of office personnel. Motivational techniques of motivation and the selection of employees are also discussed. **Pre-Requisite: None**

OTEM 401-O Electronic Publications
3 Credits

The course of Documents Publishing prepares students in the use of desktop publishing applications and design software to help them create high quality documents like the ones used in business environments. Students will design and create office documents and publications such as letterheads, flyers, graphs, greeting cards, invitations, certificates, business cards, etc. Additionally, students will have the opportunity to efficiently communicate using basic design concepts. **Pre-Requisites: OTEM 202-O, OTEM 405-O**

OTEM 402-O Network Electronic Document Publications
3 Credits

This course has been designed to develop the skills and knowledge that are necessary to generate structures of textual and visual content that can be shown efficiently on the Web. The student will use the design principles and a variety of techniques to prepare commercial and professional webpages. **Pre-Requisites: OTEM 202-O, OTEM 401-O**

OTEM 404-O Office Systems Training and Development
3 Credits

This course focuses on learning theories and instructional development to education as applied in the training of employees in office systems. The following material will be covered: needs of the employee and the business, selection of instructional strategies, conducting the

training, along with follow-up re-training. **Pre-Requisite: None**

OTEM 405-O Integration of Applications

3 Credits

The programs of Microsoft Office: Word, Excel, PowerPoint, Access and Outlook are integrated in this course. The student will use the knowledge previously acquired. She/he will use Internet and e-mail options to integrate documents. She/he will create different types of documents for the solution of which critical thinking will be applied. **Pre-Requisites: OTEM 202-O, OTEM 303-O**

OTEM 410-O Final Project in Electronic Publications

3 Credits

The course provides students with a simulated scenario where they will work out the tasks of an employee to design documents for publishing on the Internet. The students apply principles and techniques acquired in previous courses. They will work on projects and case studies individually and in a collaborative environment. **Pre-Requisites: OTEM 401-O, OTEM 402-O**

OTEM 415-O Strategic Content Management

3 Credits

Study of the principles and practices for the design, development, and maintenance of virtual projects for audiences of all types and sizes. The course presents a unique strategy that combines three critical elements of the Optimized Content Management: Processes, technology, and people. **Pre-Requisite: OTEM 405-O**

OTEM 416-O Electronic Documents Management

3 Credits

The course of Electronic Document Management defines and simplifies the principles found in engineering and document management. Allow to set the methods and techniques for planning, building and maintenance of automated system (EDMS) for a fast and efficient storage and retrieval of documents and forms. **Pre-Requisite: OTEM 415-O**

OTEM 420-O Final Project: Management of Electronic Content

3 Credits

Application of concepts, principles and practice of system design, and programming techniques for developing applications in engineering and document management. Includes design and programming files for the implementation of the system (EDMS) and Optimized

Content Management System (CMS). Requires the use of laboratory. **Pre-Requisites: OTEM 415-O, OTEM 416-O**

POSC 380-O Constitutional Law

3 Credits

The course is an introduction to the constitutional development of United States, with emphasis on civil rights provisions in the Constitution. **Pre-Requisite: SOSC 111-O**

PRTE 630-O Instructional Design and Technological Project I

3 Credits

Individual supervised project consisting of presenting an innovative technological instructional design as a solution to a real educational problem of practical nature. Discussions will be held to guide students in identifying the problem, present the hypothesis, research, data collection, data analysis, interpretation, presentation, and conclusions. Significant information must be presented to prove the need of the technology integration as a tool for virtual education environments. **Pre-Requisites: All ETEL Courses**

PRTE 640-O Instructional Design and Technological Project II

3 Credits

Supervised individual research project and critical analysis of the models of instructional design for synchronous or asynchronous virtual learning environments. Comprehensive study of the development and implementation of models that exist for distance or e-learning instruction. Analysis of interoperability and development of learning tools and content management in the implementation of e-learning, with the aim of developing an innovative technological solution to a problem of practical nature in general educational meaning or distance education instruction. It is expected that at the end of the project the student is able to present significant contributions that support the management of instructional designers to improve the performance of students in e-learning, virtual learning, and education communities at distance. **Pre-Requisites: Core courses**

PSYC 123-O General Psychology (Compendium)

3 Credits

This course is a condensed version of PSYC 121-O and PSYC 122-O. It is an introduction to basic theories of human behavior and their relation to social progress and individual growth. **Pre-Requisite: SOSC 112-O**

PSYC 225-O Social Psychology

3 Credits

This course will provide the opportunity for students to learn and understand how people think about each other, how they influence each other, and how they relate to each other, within social, cultural, and historical contexts. The course will promote the examination of the social thought process, the social behavior of people, and the connection between the two. The student will also become familiar with themes and concepts proposed by well-known authors and theorists in the field of social psychology. This course requires IRB certificate. **Pre-Requisite: PSYC 123-O**

PSYC 228-O Diversity Psychology

3 Credits

Study of the human and cultural diversity from the perspective of the sciences of conduct. Analysis of the differences and similitudes of the individual human behavior as it relates to ethnicity, gender, religion, age, disabilities, sexual orientation, learning differences, types and levels of intelligence, language, and socioeconomic status, among others. Analysis of the psychological, social, economic and legal implications using as a framework current research on diversity. This course will be conducted through discussion of topics, research, case studies and case analysis, technology and group projects. **Pre-Requisite: None**

QYLE 110-O Attitude Development and University Adaptation

3 Credits

Analysis and evaluation of the values, attitudes, and prejudices in the academic and professional life. Studies the effect that students' behavior has in their lives and in other people's lives as well. Evaluates different styles of ethical behavior from different philosophical perspectives. This allows them to choose the perspectives that foster greater self-control particularly in the academic setting. Students apply concepts through concept maps, self-reflections, case study, role-playing, group work, and the responsible use of technology. **Pre-Requisites: None**

SCIE 111-O Integrated Sciences I

3 Credits

This course integrates concepts from the different areas of sciences. It includes the study of the nature of sciences, the scientific method, the relationship between science and technology, matter, and energy. The origin and

evolution of live organisms and the conservation, nutrition, health and interactions between these and the environment will also be studied. **Pre-Requisite: None**

SCIE 112-O Integrated Sciences II

3 Credits

SCIE 112 is the second part of the introductory course to the fundamental concepts of Environmental Sciences and Biology. The course focuses on the study of living organisms and the interaction among them, placing emphasis on the scientific method, logical reasoning and the development of critical and creative thought to understand the molecular and cellular base of all organisms. It also covers topics such as evolution and inheritance based on classic and molecular genetics. It discusses cell energy, metabolism, cell reproduction and growth and their interrelation, to understand how organisms function and the role homeostasis plays on each living being. **Pre-Requisite: SCIE 111-O**

SOCI 358-O Social Problems of the Hispanic Community in United States

3 Credits

The course deals with social problems in contemporary United States. Historical perspective on the problems, their causes, public and private problem-solving policies will be discussed. Topics include demographic problems, poverty, educational deprivation, crime, drugs and alcohol and the problems of victims in United States. **Pre-Requisite: SOSC 112-O**

SOSC 111-O Individual, Community, Government, and Social Responsibility I

3 Credits

This course focuses on the study of the civic, social, cultural and psychological elements of the individual in our society. Topics are stated in the context of the personal, interpersonal and social dimensions. **Pre-Requisites: None**

SOSC 112-O Individual, Community, Government, and Social Responsibility II

3 Credits

Study of civic, social, cultural and psychological elements of the individual in our society. Topics are stated in the context of the personal, interpersonal and social dimensions. **Pre-Requisite: SOSC 111-O**

SOSC 303-O Applied Statistical Methods for Social Sciences

3 Credits

Statistical methods applied course is introductory to the field of statistical methodology applicable to the field of social sciences. It provides an overview of descriptive and inferential statistics of greatest relevance to the field of social services. **Pre-Requisite: MATH 120-O**

SOWO 200-O Introduction to Social Work

3 Credits

The aim of this course is to discuss the basic concepts, historical development, and the fundamental components of the Social Work profession. It will allow the examination of values, beliefs, and ethical principles of the Social Work profession. **Pre-Requisite: SOSC 111-O**

SOWO 211-O Human Behavior and Social Environment I

3 Credits

This course provides a conceptual framework that allows students to examine human behavior and its relationship with the social environment. Studies the relationship and the influence of psychosocial and spiritual factors in social systems and theories related to the human behavior. **Pre-Requisite: SOWO 200-O**

SOWO 212-O Human Behavior and Social Environment II

3 Credits

Study of the sequence of intervention levels from micro to the macro systems, based on the knowledge of the General Systems Theory. Emphasis on critical analysis of the structural and functional aspects of the systems, the manifestations of oppression and the dimensions of human diversity. **Pre-Requisites: SOWO 211-O; Co-Requisite: SOWO 311-O**

SOWO 300-O Social Policy

3 Credits

This course will allow the identification of factors that influence Social Policy and the organization of the Social Welfare System. Students will analyze existing social services and the roles of Generalist Social Work Professionals. **Pre-Requisites: SOWO 212-O**

SOWO 311-O Social Work Methodology I

3 Credits

This course shows an overview of the methodology of social work and development of the generalist method.

Allows the identification of phases and purposes of the aid process and its applicability to individuals, families, groups and communities. It emphasizes on the professional relationship, values and ethical principles. **Pre-Requisites: SOWO 211-O; Co-Requisites: SOWO 212-O**

SOWO 312-O Social Work Methodology II: Individual and Family

3 Credits

The student will develop knowledge and skills in the intervention with individuals and families and the social problems faced within society; on the basis of Generalist Social Work Method and micro systemic intervention models. The student will document his intervention guided by the ethical principles of the profession. **Pre-Requisites: SOWO 311-O**

SOWO 313-O Interview and Documentation in Social Work

3 Credits

This course is focused on the study of purpose, components and factors of the human communication process, interview and documentation in Social Work. It allows the development of the necessary skills to interview and document the process within the ethical standards of Social Work profession. **Pre-Requisites: SOWO 311-O**

SOWO 314-O Social Work Methodology with Groups

3 Credits

This course is focused on the development of knowledge and skills in the generalist intervention with groups. The student will know about theoretical and practical group methods and will analyze the fundamental principles that guide the Social Work professional intervention with groups. **Pre-Requisites: SOWO 312-O**

SOWO 315-O Social Work Methodology with Communities

3 Credits

The course allows the student to acquire fundamental knowledge and develop skills in a generalist intervention with communities. Promotes the discussion of the theoretical approaches and applicable models of community interventions and the historical evolution of Community Social Work and its development in United States. **Pre-Requisites: SOWO 312-O**

SOWO 320-O Social Research Techniques

3 Credits

This course aims towards the identification of the nature and function of scientific social research and its contribution to the knowledge and practice of the Social Work profession. It will allow ethical applications, quantitative, and qualitative methodological approaches.

Pre-Requisites: SOWO 212-O, SOSC 303-O

SOWO 325-O Social Gerontology

3 Credits

This course is directed towards the identification of biopsychosocial, cultural, and legal implications of the aging process, and the manifestations of discrimination based on age. Students are instructed on theoretical and methodological approaches to intervene with older adults. **Pre-Requisites:** SOWO 312-O

SOWO 330-O Seminar: Current Topics in Social Work

3 Credits

The course addresses topics relevant to the practice of the social work profession. Students study theoretical and practical aspects in topics, such as: gay, lesbian, bisexual, transgender, transsexual; survivors of domestic violence, delinquents, drug dependents, the elderly, victims of child abuse, physically and mentally challenged individuals, marginalized people, the homeless, among others. The seminar will allow the students to critically analyze the context of the topics, and to examine their values, and beliefs in the ethical intervention of the social work profession. **Pre-Requisites:** SOWO 313-O

SOWO 441-O Practicum Seminar I

3 Credits

Seminar that complements Supervised Practice I (SOWO 451) and integrates the student's knowledge, skills and attitudes to construct his/her identity as a professional social worker. It facilitates the understanding of the relationship between theoretical knowledge and practical experience in the context of an agency and direct service. **Pre-Requisites:** SOWO 315-O; **Co-Requisites:** SOWO 451-O

SOWO 442-O Practicum Seminar II

3 Credits

Seminar that complements Supervised Practice II (SOWO 452). It facilitates the integration of theoretical knowledge, skills, attitudes acquired in the supervised practice I emphasizing methodological aspects of intervention in diverse contexts. **Pre-Requisites:** SOWO 441-O, SOWO 451-O; **Co-Requisites:** SOWO 452-O

SOWO 451-O Supervised Practice I

4 Credits

The supervised practice I (SOWO 451) places the student in direct service activities, and provides the necessary experience for the application of the theories, methodology and skills acquired, in an ethical and responsible manner, under the supervision of a Social Work professional. The student is expected to satisfactorily achieve the supervised practice objectives as presented in the Field Practicum Handbook. **Pre-Requisites:** SOWO 315-O; **Co-Requisites:** SOWO 441-O

SOWO 452-O Supervised Practice II

4 Credits

The purpose of the Supervised Practice II is to continue the intervention phases of the course Practice I (SOWO 451), the subsequent phases of the generalist method and the evaluation of the practicum experience. It facilitates the application of theories, methods and acquired skills in an ethical and responsible manner, under the supervision of a licensed and qualified Social Work professional. **Pre-Requisites:** SOWO 441-O, SOWO 451-O; **Co-Requisites:** SOWO 442-O

SPAN 050-O Basic Preparatory Spanish

3 Credits

This is a preparatory Spanish course for undergraduate level students. It is designed based on a conversational and grammatical integrated approach. The course integrates a language lab to complete undergraduate level activities, workshops, and exercises to increase proficiency in Spanish. Dual language (English/Spanish) methodologies and strategies are used.

SPAN 100-O Communications Skills for Spanish as a First Language

4 Credits

This course fosters the development of language skills, both written and oral, as basic elements to convey different types of messages in accordance with the principles of effective communication and grammar rules in Spanish. At a basic level, it aims to introduce students to the proper use of language in their professional fields and in their private lives, always applying the standards governing the formal features of the Spanish language. It is through meaningful exercises and activities that spelling and grammatical rules are emphasized, while keeping the focus on reading comprehension as a skill that helps them to express themselves both orally and in writing effectively. It emphasizes effective oral communication as

a useful tool in the professional and personal development of the students. In addition, it introduces and emphasizes the verbal and written aspects of language as important elements in formal communication. Finally, the resources and practical exercises found in the Language Lab/E-Lab are essential to this course. This language lab component has been placed in order to support students as they prepare to become bilingual and competent individuals in both their professional and personal lives. This course requires the use of the Language Lab/E-Lab and all its resources, guided and supported by all Spanish faculty members.

SPAN 102-O Basic Level Spanish

4 Credits

This course fosters the development of language skills, both written and oral, as basic elements to convey different types of messages in accordance with the principles of effective communication and grammar rules in Spanish. At an intermediate level, it aims to introduce students to the proper use of language in their professional fields and in their private lives, always applying the standards governing the formal features of the Spanish language. It is through meaningful exercises and activities that spelling and grammatical rules are emphasized, while keeping the focus on reading comprehension as a skill that helps them to express themselves both orally and in writing effectively. It emphasizes effective oral communication as a useful tool in the professional and personal development of the students. In addition, it introduces and emphasizes the verbal and written aspects of language as important elements in formal communication. Finally, the resources and practical exercises found in the Language Lab/E-Lab are essential to this course. This language lab component has been placed in order to support students as they prepare to become bilingual and competent individuals in both their professional and personal lives. This course requires the use of the Language Lab/E-Lab and all its resources, guided and supported by all Spanish faculty members.

SPAN 115-O Reading, Writing, and the Oral Communication in Spanish I

4 Credits

This course fosters the development of language skills, both written and oral, as basic elements to convey different types of messages in accordance with the principles of effective communication and grammar rules in Spanish. At a high intermediate level, it aims to

introduce students to the proper use of language in their professional fields and in their private lives, always applying the standards governing the formal features of the Spanish language. It is through meaningful exercises and activities, with emphasis on spelling and grammatical rules, and the correct use of writing/editing techniques, that college-level students will learn effective ways to express themselves and apply these to their subject area. They will not only learn the proper rules for written communication, but also the correct etiquette that includes from writing e-mails to written reports. Special attention is given to verbal communication and body language as important characteristics of formal communication. Finally, the resources and practical exercises found in the Language Lab/E-Lab are essential to this course. This language lab component has been placed in order to support students as they prepare to become bilingual and competent individuals in both their professional and personal lives. This course requires the use of the Language Lab/E-Lab and all its resources, guided and supported by all Spanish faculty members.

Pre-Requisite: NONE

SPAN 116-O Reading, Writing, and the Oral Communication in Spanish II

4 Credits

This advanced Spanish course focuses on the use of language from a communication approach thus allowing the adult learner to further develop his/her language skills. In addition, the course deals with reading analysis and interpretation in reference to the evaluation of the content of the message (inference, critical analysis, distinguishing between facts, opinions, and assumptions), which goes beyond the meaning of the text, techniques, and author's resources. It also includes studying the text readings from the reader's perspective, while analyzing the content in reference to the central idea of the context, secondary idea, vocabulary, the correlation of ideas, different types of speeches, and languages. The course will give special attention to the proper wording of messages and sentence/paragraph construction. It will allow many opportunities to practice and manage grammatical structures in reference to spelling, punctuation, the development of techniques for oral presentations, proper body language, and the use of technology. The course pays close attention to the practice and management of grammatical structures in regards to the inaccuracies or misuse of the language (barbarisms, solecisms, ambiguities, agreement, pleonasm, etc.). The course is developed through reading discussions, reflections, reviews, research, essay writing,

and oral presentations supported by technology. Finally, the resources and practical exercises found in the Language Lab/E-Lab are essential to this course. This language lab component has been placed in order to support students as they prepare to become bilingual and competent individuals in both their professional and personal lives. This course requires the use of the Language Lab/E-Lab and all its resources, guided and supported by all Spanish faculty members. **Pre-Requisite: SPAN 115-O**

SPAN 151-O Basic Spanish I

3 Credits

3 Credits

This is an introductory statistics course dealing with frequency distribution, presentation of statistical data, measure of central tendency, and dispersion. The concept of probability, and probability distributions used commonly in business analysis is emphasized. **Pre-Requisite: MATH 112-O**

STAT 202-O Administration Statistics II
3 Credits

This course focuses on the study of sampling distributions, estimating with confidence intervals, hypothesis testing, analysis of variance, simple regression and correlation, decision analysis, and techniques of quality control. Chi-square and other nonparametric tests are studied in the course. **Pre-Requisite: STAT 201-O**

STAT 555-O Statistics for Decision-Making
3 Credits

The course centers on the study of concepts and statistical methods useful to administrators in their decision-making processes. The course covers descriptive statistics and inferential statistics. Computer applications are part of the course.

TESL 222-O Methods of Teaching ESOL Students in School
3 Credits

This course is a survey of the historical law, and current approaches, methods, and techniques of teaching English to Speakers of Other Languages. Successful classroom practices that address the needs of culturally diverse and language minority students will be analyzed. It addresses ESOL requirements and Florida TESOL Program Goals. The course is designed to provide students with information and skills concerning the education of students who have limited English proficiency (LEP). The course focuses on cross cultural understanding strategies, and methods of teaching, curriculum, assessment and linguistics research-based practices to improve student achievement. This course is considered the ESOL required course. This course must be taken before the student takes any other ESOL integrated course. **Pre-Requisite: ENGL 231-O**

TESL 223-O Applied Linguistics in ESOL
3 Credits

Language educators need a well-grounded background in the area of language study in order to meet the diverse and specialized needs of their students. This course is designed to provide students with the essential basis on which they can build future studies of language learning and teaching. It examines major areas of linguistics (e.g., phonetics, phonology, syntax, semantics, and sociolinguistics) and focus on various aspects of language structure and use. What does it mean to know a language? How are young children able to produce an infinite number of sentences given a relatively limited set of lexical items? What are the types of variation found in language? How do second language learners approach the complex task of L2 acquisition? These are only some of the

questions that this course will help you answer. All the topics, however, will enrich their knowledge of language, and how it impacts language learning and teaching. **Pre-Requisite: TESL 222-O**

TESL 522-O Theory and Practice of Teaching ESOL

Students in Schools

3 Credits

The above course examines the various methods for teaching a second language, as well as its principles & foundations. It reviews the evaluation, design and adaptation of materials for teaching English as a second language. Fundamental to this course is the critical analysis of research on methods for teaching a second language. **Pre-Requisite: None**

TESL 523-O Understanding English Language Learners for School Counselors

3 Credits

This course has been designed for graduate students to meet the state required standards addressing English Language Learners. This course focuses on the application of the historical processes and research based on proven practices for English Language Learners to achieve academic performance in school from the perspective of the school counselor and school administrators' expectations and roles. The course is a survey of law, linguistics, culture, methodology, curriculum, and assessment practices that impact student achievement and school administrators. Students will develop a clinical field experience project that applies to their area of expertise. **Pre-Requisite: None**
